Probably Well Founded Rumors. During the past week, the papers of the Dominion have been publishing a number of rumors indicating the probability of Hon. Henry R. Emmerson, M. P. for Westmorland, being called to the office of Minister of Railways and Canals, vacated by the resignation of Hon. A. G. Blair.

AS IT SHOULD BE. For a few months past the editorship of the Chatham Standard has been practically in the hands of Hon. J. Fraser, afterwards lieutenant-governor of the province, because he was the first leader to whom that title was applied.

An Opening for Spruce. The British Vice Consul at Las Palmas, in his report for 1902, writes: "The bulk of the timber used for building purposes comes from Canada and the United States, but nearly all the cut wood for crates and cases for the enormous quantities of bananas, tomatoes, and potatoes exported, comes from Norway, ready sawn shooks, the bundles tied with wire. It is to be regretted that this trade is not in Canadian hands.

Charges Evaded by Their Author. The World has been engaged, for some time, in labored efforts to make the most ignorant of its readers believe that after Mr. Morrissy, M. P. P., in his place in the Legislative Assembly, made certain charges of log-stealing against Northumberland lumber operators, the Government majority prevented an investigation of them.

The New Trout Hatchery. Monday's St. John Telegraph says: "Through the efforts of Surveyor General Duce the provincial government has erected a trout hatchery on the Bartouque river, about 21 miles from Chatham. Large fish are selected and placed in a pond where they are kept until ready to be stripped. The spawn is then placed in perforated tins in the hatchery. Here the water runs over the eggs and by spring the eggs have hatched and the small trout will be distributed in the brooks and lakes near the town where the fishing can be easily reached.

News and Notes. A Bathurst despatch of Friday last says: I. C. R. tankman Gauthier, of Bathurst, was badly burned about the face and neck this morning by the catching on fire of a celluloid collar which he was wearing. Mr. Gauthier was in the act of putting some coal into the furnace, when a spark fell on his collar, and in an instant the collar was all ablaze. While Mr. Gauthier's injuries are not of a fatal character, they are somewhat serious and painful, the neck being badly burned, as well as the side of his face.

The Saturday Review, which displays its anti-American bias in an even more intense form than usual, the weekly papers in their comments on the decision of the Alaska boundary tribunal depict fairly impartial views and decline to believe that Lord Chief Justice Alverton was actuated by other than honorable and judicial motives and that he was guilty of breach of faith charged against him. The Saturday Review, however, declares that the more betrayal of the same nature will strain the imperial connection to the breaking point, and congratulates Mr. Chamberlain upon being out of the government on such an occasion. All the weeklies naturally sympathize with Canada.

PALE FACED NERVOUS WOMEN Always Grow Strong and Have a Rosy Complexion by using FERROZONE. Ferrozone is by long odds the best tonic for pale-faced girls and exhausted women. It forms the right kind of blood and tissue for rebuilding the system. It relieves tiredness by energy and vim, and adds nerve force and staying power. Miss Dorothy E. Leduc, of Chester, gives the following convincing evidence of Ferrozone's power.

EVERY WEEK A WINNER IN OCTOBER. AVERAGE PROFIT EARNED WEEKLY ON \$50 IN OCTOBER, \$50.44. TOTAL PROFITS EARNED ON \$50 IN OCTOBER, \$201.75. Your money works while You Sleep. Our famous corps of track sharps are up at break of day, "clocking" the horses in their morning trots and while you sleep they spot the winners that bring you steady income - Our method puts you on a level with the most successful pluggers of the American turf - We operate for you for 25 per cent. of weekly earnings - We win only when you win - Results obtained really "beyond dreams of avarice."

HOW \$50 NETTED \$201.75 IN LESS THAN A MONTH. Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

Table with columns: Day, FIRST WEEK, NET DAILY RESULT, THIRD WEEK, FOURTH WEEK. Rows include various race days and results.

The above showing is no improvement over that of September, and is not remarkable, since we have excelled it time and again during the past three years of our uninterrupted operations. Good as it is, however, we are confident we will make it "look sick" by comparison with the showing we are going to make at the meeting of 100 days which begins at New Orleans this month. We Pick the Winners. The system we employ to locate winners is identical with that used by "Pittsburg Phil," John A. Drake, John Gates, W. Langdon, Joe Yagar, and other famous pluggers who win hundreds of thousands on the turf every year, and it proves just as successful.

Our Clients Won a Million Dollars. As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply advertise in newspapers throughout the country?" The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, organization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. If we can pick winners for this immense number of investors, our profits are larger than if we played our own money only, for on a basis of 25 per cent. of winnings, which we charge for information and commission, one man out of every four - if our customers are practically all betting for us - The principle upon which we operate is such that we must of necessity do the best we can for you. Our income, as presented out, is derived solely from a percentage of the winnings of our clients, and if we cannot make you win, our entire income is cut off. That we have been successful in making our clients win, is simply proven by the fact that we have prospered for upward of three years, while imitative operators have gone bankrupt by the score. Noting the success that was being achieved by Maxim & Gay, scores of "get-rich-quick" operators tried to break into the field successfully occupied by the old and more responsible firm, but it did not take the press and public long to discriminate between the legitimate and the illegitimate, and as a result we have continued to flourish uninterrupted, while in the ranks of our rivals there have been scores of enterprises initiated, only to end in failure.

A Few of Hundreds of Recent Endorsements of the Press. CINCINNATI COMMERCIAL-TRIBUNE, March 1, 1903. Maxim & Gay, who have been so successful in selecting winners at the New Orleans races, are in a class by themselves and have no relation in their system of operation to the "get-rich-quick" schemes that have recently gone to pieces disastrously to those who patronized them. Maxim & Gay do not guarantee their clients profits nor against losses, but merely play the money of their subscribers and deduct a fixed percentage from winnings for placing the commissions. This point is made clear in all their announcements. What they guarantee is to do it confidentially handle all money forwarded them and place in the races just as if it were their own. They have in their employ as "clockers" the most expert judges of track work in the country and there is not a horse at the New Orleans meeting that they have not a record of. The information collected in this way is used for the benefit of their subscribers, and its reliable character is attested by the numerous winners they have picked up in the past.

Join Our Winning Army. The greatest race meeting in the history of the South begins at New Orleans within a fortnight. In magnitude it will eclipse all other turf gatherings of the past. The Crescent City Jockey Club knows this to be a banner year and has prepared for it. So have we. If there are more horses at the New Orleans race-track than ever gathered there before, we have more expert "clockers" and handicappers than we ever employed in any of our meetings. They cannot make the game too big for us to handle. We move with the times. If you want to get ahead our discretionary series, at New Orleans, when we play daily those and only those horses we think A betting proposition, with the privilege of not playing any horses at all on days when we consider conditions unpropitious, fill out the following blank and forward your remittance to us at New Orleans as soon as you can. Play will be begun on the first day of the meeting, if your money returns as in time; otherwise, we will begin play the first day it reaches us after the meeting has begun. Money should be sent by bank draft, express money order, or currency in registered letter. Uncashed checks are not accepted.

REMOVAL. WANTED. Dr. John S. Benson has removed his office to the rooms lately occupied by Mrs. Alexander Robinson on St. John Street, where he may be found at all hours. CHATHAM, July 7, 1903.
