Miramichi Advance.

Hon. Mr. Blair Retires From Parliament.

Tuesday says : Hon. A. G. Blair left today for New York, but before leaving he forwarded a letter to his constituents in St. John city announcing his resignation.

An authentic Ottawa despatch

will be published Thursday morning. "The appointment of Mr. Blair chairman of the railway commission may not be put through for some time vet, but the delay is not caused account of the position which he is fill, which has been finally settled.

#### High Sheriff O'Brien.

The appointment of Mr. John O'Brien. late M. P. P. for Northumberland, as High Sheriff of the county, in succession to the late Sheriff Call, is officially announced by a Royal Gazette, extra. The offer of the position was tendered to Mr. O'Brien by Premier Tweedie recognition of his having been for this teer years a representative of the County, and supporter of the government, it being understood that if Mr. O'Brien declined it would be offered to Mr. C. E. Fish. who had been in a similar position for nearly as long a time

Mr. O'Brien has long been identified with the business of the county as general merchant and lumber operator and manufacturer. Mr. O'Brien sat for a number of years in the Municipal Council and served as Warden of the county, and is vice president of Northumberland Agricultural Society, No. 9. He 13 a popular man with all classes and was Enlarging, Framing, Etc., as especially so with his associates in the Legislature.

#### A Peculiar Election

The election in North Renfrew to fill : vacancy for that riding in the Outario Legislature took place on Saturday and resulted in the return of the Conservative candidate, Mr. E. A. Dunlop, by more than 500 majority. The result is a big Liberal slump and

reduces the Ontario government's majority to three on a vote in the House. The election was a most exciting one and despite the fact that the thermometer

registered 40 bolow zero the largest vote

in the history of the riding was polled. The Toronto Globe, after noticing the extreme change partly attributed to the personality of the candi lates and the very imited discussion of public questions by the opposition orato s, says :

"The only distinguishing feature of the campaign, apart from the personality of the candidates, was the Gamey charges. QC ST. JOHN TO OC Both the provincial secretary and the member for Manitoulin were active in the campaign, and from many platforms the charges against the minister were discussed, with heat and demonstration.

"The Gamey case was, indeed made the issue by the opposition. It is with a sense of shame that one thinks of the degradation of politics, the prostitution of the privileges of our political institutions. which would allow that most disgusting episode in our political history, fraught as it is with treason and perjury and the lowest political indecency, to be made. by the leaders of a political party, the supreme issue in ah election campaign, and the discredited man himself the out standing figure. Is there any deeper depth to which our politics can sink or SPECIALTIES any innermost cell into which the canker

of corruption can eat? "The effect on the political parties of so signal a turnover in a by-elect on cannot as yet be justly es imated. From the Liberal point of view the result is a Scale. A permanent position for the right disappointment to those who desired to see Premier Ross strengthened and given a wider margin and a freer hand. This reversal only renders the situation mordifficult. With three of a majority he is TORONTO - - ONTARIO still in control and will meet the legisla-

"The significance of the Renfrew elec campaign, will not be misunderstood by the pemier or by the Liberal party. To Mr. Whitney and his followe's the situation created by their success is not without its embarrassments. If, as they allege, the vote is a verlict for Mr. Gamey, it has its significance for the IN THE SAVINGS BANK DEPARTMENT government but it may prove even more damaging to the opposition. They may find that they have paid too much for their whistle. They made him their hero and campa go figure, and for that they must pay. They have, indeed, succeeded, but there might have been some chance for their party self-respect had they fail-

### New Brunswick's Representative

In the London correspondence of the Glasgow Herald of 7th inst., New Brunswick's efficient Agent-General is given a deserved prominence in the following carried by water to Sidney and three or reference to the late Parliamentary visit

Other days as usual from 10 a. m. until "I have had an interesting conversation gested, but on account of shallowness of with Mr. Charles A. of all the great British Colonies, and when the representatives from Canada were introduced the President gave them a particularly hearty welcome. But the kindness and courtesy extended to the ent re British party could not have been exceeded, and will endure forever, a pleasant episode in the annals of England

and France.

There is another phase about this visit to France. - It is the first time that the Colonies have been officially represented individually in a foreign country, and given a place along with the Parliamentary representatives of Great Britain on an equal footing. While this is as it should be, there surely ought to be within Imperial Britain the same status of equality for the representatives of all the self-governing Colonies. Meanwhile it is not so, and in evidence thereof the Agents General for Nova Scotia, New Brunswick, and Prince Elward Island are not accredited to the Colonial Office, as is the case with those from the various Australian Colonies."

