R. B. CROMBIE, Manager Chatham Branch.

We are prepared to furnish our full line of Model '93 rifles, solid and take-down. for the new .32 Caliber HIGH PRESSURE SMOKELESS care PRESSURE SMOKELESS cart-ridge. This size uses a 165-grain bullet and has a velocity of over 2,000 feet per second, making it the most powerfal cartridge made for an American arm, with the ex-ception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America. Another great advantage is that the herre's are bored and sified (but the harre's are bored and sified (but not chambered) exactly the same as the regular .32-40 Mariin, one turn in 16 inches. This makes the use of black powder and lead bullets as satisfactory and conventent as in a regular black powder rifle. This size is the first high-pres-sure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder annunition. Prices arms as .30-30 MARLIN. Prices same as .30-30 MARLIN. 120-page cat log of siles, shet-
