32 Cal. High-PressureSmokeless IN MODEL 1893

WE are prepared to furnish our full line of Model '93 rifies, solid and take-down, for the new .32 Caliber HIGH PRESSURE SMOKELESS cart-PRESSURE SMOKELESS carridge. This size uses a 165-grain builet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U.S. Army. It is sufficiently deadly for any game known in North America.

Another great advantage is that the barre's are bored and rifled (but not chambered) exactly the same as the regular .32-40 Marfin, one turn in 16 inches. This makes the use of black powder and lead buillets as satisfactory and convenient as in a regular black powder rifle.

This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow emough twist to give best results with black powder ammunition.

Prices same as .30-30 MARLIN.

Prices same as 30-30 MARLIN. 120-page cat log of rifles, shot-puns, ammunities, etc., cover in colors, mailed for three stamps.

Miramichi Advance.

It is Done?

The Grand Trunk Pacific Railway bill has passed in the Senate, and the country is committed to the colossal undertaking. No one save the promoters of the railway in and out of and Cucumber parliament wanted it. The scheme was a surprise to the country when it was seriously proposed. Everybody knows that the \$150,000,000 of the people's money involved might be expended to better advantage in improving existing eastern lines, multiplying the western feeders of the C. P. R., and the Intercolonial Railway, extending the latter to Lake Superior, and finally to the Pacific, increasing

the shipping facilities at Atlantic terminals and generally consolidating the country's transportation system in the interest of those who furnish the traffic, rather than making so gigantic a surrender to the speculating promoters who have been so successful in working the Government party at Ottawa. The session of 1903 will be memorable in Dominion history as having defied all precedents by committing the country to a railway project which will cost \$150,000,000, without the people having been afforded any opportunity to pronounce upon it, without any adequate engineering information upon which an intelligent opinion as to the government's estimates of the cost could be tormed, and without any previous public demand or apparent necessity tor the stumbling haste with which the tremendous liability was assumed under all the pressure of party machinery,

Cox Dignity Role Again Fails.

which compelled our legislators to sink

their misgivings and vote as automatons

the dark by unseen hands along ar

men who are pushed forward in

Senator Cox, who is popularly ieved to be the chief promoter of th Grand Trunk Pacific scheme, and have exerted more influence upon Premier Laurier than any other person. to induce him to press it upon parliament, appears to have taken a kind of mock-dignity attitude towards Hon. Mr. Blair because that gentleman mentioned him by name as being imup the System patient for the consummation of the

> It will be remembered that Mr. Blair, in his speech against the measure. quoted some of the sentences of Premier Laurier's speech in which the urgency of the immediate committal of parliament to the scheme was emphasised and which closed with the phrase that parliament could not wait because time did not, and let daylight in upon the situation by suggesting that it was Senator Cox who could not wait. Senator, like all persons in his position. was very much touched in the dignity region of his make-up over the searchlight being thus thrown upon his work. and when his time came to speak on the bill in the Senate, he explained that he had not been a factor in the initiatory stages of the Grand Trunk Pacific movement upon Sir Wilfrid. but had joined it subsequently, and he said :- "If Mr. Blair intended to convey the impression that he (Cox) was fluence with the government, the statement was absolutely false. Mr. Cox protested against the unjust attacks of which he had been the victim because

to Mr. Blair's position in reference to safeguards for protecting life against the remarkable undertaking, and an them have been proposed. One of \$12,000,000 Ottawa despatch of last Wednesday these is the wearing by hunters of caps shows that Mr. Blair is not to be intimi- or whole hunting suits of scarlet, but dated and suggests that he knew, from these outfits have the effect of frightenthe first, what he was talking about.

