# THE DANGERS OF X-RAYS

MAY MEAN DEATH TO THOSE WHO OPERATE. The Effect May Be Felt Five or

Six Years After Working

With the X-Ray. There is more truth than poetry in the statement of Thomas A. Edison, America's greatest electrician, that continuous use of the X-rays may mean death to the operator of the rays. There are two men in Mr. Edison's employ who have suf-fered from continual operation of the X-ray apparatus. They are brothers and their names are Clararm roll is quite severe for begin- ence and Charles Dally. Clarence ners, but even the weakest can master it with a little perseverance. Lie was a strong, healthy young man. To-day he is a physical wreck. Can-

# CURE FOR RHEUMATISM.

Dr. Perc, of Marburg, Germany, is a great believer in the healing properties of bee stings in cases of rheumatism of the joints and muscles. Dr. Perc allows his patients to be stung at first by a few bees, and then gradually increases the number. The stings are inserted near the joint of the muscles affected. In one sitting he allows seventy bees to sting the patient. He described the case of a woman who suffered excruciating tortures from rheumatism. In the course of her cure sha was stung 6,952 times, and this resulted in a complete cure. Dr. Perc claims that every organism is made immune from bee poison and also immune from rheumatism.

DANGEROUS EXAMPLES. Mrs. Long (who recommended a servant)-"Yes, she was an excellent girl in every way, except she would imitate me in dress, and things like

Miss Short-"Ah, yes. I noticed she began doing it when she came to me: but she's given it up now." Mrs. Long-"I'm glad to hear it I expect she saw she was making herself ridiculous."

Mrs. Hickes-"What a pretty blonde Miss King-Chester is! But she's an anomaly to me. I know the family well. All the Kings were brunettes. and the Chesters were all dark, too. Where can she get her light hair from?" Miss Wickes-"From Par-
