

Publisher's Notice.

The publisher desires to urge upon the notice of all who wish to contribute matter of any kind to the ADVANCE's columnswhe her it be advertising, news or notices of meetings, etc .- that the paper goes to press on Wednesday afternoons and, to ensure publication, their favors should be in the office not later than Wednesday morning.

The printing of the paper is frequently delayed by persons who hold back accounts of meetings, announcements of entertainments, etc., which they might easily send in days before that on which we go to press, but they seem to consult only their own convenience and often place them in our hands on Wednesday after the paper is made ready for press, and seem to think it a hardship because they do not appear; and, in most cases of this kind, the contributions are really free list advertisements. We want to help every deserving organization in the community, freely, in every legitimate way, but must expect them not to delay the publication of the paper when they wish to make use of our columns. Send your matter for the ADVANCE along on Monday or Tuesday, but don't hold it back until Wednesday if you can possibly avoid doing so.

head. - Review.

Our attention has been called to the fact that the case of young Stothart of "Ferryville," was not so severe as at first reported. The sumor that he fell in a barn, upon a pitchfork, one tine of which perforated his abdomen and intestines and came out through his back, being published in at least one of the local papers, led the reporter of the ADVANCE to enquire of a relative, on Wednesday last about the lad's condition. The relative said he was told that afternoon that death had taken place. In the hurry of going to press, and in view of the already | Hughes, John, published report of the nature of young Stothart's injuries, we did not suppose that even a miracle of medical treatment could Heckbert, Fred, 15 Weldon, Chas, save him, so we accepted and published the Hawkes, Hubert report of his death.

We are glad, however, to learn from our reporter's subsequent enquiries that the whole affair was exaggerated from the first; that the injury received was comparatively superficial; that the boy, himself, never claimed to be seriously hurt; that he did not believe that he was in any danger and that none of the household are responsible for any of the reports published or unpublished that he was, at any time, dangerously hurt. Moreover, we quite agree with the later statement made to our reporter that he isn't dead and we are glad of it.

The C. P R. will occupy the berth previously occupied by the Eder-Dempster line, and also will have the use of berth No. 4, when the Donaldson people are not using it, but even with this arrangement there will still be need of additional room, and Mr. Bosworth said that this was a question at once for the city and provincial governments, which, he thought, would both render aid to such an extension and improvement for the benefit of the city. St. John must now be regarded as a national port. The winter would see the establishment of three lines of C. P. R steamers from St. John to Liverpool, London and Bristol, which would give a decided stimulus to the trade of the port.
