32 Cal. High-Pressure Smokeless IN MODEL 1893

WE are prepared to furnish our full line of Model '93 for the new 32 Caliber HIGH PRESSURE SMOKELESS CARTRIDGE. This size uses a 165-grain bullet and has a velocity of 2,000 feet per second, making it the most powerful cartridge made for an American gun, with the exception of the 30-40 U. S. Army. It is sufficiently deadly for any game known in North America.

The World's Paper Bill.

The World's annual production of paper is estimated by the "Holstoff-Zeitung" to be 1,995,000 tons. Of this considerably more than one quarter is what is known to the trade as "news," the paper mainly used for newspapers, the figures being 368,500 tons. This is an increase of 121,000 tons during the last ten years. The computed consumption of paper in pounds per head of population of different countries, is thus stated: United Kingdom, 14.3; United States, 12.54; Germany, 9.68; France, 9.24; Italy and Australia, 4.4; Spain, 1.87. The value of the World's annual output of paper at 2c. a pound is nearly \$6,400,000,000.

The Bay Chaleur Steamer.

The ADVANCE had occasion, a few months ago, to refer to the wretched steamer service given by Mr. Connolly with the "Restigouche," on the route between Dalhousie and Bay Chaleur ports in the province of Quebec. We are glad to learn that our protest and those of others more in touch with the service, have had the desired effect. An Ottawa despatch says that Sir Richard Cartwright, the Minister of Trade and Commerce, at the request of Messrs. Lemieux and Marcil, has decided to give the people of the coast an opportunity of putting on a boat, themselves, specially adapted for the purpose. Messrs. Lemieux and Marcil have given the welcome information to their constituents, who are to organize a company and have a boat built.

The government will award a five year contract, which may be renewed. The present subsidy is \$12,000 per annum with \$3,000 additional for services in December and January from Passages to Gaspé. The department sent down one of its officials who went over the route on the "Restigouche" and he made a report which substantiated all the reports made against the service given. It is understood that Mr. John Nadeau of Port Daniel is taking the lead in the matter. He will be seconded in his efforts by a number of leading merchants and business men of the Bay Chaleur ports.

It is said that some Restigouche men are also to put money in the undertaking.

The Cushing Mill, at St. John, New Brunswick, has been shut down, owing, it is said, to the unprofitable nature of the financial results. The list of unsuccessful sulphite mills in Canada is lengthened.—Paper Trade Journal.

Quoting the World's reference to a recent article in "The New Freeman," in which Mr. Stewart tries to correct some slight and some alleged inaccuracies which really dealt kindly with his connection with papers whose demise followed his touch, the St. John Sun heads it "Freak and Fake."

One feature in lumbering operations in Maine which is especially gratifying to the State Lumber Agent, Mr. E. E. Ring, is the care used by nearly all important lumber operators in cutting their logs. Every concern of any importance is sawing down its trees and taking from them all wood suitable for pulp or lumber. More care is also being used in preventing the destruction of the young growth. The importance of such precautions, especially those of the last instance, can hardly be over-estimated, for upon the care of the young growth timber depends the forest of the future. Some of our biggest Miramichi lumbering concerns discarded the axe for the saw in tree felling years ago.

Under the heading of "Excitement at the Normal School" the Fredericton Herald of 28th ult. says:—

There was considerable excitement at the Normal school this morning, occasioned by the appearance at the opening exercises of a student of the University. He went there to witness the exercises, but his presence seems to have been objectionable to Principal Crockett, and he ordered him to move out. The student refused to budge an inch, and a messenger was despatched for Police Sergeant Wright. When the student heard the officer coming up the stairs, he quietly moved across the hall to the St. John school and at once became deeply interested in the many productions in wood to be seen there. The opening exercises were then proceeded with and the blue coat withdrew.

It is said that junior Valentine will be called on to explain how he came to allow the student to cross the threshold.

There may be some rumor, or other reason in the matter, which justified the Principal in ordering the University student out of the Normal School as stated, but it does not appear right that any reputable person should be thus treated in a public institution the action taken in this case?

The Agricultural Hall for the St. Louis World's Fair is the biggest building ever erected for a single department of an exhibition. Some idea of its magnitude may be had from the following:—

Length, 1,660 feet. Width, 540 feet. Ground occupied, 23 acres. Lumber used in it, 10,000,000 ft. Nails used, 225,000 lbs. Laths, 180,000. Paint, 500,000 lbs. Roofing paper used, 500,000 lbs. Pitch, 600,000. Gravel, 3,375,000. Bolts, 529,000. Glass, 145,640 panes 18x23. Putty, 10 tons.

