> vent and devotedly nursed by the nuns, but all their efforts to get her admitted into a home of the kind were quite fruitless. Then the girl, learning that the King was patron of one of these institutions on the south coast, resolved secretly to write to him and plead for his assistance.

A fortnight later a man called at the convent and asked to see her. He gave no name, and at first he was told that she was too ill to see him. He then explained that it was necessary for him to see her, as he had come to inquire into her case, and as to the desirability of sending her to an open air home for the treatment of consumption. She was aided downstairs, and he questioned her as to what the doctors had said, and then inquired to whom she had applied for help.

She mentioned several names, and at last hesitatingly admitted that she had written to the King. He then informed her that he had come from the King to inquire into her case, as His Majesty had noticed her letter and wished to help her. After further inquiries everything was satisfactorily arranged and the girl was First Chappie (just from abroad) sent for a prolonged period to the