The despatch is as follows:-

considerable extent from the harasaing cares of the more strenuous political life. The ex-minister is the picture of health and is perfectly satisfied with the course he has pursued, knowing how it commends itself to the great mass of the thinking people of the dominion. He was asked what he had to say in respect to Cox's remark, that he was awaiting an apology or explanation for the sentence used by Mr. Blair, "Cox can't wait." The ex-minister thought a minute and then replied : 'Ne, I have no apology to make, nor explanation to offer. It Senator Cox says he wasn't pressing the government in connection with the | Maine practice, and that it is necessary Grand Trunk Pacific mater, if he can truthfully affirm that he didn't urge the construction of the road, then he might claim, very fairly, that I ought not to they get into the woods, shoot at any

have made use of his name in my remarks in the house of commons, when the bill was under consideration; but, and Mr. Blair paused for a minute, I don't apprehend that the Senator will deny anything of the kind. I resterate that I do not see that there is anything for me to explain or apologize for. Similar remarks might truthfully be applied to almost every one who is urging the government to aid his scheme, and I do not see just why it should be regarded as a reflection upon his integrity to say he couldn't wait. Promoters are not often

"And Senator Cox was the promoter of the G. T. P. project?" was asked. "Wasn't he very prominently mentioned for the presidency?" was the re-

willing to wait if they can help it."

Cox might tollow some former foolish examples in other than parliamentary circles and enter an action for libel at ridiculous damages, but he knows good deal better than that, or, rather, he knows that Mr. Blair knows what he was talking about, and the Senator will not carry the baby act so far as

A Faulty Official Bulletin.

The United States Department

Biological Survey staff. The work is quite comprehensive in its scope, so far as the United States and Canada are concerned, and we hope that it is more accurate in its information in regard to other states and provinces than it is in r spect of New Brunswick

Under the head of licenses for hunting game (p. 40) is a table setting forth the kind of licenses and the authorised issuers thereof, and under the heading of "Remarks" the kinds of birds and animals which may be hunted are given. This table represents the New Brunswick nonresident license as covering "any game or game birds," whereas it covers moose and caribon only-while all other animals, including deer, as well as birds, may be hunted and killed in the open season without license, by both residents and

fee for hunting in New Brunswick by place Oct. 13th, 1853. non-residents is \$30 for all game, and \$20 for moose and caribon, whereas there is no \$20 license for any kind of hunting, non residents who may desire to hunt anything excepting moose or caribou being permitted to do so free of charge, while they must pay \$30 for license to

hunt moose and (or) caribou. It is also indicated that a "limited number of moose and caribou" may be killed under a license, whereas the limit is distinctly stated in our game act as one

moose and one caribou for each licensee. We are told also (p. 40) that nonresident guides or camp help are licensed at \$20, whereas no non-resident guide can be licensed at all in New Brunswick while a non-resident camp help license costs \$30. The liceuse for resident camp help, also, is put down in the bulletin at \$2, while the charge is only one dollar.

One would think that compilers of such information-especially when their work is sent forth in the name of a big Federal department-would be more accurate in their statements.

Where is New Brunswick?

Our Federal Government is truly paternal one. In the last hours of the parliamentary session just closing, it put through the house a resolution to guarantee the bonds on the Quebec bridge to the extent of \$6,678,200 at three per cent. The government states that it will control the fees to be charged on the bridge and reserve the right to purchase it at any time. The bridge in the first instance, received a subside of \$1,000,000. Of this amount \$374. 353 was paid by the government to the company. The balance is to b held to meet the interest on the bonds Nova Scotia and Quebec appear to "want the earth" from the government and are getting about all they demand. What about the Canada Eastern Rail-

The Criminally Careless Hunter.

A law for the protection of human life from the criminal stupidity of per sons who go into the woods as sportsmen, when they ought to be kept at home under surveillance, will apparently be necessary in New Brunswick as it has been found to be in Maine.

Last Friday afternoon, Samuel Car of Canaan was acting as guide to moose hunting party, and was returning with them to their headquarters camp after the usual time for calling. While they were away, another party had taken possession of the camp, and as Carr and his party approached one o the new-comers, hearing them, picked up his rifle and rushing to the camp door fired on the advancing men, hitting Carr in the hip. The victim of the attempted to use, any improper in- alleged "sportsman's" criminal carelessness had to be carried out of the woods for surgical assistance. In the State of Maine the crime e

manslaughter is frequently committed of Mr. Blair's statement." He also by reckless persons like the one who asserted that he expected an apology shot Carr and, besides the law that has been enacted for the punishment of the This added a new feature of interest perpetrators of such offences, different ing game. The frequency of such shootings in that State has had the Mr. Blair was seen this morning at his effect of preventing some of the oldest sportsmen from going into the woods in the big game season, and many of them have changed their hunting ground to New Brunswick, where moose and caribou are more plentiful and hunters and guides alike have been able to feel quite safe from the murderous fire of the tenderfoot sportsman.