Timber Trades Journal of 24th Oct., in its Liverpool notes, says:—

"There is very little spruce to offer, and such few cargoes as are available for the West Coast are held for higher prices than were current a week or two ago. The output for the remainder of the season seems from all information we can gather from the other side likely to be small, owing to the quantity of logs which are still hung up for want of rain. We could well have spared the colonists some of our surplus assets. We have been favored in the frank manner with the inspection of telegrams upon some spruce business, from which we gather that the shippers hold the whip hand, and our conclusion is that, so far from any retrograde movement being looked for in this market, everything points to an upward movement."

As he secured, besides a caribou, a fine buck with horns in the velvet and the big seven-foot bear.

Last year Mr. Becker was accompanied by his son, E. C. A. Becker, Jr., a lad of ten years of age, who distinguished himself by bringing down from Ketchikan's camp two deer and a moose, a remarkable record for a boy of his age.

While in New Brunswick Messrs. Becker and Morse were guided by William and Frank Russell, of Dacktown, and they speak in high terms of these woodsmen.

Mr. Atherton, Curn, of the Bank of Nova Scotia staff, returned to Fredericton from a fortnight's hunting trip on the Magalloway. He shot a fine caribou, but had the good luck to get a shot at a moose. He had John Murray, of Ladlow, as guide.

The head of a fine moose, shot on Cui's River yesterday by Thomas Evans, of Zionville, was brought to the city today. The antlers had a spread of 56 inches and contained 19 points. Mr. Evans was able to train the animal on the snow.—P'ton Herald 28th.

Respecting a story of illegal hunting on the Nepisiguit by Mr. A. W. Jackson of New York, which was published by the St. John Telegraph, that gentleman writes as follows:

To the Editor of the Telegraph: Sir: I wish you would contradict in your next issue the statement made by Sportman in your issue of the 27th of October last, headed "Nice Sportsmen These."

Sportman states that our party took out four moose heads from New Brunswick this year, having one concealed in our baggage. This is not so, as all of our heads were left at M. L. Crosby & Co., of Bangor, (Me.), to be mounted and I am sure that Mr. Crosby will confirm my statement as to the number of heads that we left with him and to the number of heads that arrived that morning.

As to the charge of shooting moose and caribou, I did not see a live caribou on my entire trip. The caribou in question, as that was the only caribou in our party, was shot by Mr. Storm at the head waters of Forty and on coming out I offered to take the head out for him as he was going to take the bed of the stream out and I was going out by the old road. On account of walking, I got my man carried the head. In our trouble at Bathurst I was told that the fact that I had the head in my possession was proof that I shot it, and it was a question of staying in Bathurst two or three weeks or settle, and as we had to get back to the city we concluded that our business compelled us to return. Hence the reason of settlement.

My reason for not taking out a license was that I now have four moose heads that I had shot in that country and did not want any as I told Mr. Bishoff, the game warden, when we applied for our license, (as I understand that he was the game warden of that section) that all I intended to shoot was bear. It is stated that I shot the large head it was a mistake; although I wish to state that I was the lucky party to shoot such a head, as that, the head belongs to Mr. Griffin. I should think that Sportman would set to ashamed to sign his name.

I remain, Very truly yours, ADRIAN W. JACKSON, New York, Oct. 9, '03.

Crispness, Variety, Brightness, Symmetry, Thoroughness, Up-to-someness.

These are some of the features which characterize our courses of study and qualify our students for their successes.

Maxim & Gay Co.

Established Three Years Capital \$50,000. Before the Public Every Day. NEW YORK, NEW ORLEANS, CHICAGO, SARATOGA, WASHINGTON.

REFERENCES: Any Bank or Account in New York, New Orleans, Chicago, Saratoga or Washington.

\$50 WOULD WIN \$201.75

EVERY WEEK A WINNER IN OCTOBER. AVERAGE PROFIT EARNED WEEKLY ON \$50 IN OCTOBER, \$50.44. TOTAL PROFITS EARNED ON \$60 IN OCTOBER, \$201.75.

Your money works while you sleep.

Our famous corps of track sharps are up at break of day, "clocking" the horses in their morning trots and while you sleep they spot the winners that bring you steady income—Our method puts you on a level with the most successful pluggers of the American turf—We operate for you for 25 per cent. of weekly earnings.—We win only when you win.—Results obtained really "beyond dreams of avarice."

Again we scored heavily for all of our clients last month. Again we landed the money and landed it in chunks. Three years of organization, with the best facilities that money and brains can procure to make our service of picking and backing winners at the horse races the most accurate and profitable in the land, has had its natural sequence, and each week our showing demonstrates a good profit for every client.