#### The New Timber Regulations.

The following information regarding the new timber regulations is published in the Royal Gazette :

regarding crown timber lands, the following amounts are hereafter to be col lected for stumpage:

The upset price for mileage on timber licenses will be twenty dollars per square mile, and the renewal mileage on tunber iceases will be eight dollars per square

#### IRON MINES IN Gloucester County!

[Daily Telegraph, Dec. 25.] Provided proper transportation facilities are secured, the Dominion Iron & Steel Company will in the spring have a large staff of miners working on a deposit of magnetic iron ore about twenty miles from Bathurst. J. L. Masters, mineral enginsering expert for the company is spending Christmas at Mrs. Hall's, 54 Orangtreet. When seen last night he would not say anything officially, but admitted that the company had secured control of tract of land fifteen square miles in extent up the Nipisquit river on the Austi-Brook. There is a large deposit " magnetic iron ore there which contains tifty per cent. of iron with a trace of manganese, the presence of which makes he mineral all the more valuable. The deposit was discovered about three year ago by William Husey, who communicated his secret to T. M. Burns, M. P. P., for Gloncester county. About six months ago they began to work it, but agreement with the Dominion Iron & first year and three dollars yearly thereafter. Steel Company by which they surrendered

all right or title in the mine. THINKS PROSPECTS GOOD. The season being so far advanced all efforts of the company have been directed towards exploration. The outeroppings are visible over an area of four mil s and vary from fourteen to forty feet in width. Of course the question of whether the iron is in pockets or not can be determined only later on, still Mr. Masters, considering the general geological condition of the surrounding country, considers the prospects for mining very

The transportation facilities form the most serious problem. The company intends having a diamond drill in operatien in the spring and a large staff of men will be employed. The coast has been examined with a view to harbor accommodation, as the ore will have to be four different points have been considered. Newcastle and Bathurst have been sug-

-EDITOR OF THE ADVANCE. OPENING UP THE COUNTRY. Another purpose this railroad would timber. The soil, too, is excellent and successful farming can be carried on in

as English does. At the Elysee reception, been studying the geological conditions in Applications should be addressed to the shall be president, vice-president, secretary-THE MARLIN FIRE ARMS CO. | Mr. Duff-Miller informed me, it was New Brunswick and he had great faith in Director of Experimental Farme, Ottawa, treasurer and four additional members of the

work done hitherto has been superficial. and no doubt beds of coal of great economic value will yet be discovered. NEW BRUNSWICK'S MINERALS.

Personally he had examined iron ore deposits in various parts of the province and was most favorably impressed by them. The great drawback was the lack of transportation and if economical means were provided mines would soon be developed. Manganese, of which large deposits were to be found in various parts of the province, is of great value in the manu. facture of steel and the Dominion Iron & Steel Company, which has now passed the most crucial time in its history, will be ready and willing to develop these any. where they can be found.

A London despatch says that Lord Strathcona has agreed with the board of education respecting certain corrections to be made regarding Canada in the text books of the board schools. Some of quotations that ought to be corrected refer to haymakers being frozen to death in their tents; the Indians being quite tame; districts where havmaking has all to be done at night, because dare not face the flies in the hot summ days; places where milk is delivered cakes to customers; and localities where. Pursuant to the new regulations made when winter once sets in, the people are frozen up till spring.

#### N. A. Fish and Game Protective Association

The fourth Annual meeting of the North American Fish and Game Protective ciation is to be held at the Falmouth Hotel Portland, Me , on Wednesday and Thursda 20th and 21st January next,

The Association is composed of citizens of Canada and contiguous States of the Moneton. information relating thereto.

At the annual meetings the members are have already taken up farms there. hard workers. Three sessions are held each! many others, and very full discussion of all a couple of roads in the State of Maine.

the subjects introduced was had. The meeting at Portland next month will, loubtless, be of equal interest. The area of country represented in the organization as follows :-

PRESIDENT: L. T. Carleton. Augusta, Me. SECRETARY-TREASURER: E. T. D. Chambers, Quebec, Canada.

VICE PRESIDENTS : H. O. Stanley, Dixfield, Me. J. Fottler, jr., Boston, Mass. R. E. Plumb, Detroit, Mich. A. T. Dunn, St. John, N. B. N. Wentworth Hudson Centre, N. H. C. H. Wilson, Glens Falls, N. V. G. A. McCallum, Dunnville, Ont. J. T. Finnie, Montreal, Que. Gen. F. G. Butterfield, Derby Line, Vt. C. S. Harrington, Halifax, N. S. S. A. McGrath, Franklin, Pa.

EXECUTIVE COMMITTEE : Chas. E. Oak, Augusta, Me. F. S. Hodges, Boston, Mass. Henry Russell. Detroit, Mich. D. G Smith, Chatham, N. B. N. Wentworth, Hudson Centre, N. H. J. H. Seymour, New York, N. Y. S. T. Bastedo, Toronto, Ont. C. E. E. Ussher, Montreal, Que. F. L. Fish Vergennes, Vt. H. M. Wallace, Halifax, N. S.

