Dominion Finances.

The official statement of Dominio revenue and expenditure for the fisca year ended on 30th June was issued last Friday by the Finance Department, Ottawa. It shows that the revenue was \$63,739,271, compared with \$56,303,694 for the same time last year, an increase of \$7,455,577.

The expenditure was \$41,449,103, a decrease of \$806,213, making a betterment in the finances of \$8,261,790.

The expenditure on capital account was \$7,230,093, a decrease of \$4,302,-000 over the previous year.

There is a surplus of over \$22,000, 000 for the year. But there are outstanding accounts which will reduce

If the capital and ordinary expenditure be deducted from the revenue there will be still left more than \$15,000,000 to the good.

Hon. Mr. Blair's Resignation.

Hon, A. G. Blair has resigned his position in the Dominion Cabinet. The difficulty between himself and his colleagues appears from the despatches to have arisen over the eastern section of the Grand Trunk Pacific proposition.

No statement has been made either by Mr. Blair or the Premier, but it is pretty generally conceded that the then Minister of Railways and Canals was opposed to parelleling the government line between Montreal and injure the Intercolonial.

When it was noticed last Thursday that Mr. Blair did not take any part in the caucus, which was called to consider the Grand Trunk Pacific proposition, it was suspected that the agreement under consideration was not satisfactory to him. He left the city on Saturday and on returning on Monday had decided to adhere to the arrangement to carry out the eastern section as proposed, and therefore he separated from his colleagues on this question, and most probably on this one alone, King for the maintenance and promotion and left the cabinet.

From remarks made by Mr. Blair when speaking on the Grand Trunk bill in committee some two or three weeks ago it is evident that he took strong ground at all times against duplicating the Intercolonial road in this Province. We have not the information at hand as to the exact route proposed, nor the distance to be covered, but it appears to us that considerable advantage will have to accrue from the building of another road between Montreal and Moncton in order to justify the proposition.

It is very unfortunate that Mr. Blair should feel compelled to leave Laurier cabinet, because he is a man of force and courage, and one who stood by the interests of New Brunswick at Ottawa at all times. His loss will be much felt by the Liberal party all over the Province and it will be difficult to find a successor possessed of equal ability, energy and determination.

Dr. John Henry Carsten's argument to the state medical society against the indiscriminate removal of the vermiform appendix appears to be irregular and unethical. Informally welcoming the United States naval officers to England last Thursday night, King Edward took occasion to make an emphatic declaration in favor of closer relations between the United States and Great Britain.