This Queens county case, however, shows that we, in New Brunswick, have not entire immunity from the for something to be done to protect good men against the class who, when thing they see moving.

A record of such people ought to be officially kept, and they should not only be refused licenses to hunt, but there should be a law for their imprisonment should they ever be found in possession of any firearm or entering the woods with an axe, or even a jack-

This might seem a rather drastic method of treatment, but while such people may be sape under all other circumstances, they are, when they get ply. Beyond that Mr. Blair would not | into the woods with a gun, monomaniacs more dangerous than many all round It has been suggested that Senator lunatics whom society protects itself against by placing them in the asylums.

There is another phase of the matter which is of importance to New Brunswick, and from the standpoint of which these shootings should be visited with severe penalties.-The province is deriving a large and yearly increasing revenue from non-resident big game hunters, who come here primarily because it is a great game country, but also because, unlike Maine, there has THE MARLIN FIRE ARMS CO.

Agriculture has issued a work purporting to be a summary of the Game Laws for from just such shootings as that of the chairman at the Queens county convention.

The United States Department of the Game Laws for from just such shootings as that of the chairman at the Queens county convention. 1903, compiled by three assistants of the Mr. Carr. We should see to it that tion at Gagetown.

men like the one who did the shooting are at once punished and forever after their first offence kept out of the

The Quebec Mercury, one or the oldest papers in Canada, has ceased publication.

Preparations for the dinner to be given to Chief Justice Tuck are being completed. It will take place at the Barker House, Fredericton, on Nov. 3rd. All barristers and attorneys on the roll residing in the province are being invited, and in addition all the judges of the supreme court will be present. Other dignitaries will also be present by invitation. The dinner is under the auspices of the Barristers' society to commemorate the fiftieth anniversary of Chief Justice Tuck's Then, on page 56, it is stated that the admission as an attorney, which took

Phenomenal Trotting.

Wichita, Kansas, Oct. 19.-Cresceus broke the world's trott ng record for a mile this afternoon, going the distance in 1 59 3 4, beating the previous record held by Lou Dillon and Major Delmar by a quarter of a second.

The day was ideal and the track could not have been better. Cresceus broke when first scored for the word, but on the next attempt was sent off, going the first quarter in 30 seconds flat. There was cheer when he reached the half in 50 3 and when the three-quarters was passed in 1.30 the cheer became an uproar. Just before he reached the wire Cresceus broke of a second. He caught handily and fished under the wire in 1.59 3-4. No wind shield was used.

Canada Worsted.

Canada's interests appear to have been again sacrificed by the result of the deliberations of the International Commission to whom was referred the delimitation | tion. of the line dividing Canada and Alaska. The Commission has virtually agreed to grant all the American contention. except that for the Portland canal, which goes to Canada. The formal agreement was rendered on Monday. Senator Lodge, Secretary Root and Senator Turner agreed to start the American boundary nes from the head of Portland canal, thus giving Canada that channel and some small islands on which there are only a few disused storehouses. This ccomplished the majority of the tribunal agreed to fix, with this exception, entire boundary as outlined in American case. The Canadian Commissioners refused to sign the decision. This, however, does not affect the validity of the agreement.

The Montreal "Star's" Methods.

In the House of Commons on Saturday Mr. Marcit called the attention of the postmaster general to the large number of bags lying around the corritors containing literature which the conservatives were distributing. This literature was in bags used for newspapers. Other newspaper publishers were put to inconvenience for he want of bags. Complaints were made that the mails were delayed because of the tons of matter sent out in this way,

Sir William Mulock said newspaper publishers were complaining that they could not get bags to carry their newspapers. The reas n was that a large number of bags were used improperly by a Montreal newspaper publisher for this slanderous business. The bags were improperly diverted from the proper and legitimate purpose for which they were obtained, and used for this scandalous transaction. Thousands of bags were used in this way, and if the hundreds of bags now lying in the corridors and which were received addressed to the conservative whip from Montreal, were not emptied before Monday morning, he would take possession of them in the interests of the crown and as head of the department. Parliament never meant that the franking privilege should be abused in the

manner described. Doctor Sproule insisted that there was no infraction of the franking privilege and he said that the liberals did the same

Mr. Ingram, Mr. Claucy, Col. Hughes and others supported this view. Sir William Mulock maintained that it was not a question of the rights of members. The question was whether certain newspaper publisher should have obtained from the department a certain number of mail bags and then improperly used them. Other publishers had to suffer, and the rights of the people were

infr nged upon.