HOW \$50 NETTED \$201.75 IN LESS THAN A MONTH.

Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of \$50 is required by us, as a matter of conservatism, to make a \$10 play on each horse that is considered by us a good betting proposition.)

October Meetings—Morris Park and Brighton.

Day. FIRST WEEK. NET DAILY RESULT. Win. Lost. 1—Borah, 1 to 5; won; Canadian 1/2 sec. Dotted lost. 20 50 2—Oarsman, 5 to 2; won; 3 losers. 20 50 3—Jesse, 6 to 1; won; M. Theo. lost. 20 50 4—S. Frost, 1 to 2; won; M. Brant, 2 to 1; won; 3 losers. 18 50 5—Aurifer, 6 to 1; won; 3 losers. 18 50 6—Laid of Clover, 3 to 1; won; 2 losers. 15 50

SECOND WEEK. 1—Faulkner, Lost. 10 50 2—Sunset, 1 to 2; won; Dotted. 10 50 3—No Play (track conditions unfavorable). 30 50 4—Metal, 7 to 1; won; 4 losers. 30 50 5—Charismatic, 4 to 1; won; Dotted. 15 50 6—Outcome, 9 to 1; won; Tepee, 3 to 1; won. 15 50

THIRD WEEK. 1—Astaris, 8 to 5; won; Pol Rogers, lost. 6 50 2—P. Stone, 13 to 10; won; Hermit, 7 to 10; won; 3 losers. 10 50 3—Danahy, 3 to 1; won; Emergency, 9 to 2; won; 3 losers. 45 50 4—Champlain, 6 to 5; won; 4 losers. 45 50 5—River Pirate, 1 to 1; won; 4 losers. 45 50 6—Enlight, 9 to 5; won; 3 losers. 45 50

FOURTH WEEK. 1—Mamie Worth, 2 to 5; won; 1 loser. 6 50 2—Woodhull, 12 to 1; won; 3 losers. 6 50

Less Losses..... \$22 \$50 Net Winnings..... \$201.75 Net profits on \$100 play for month..... \$201.75

The above showing is no improvement over that of September, and is not remarkable, since we have exceeded it time and again during the past three years of our uninterrupted operations. Good as it is, however, we are confident we will make it "look sick" by comparison with the showing we are going to make at the meeting of 100 days which begins at New Orleans this month.

We Pick the Winners.

The system we employ to locate winners is identical with that used by "Pittsburg Phil," John A. Drake, John Gibb, W. Langdon, Joe Yager, and other famous pluggers who win hundreds of thousands on the turf every year, and it proves just as successful.

We gather our information from private winners, through a force of expert horsemen who hold a watch on the horses in their early morning trials, and in that way learn when they are ready to win.

The money that is played into the game by persistent losers, such as the large mass of uninformed players are bound to be, goes into the pockets of the big operators, of whom the Maxim & Gay Co., representing a large clientele, stands at the head. The work of the Maxim & Gay Co. is to place the general public upon a level with the winning pluggers, and our success in this accomplishment has made us famous on two continents.

We do business only on the great racetracks of the U. S. We number among our clients some of the best known sportsmen, financiers and merchants in the country. Investment on the turf is now deemed as legitimate as any other high-class form of speculation.

The present high standing of private winners, and the strong good faith in which turf affairs are conducted under the auspices of the Jockey Club in the East, and the Western Jockey Club in the West, has inspired millionaire capitalists and business men all over the country with as much confidence in racing as in the stock, grain and cotton markets, and this is one reason why transactions in the betting rings now rival in magnitude those of the stock, cotton and grain exchanges.

The steady growth of rapid speculation in popular favor, is the rapidly increasing volume of transactions are wound up, the speculator makes his investment at the racetrack through us and receives a notification by mail, in a letter guaranteed to bear a postmark earlier than the race is run, of just what horses are to be backed for his account. By the next mail he is informed of the result of that day's operations, and he learns quickly just where he stands. At the end of each week he receives a complete statement of his account with a money order for his profits, less 25 per cent., which we deduct as our fee.

This gives a wholesome tone to legitimate turf speculation which cannot be found in the more or less involved transactions of the big exchanges, and this is why turfmen live more comfortably and live longer than do men whose involved transactions are on their minds, day and night, for weeks and sometimes months at a stretch.

Our Clients Won a Million Dollars.

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?"

The answer is simple, and it is that we are not Maxim & Gay, by dint of ability, energy, organization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. If we can pick winners for the immense number of investors, our profits are larger than if we played our own money only, for on a basis of 25 per cent. of winnings, which we charge for information and commission