Men interested in the objects of Association should, if possible, assist its work by being members. The entrance is \$2 and annual dues \$3—that is, \$5 for the Anglers and sportsmen who can do so would find great advantage in joining the Association and attending its annual meeting this year, especially when it is being held at convenient a point as Portland. Meetings have, since the organization, been held Montreal, (2); Burlington, Vermont, and Ottawa. Portland is quite as convenient as any of these to the majority of the members belonging to the Upper Provinces of Canada while it is more so to those of the Maritime Provinces. Citizens of the United States who are interested in the fish and game regions of Canada take a great interest also in the Association, and a greater number of residents of the Maritime Provinces should show a similar disposition to assist in promoting the work of the organization.

Applications for membership should be addressed to the Secretary-Treasurer, Mr E. T. D. Chambers, Quebec; or if they ar entrusted to any of the other officers they will be glad to see them properly forwarded

Improvement of Seed.

DEAR SIR, -By instruction of the Hon. Minister of Agriculture another distribution will be made this season of samples of the nost productive serts of grain to Canadian farmers for the improvement of seed. The stock for distribution is of the very best and has been secured mainly from the excellent crops recently had at the branch Experimental Farm at Indian Head in the North- New Brunswick Teashers' Association. west Territories. The distribution this The motion was unanimously carried. spring will consist of samples of oate, spring The following constitution was then thor wheat, barley, Indian corn and petatoes. The quantities of oats, wheat and barley to be sent this year will be 4 lbs. of oats and 5 New Brunswick Teachers' Association are of wheat or barley, sofficient to sow one twentieth of an scre. The samples of of teachers; third, to lengthen the period of Indian corn and potatoes will weigh 3 lbs. heretofore. Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual receives a sample passage of laws beneficial to the profession, of eats he cannot also receive one of wheat, and to improve the condition of teachers and barley or potatoes, and applications for more schools than one sample for one household cannot be

of charge through the mail.

so that all the samples asked for may be sent out in good time for sowing. Parties writing should mention the sort of variety they would prefer, and should the available stock of the kind asked for be exhausted some other good sort will be sent in its place.

WM SAUNDERS. Director Experimental Farms. Ottawa, December 15, 1903.

### Beersville Railway

Brown Bros. have Completed a Road from Adamsville to Beersville in Record-Breaking Time.

[St. John Sun, Thursday 24th.] J. C. Brown, Wilmot B own and Gilmor Brown, of the firm of Brown Bros , Adams ville, railway contractors, were in the city vesterday, registered at the Victoria hotel. These gentlemen have just fulfilled their contract for building the railroad from Adamsville to Beersville a distance of seven miles. The contract was entered into on Sept. 24th last, and the road was completed in three months, which, considering the natural difficulties that had to be overcome and the length of the road actually built, i looked upon by railroad men as a record breaker, Adamsville is six miles south o Harcourt, on the I. C. R., and the new road runs east in almost a straight line to the Imperial Coal Company's coal mine. The first car of coal from the mine was Lover the toad last Tuesday.

the principal owners of the mine are Messrs. Polleys, of Moncton, and Hagen and Purdy of New York. The com pany owning and operating the new railroad was incorporated at the last session of the Canada and the United States, whose efforts New Brunswick legislature, and its manage are directed towards the harmonizing of the ing directors are: Dr. Keith of Harcourt, fish and game laws of the different Provinces Hon Clifford Robinson and Mr. Polleys of

Do this and your hearing will be restored. (zone never fails; it is guaranteed. Two months' treatment for \$1.00 at druggists.

### Beats the Fish Stories.

A London despatch of 26th inst. gives us a story which suggests that centrifugal force has been overcome by the alleged inventors of a method by which milk is now being solidified on a considerable scale, who say they confidently believe that their discovery will not only abolish the many dangers of the dairy, but will eventually do away with the dairy itself; they are confident, that is, that the day of liquid milk is over.

People who have tried to solidify milk before have employed too low a temperature in their fear of decomposing its fats and sugars, and in consequence have failed. But by the Just-Hatmaker process the liquid milk is whisked around polished cylinders kept at a fierce heat by steam, and comes off in a few seconds in the form of continuous creamy white sheet, five feet in

be compressed into cakes, The future of the product is that it still potentially milk-the whole milk, and nothing but the milk, and to make new milk at any time it is only necessary to add the seven parts of water which have been

The result is said to be difficult to distinguish from fresh milk. Its cream rises carurally, and it may be made into butter or cheese. The powder and cakes keep ind:finitely, and samples have been sent round the world and kept for three weeks in Shanghai, returning quite fresh. Obviously it is impossible to water, skim. or adulterate solid milk, and a fact to which that all a tempts to cultivate microbes on it