On Monday the matter was again brought up by Mr. Davis of Saskatchewan and replying to that gentleman, Sir Wm Mulock said that the government was aware that campaign literature was being shipped from the Mont eal Star and sent through the mails under the frank of George Taylor, M. P. The only limit to sending this literature was the capacity of the cars and the transportation facilities. The mail bags were being illegally used for this purpose.

Provincial Sunday School Convention.

The ADVANCE's last week's report of the Provincial S. S. Convention at Chatham closed with the proceedings of Tuesday. On Wednesday the executive committee's report was presented by T. S. Simms, the chairman of the committee. It was a

Your committee, to whom was entrusted the work of this association one year ago, have now to give account of their steward. ship. Although, as is the case with most enterprises, whether religious or secular, all that was hoped for has not been accomplished, yet more attention than usual has been given to the work by the members of the committee and they feel that an advance has been made.

MONTHLY MEETINGS. In previous years quarterly meetings only have been held. One of the first acts this of the central committee. These meetings have been held regularly, with a good attendance, and have enabled the committee to keep in closer touch with the work and to better superintend the movements of the field secretary.

VISITS OF MEMBERS TO COUNTY CONVENTIONS. The importance of members of the executive committee being present at the different county conventions has always been recognized, but it has been difficult of Rev. C. W. Hamilton attended the Westmorland convention, and but for a misunder-

One difficulty the committee has had to contend with is that of having the dates of the county conventions arranged far enough in advance to enable them to perfect their plans. If the counties would early decide on the date which best suits them and submit it to the committee and then leave it to the executive committee to arrange, their wishes would be considered and complied with as far as possible in the interest of the whole field. During the past year there has been much trouble and confusion in arranging dates for the county conventions so that the field secretary could be present at them all. In one or two instances he was unable to attend in consequence of conflicting dates.

FIELD SECRETARY'S WORK. Under the superintendence of the general committee and also of the special subcommittee, the work of the field secretary has been scanned each mouth, and plans made so that he could render assistance where, in their judgment, the work most needed help. His long experience in the work, his good judgment and untiring energy have enabled him to be of signal help in many of the counties, evidence of which is not lacking, and the committee have many testimonies of the appreciation of his valu-

At the time of writing this report all the returns are not in, but it is estimated, if all the pledges are met in full by the counties, that all liabilities will have been paid, and we can begin the new year with a balance en the right side. SUNDAY SCHOOL ADVOCATE.

Our monthly organ has been regularly published and received with increasing interest by its readers. It is not yet selfsustaining, but your committee feel that it ought to be and may be if all will lend their aid in extending its circulation, and in this way also increase its usefulness. TEACHER-TRAINING.

The subject of training for our Sunday school teachers is of the greatest importance. It is felt that the time has come when all teachers should have some special preparation for their work. Pastors and superintendents could easily conduct a training class and it is believed lost fully three quarters in almost any place with pleasure and profit to the teachers and officers of the school. We look for a decided advance in this department of our work.

CONSTITUTION AND BY-LAWS. The original constitution and by-laws of this association having been found unsuit- present able for the present requirements of the work, a sub-committee was appointed to draft a new one, which has been accepted by this committee and will be presented to you at this convention for your considera. | Bathurst.

INTERNATIONAL WORK Perhaps no greater event in the history of Sunday school work has ever occurred wick has only one delegate who is likely to attend, but it is hoped that others may yet decide to be present.

