IN MODEL 1893 WE are prepared to furnish our full line of Model '93 rilles, solid and take-down, for the new .32 Caliber HIGH PRESSURE SMOKELESS cartprices of the case of 165-grain builet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America. Another great advantage is that he harre!s are bored and rifled (but the harre's are bored and rifled (but not chambered) exactly the same as the regular .32-40 Mariin, one turn in 16 inches. This makes the use of black powder and lead builets as astic factory and convenient as in a regular black powder rifle. This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition. St. John Hospitality.

According to the Halifax Chronicle, Mr. Peacock, of Australia, one of the chambers of commerce delegates, said in government is-a supporter of Premier a speech in that city that, "He thought Laurier, Mr. Morrissy was probably his that St. John harbor was rather tricky and that water would be an improvement to it." If Mr. Peacock really did make facetions remarks about St. John harbor, after the manner in which he and his Northumberland because Mr. Morrissy, friends were entertained here, we have the honor to wish him a sife journey to Australia. - St. John Telegraph.

What Mr. Peacock really meant was to compliment St. John on its hospitality. His words are probably misreported for we understand that the experiences of some members of party were like those of the St. John man who, returning from a six weeks' visit to Newcastle, was asked what the quality of the water was there and replied . "I'm blest if I know: they didn't give me a chance to try it."

It should be explained that the Associa-Flesh Producer, tion has not been holding its meetings annually, owing to dissensions amongst its leading members, and its last annua meeting was held more than a year agoin 1891, we are informed. In fact, the organization had fallen into a condition of "inocuous desuetude," and the great body of old and influential liberals, wh have had no sympathy with the conten tions going on over the patronage by rival claimants for the dispensation thereof, have held aloof from it.
