The publisher desires to urge upon the notice of all who wish to contribute matter of any kind to the ADVANCE's columnswhe her it be advertising, news or notices of meetings, etc .- that the paper goes to press on Wednesday afternoons and, to ensure publication, their favors should be in the office not later than Wednesday morning. delayed by persons who hold back accounts of meetings, announcements of entertainments, etc., which they might easily send in days before that on which we go to press, but they seem to consult only their own convenience and often place them in our hands on Wednesday after the paper is made ready for press, and seem to think it a hardship because they do not appear; and, in most cases of this kind, the contributions are really tree list advertisements. We want to help every deserving organization in the community, freely, in every legitimate way, but must expect them not to delay the publication of the paper when they wish to make use of our columns. by Fire. At "first bell" time-10 o'clock - last Sunday morning, quite a big fire took place in St. Luke's Methodist church. The sex-

ton, Mr. Samuel Irvine, had the misfortune to cut one of his feet badly on the next preceding Friday, which incapacitated him for duty and the work of attending to the furnaces was being temporarily performed by a lad named Guy Tait. He had fixed up the fires early in the morning and returned to ring the ten o'clock bell. While he was doing this Mr. James Pitt and one or two others connected with the church arrived and discovered that the building was on fire. Mr. Pitt gave the alarm to ald. Wyse who lives across the street from the church and young Tait was directed to run to the Water was carried across from Mr. Wyse's meantime, and an endeavor made to extinguish the fire, which had evidently originated in the furnace room on the west side, between which and the Sunday burned up through the cailing and got int the walls and run along under the floor o church and up to the wood-sheathed ceiling. so that by the time the town hose reels got to the scene and hose was attached to the hydrants, the smoke was so de se that the

gress of the flames was soon arrested and the tire all out. When the place was fit for examination it presented a much wrecked and destroyed appearance. The organ, which was in the end furthest from the fire, had, in the blinding smoke, been thoroughly deluged with water, and destroyed. Some of the seats were broken and all more or less damaged, the carpets all over the church and the pulpit and choir furniture were ruined. The