The annual meeting of the international xecutive committee, as also a conference of Sunday school workers, was held at Winona Lake, Indiana, in August, at which were present delegates from forty states, provinces

E. R. Machum, vice-president of the international convention and our representative on the executive committee, being anable to attend, the chairman of this committee was accepted as his substitute and invited to represent New Brunswick at their meetings. Where a few years ago Mr. Reynolds was the only field worker, there are now seven employed, including two primary sec etaries, two among the colored people of the south and one in Japan. The work in Mexico is reported as very encouraging, and through the efforts of the Sunday School Times it is expected that a secretary will soon be employed there for that special

We are thankful to the international executive committee for the help they are giving us in sending W. C. Pearce to us. and that also through the international primary department we are enabled to have the valued assistance of Mrs. Petitt of New Jersey. W. N. Hartshorn, the chairman. paid a short visit to St. John in July, and was met there by the field secretary and several members of your committee,

During the past year death has entered our midst and taken one of our earliest and most interested members, James Watts of Woodstock. Well does the chairman remember Mr. Watts' earnest words in introducing him as the first president of this association nearly twenty years ago. Others have passed away who will be sadly missed in the work of the counties. Some have removed to other fields, much to our loss, but we trust to the gain of the work in the ommunities to which they have gone.

What has been accomplished? At leas seven new Sunday schools have been estab lished through the influence of the association this year. If nothing more has been done, who can tell the amount of good that may result from the study of God's Word in these seven Sunday schools? In the city of St. John a house to house visitation has been made, and although the fact that the information has not been compiled is a disappointment to this committee, yet much good may result. Who can estimate the stimulus given through the agency of the different departments, primary, home, normal, temperance and I. R. R. A. ?

PREVIEW. That the work for which the association vas formed has been accomplished, and that it can now be taken up and carried by the apparently as far from the truth now when the organization was first organized. To one having but a superficial knowledge of the field it must be evident that much proportion of the people to attend Sunday tion. school or to study the Bible. For the accomplishment of the best results it is necessary that all Christians work in harmony, and the combined effort of all, under Divine guidance, must result in a great advance in Christian work and a benefit to

every denomination. Never before has so much thought been given to the subject of adapting the lessons to the students of different ages and grades or to better methods of conducting the work. and it remains for this association to bring to its constituents the best that can be

CONNECTIONS are made at Chatham Junction with the I, C. RAJI.WAY for all points East and West, and at Fredericton with the C. P. RAILWAY for Montreal and all points in the upper provinces and with the C. P. RAILWAY for St. John and all points West, and at Gibson for Woodstock, Houlton, Grand Falls Edmundstop

THOS. HOBEN, Supt. ALEX. GIBSON, Gen'l Manager

will depend entirely upon the number of entries. If too few entries are received to make up the Olympic series, individual matches between teams representing the Recording Secretary, Mrs. Z. M. Foster, East and West will be arranged. An entrance fee of \$5 per team will be charged and entries will close with J. B. Sullivan, Chief of the Department of Physical Culture,

> The interscholastic series will be held from Monday, November 7th, to Saturday, November 12th, inclusive. This series open to all preparatory schools. The entries will close September 6th. Each team in this series must be made up of students who have been duly entered in the schools they represent for the season of 1904.

on September 20th, 1904.

ANY CHILD WILL TAKE McLean's Veget able Worm Syrup. It is always the same safe, pleasant and effective remedy; but be sure you get McLean's Vegetable Worm

The Sloop "Winogene" 6, 83 tons register, 36 feet overall, ten feet 2 inches (10-2) beam, draft 3 feet 6 inches, without board, over two tons outside ballast, (none inside) iron, planked with pine, oak timbers, berths for four people, a comfortable cruiser. She is the fastest boat of her size in the Club, often beating the larger boats such as the "Canada." She has won and now owns the "Willis Cip" also holds the "McLellan Cup." winning these Cups from the racer "Wahbewawa." She has a full outfit of sails. She could not be built for double the money asked for her, \$350 cash, in Saint John. The owner sells for no fault, but has no time to use her. Any officer or member of the club could inform ary intending purchaser as to her condition and abilities. She can outpoint, and work quicker than any boat in the R. K. Y. fleet, and is one of the stiffest boats hers. Any further information will be furnished by

wner, or any officer of the R. K. Y. Club,
