Vegetable Worm Syrup is the original and

"LADY SIM" - Mr. Peter Archer has sold | were wanted at the police court next day. his fast mare, "Lidy Sim" to Mr. W. J. Groat.

THE ALMSHOUSE: - Mr. Philip Kirby, of Chatnam, has been appointed keeper of the County Alms House, succeeding Mr. and box. 25c. Mrs. OKeefe, who resigned after about a week's trial.

DENTAL NOTICE :- Dr. Vaughan's office will be elesed on Wednesdays from 9 a.m. 2 p.m., owing to his duties as deptal surgeon to the Hotel Dieu requiring his presence at that institution.

EXCHANGE: - Rev. Mr. Reinnie, who is in charge of St. Andrew's church work during the absence of Rev. Mr. Henderson. Newcastle, on Sunday evening.

FINED:-- Joseph Napkie of Redbank was fined \$5 and costs in Magistrate Davidson's court on Saturday for interferring with the crew of the "Kustler." This case has been in progress for about a month. Advocate.

BANK;-Thursday's Radbank picnic Was a very successful one, the chief complaint we have heard about it being that i was closed before one o'clock at night, at which time many of its patrons had not had enough dancing.

DROWNED:-Verinor, aged fourteen years the only of Geo. W. Robertson, R chibucto, was drowned last Thursday afternoon as three o'clock while bathing near the upper ballast wharf in that town; The body was recovered an hour later.

WANTED-FAITHFUL PERSON TO TRAVEL for well established house, in a few counties, calling on retail merchants and agents. Lical territory. Salary \$1024 a year, and employed on the railway only about a month expenses, payable \$19.70 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Standard Limited and accompanied the remains to House, 334 Dearborn St. Chicago.

ANNUAL MEETING .- The annual meeting of the S . Louis, Richibucto & Buctouche Railway Company was held in Rich bucto on Tuesday of last week. U. Johnson, R. O'Leary, A Leger, J. C. Vautour, H. Barriesa and P. L. Richard were elected U. Johnson was re-elected president, and Win. D. Carter secretary-

CHATHAM FARMS; -Mr. John Belbington has returned from his annual flower and plant sale at Chatham, an event which is pleasantly anticipated by the people of the Miramichi. The trip was a successful one in a business way, as Bebbington's conservatories are well and favorably known there. Mr. Bebbington also found opportunity to look about the town quite a bit. He notes some improvement in the residential portions of the town, but little progress is in the business section. He visited the farms of Governor Snowbail and Mr. Geo. Fisher, and speaks of both as model farms, equal to anything in the province.-Gleaner.

of the country .- Events.

A TUSSLE ALOFT and a finish on the ground caused quite a commotion at the Richards Company's mill, Chatham on Saturday. The participants in it wer Walter Boyle and Robert Darbyson. It appears that Boyle, who is the heavier and. promably, the abler man of the twe, was "ragging" Darbyson for the better part of the day, as they worked on the elevated track leading out to the waste burner, where there was finally a kind of wrestling bout between them on the track where it twelve or fifteen feet above the ground. The result was that they fell off together. Boyle was the under man in the fight when they reached the ground. Durbyson, who was not hurt took advantage of Boyle's inability to rise and, it is said, kicked him severely several times as he lay on the ground. He was considerably bruised and had a cellar bone broken. It was thought at the time that he was dangerously hurt and work was suspended at the mill for shout an hour in consequence. The injured man was taken to the Hotel Dieu Hospital

THE NAPAN CREAMERY PIENIC, WAS GOD. tiqued on Thursday last and nothing in the way of preparation the managers could do to make it a success was omitted, excepting. perhaps, to provide a committee armed with clubs to knock down several drunken toughs who went from Chatham, apparently for the purpose of taking charge of the affair, which they did most effectively for a time. The futility of respectable men wasting their time in endeavoring to persuade such black. guards to permit them and their patrons to enjoy the entertainment provided in a decent manner and free from annoyance, grounds, was amply demonstrated by their assaulting of Mr. Fisher and other officers of the creamery company, A suggestion his been made that the next affair of the kind shall be held in a country community not far from Napan, where it is certain that if hoodlums from Chatham or any other outsi e place were to appear and attempt such

It is likely Chatham and Newcastle will play again at Bushville on Saturday next. The Newcastle men are now organizing a club and are trying to procure suitable torpedo boat. Here is some evidence on that the spinal chord was not touched, but

Save Your Potatoes.

THEY SHOULD BE SPRAYED NOW TO PREVENT

BLIGHT AND ROT. Farmers continue to lose hundreds of bushels of potatoes every year from blight the vines with Bordeaux mixture. The results obtained at the Central Experimental Farm and elsewhere have proved over and over again how well it pays to spray, but comparatively few farmers spray their potatoes for the prevention of rot even yet. At Ottawa one variety that was sprayed yielded at the rate of 201 bushels more per acre than the same variety unsprayed, and taking the average of 11 varieties there was an increase of 120 bushels per acre. The formula used is 6 the bluestone, 4 th. lime and 40 gallons water. If the potato bette is still active 8

oz. Paris green may be added to this. If fresh lime cannot be obtained, 71 ths washing sods will take its place. There should be about 4 sprayings, the first about the middle of July, the second from ten days to two weeks later, the third and fourth at about the same intervals, the object being to keep the vines covered with the mixture until September.

It has been proven by experiment that over half the crop of potatoes will be produced after August 22ud., if the vines are kept green, and this is what spraying will do, as at the Experimental Farm, the vines have been kept green from 18 to 20 days longer than where left unsprayed. The cost of 4 sprayings is about \$7.00 Fuller particulars will be furnished

The Cathedral Bazaar.

The Koman Catholics may congratulate themselves on the very successful opening of the Chatham Bazaar in aid of the fund for the building of the New Cathedral of the Diocese, the erection of which is new making excellent progress. The exhibition building in which the Bazaar is being held is admirably adapted for the purpose, affording ample room for the different departments of the undertaking, with areas of platform for promenading which are good for the accommodation of the largest number of possible patrons.

The refreshment tables, where beverages of many kinds, ice cream and more solid refreshments are dispensed, ar ranged along the north side of the central portion of the ground floor, in the centre of which are the different sales tables which are attractive to patrons by reason of the variety and excellence of the articles offered for sale from them by the assiduous and courteous ladies in attendance at them. The supper tables are laid on the northern promenades up stairs flanking the main central gallery, which is fitted up as a

managers and their assistants. St Michael's band furnishes music each evening. Various games and amusements are also provided.

kitchen and general work room for the

The opening time each evening until and including that of Monday next is 5 o'clock. A bean supper will be served each evening. The ordinary receipts on Tuesday evening were \$483, which with the admission fee referred to below made these of the day

A gratifying feature in Tuesday after noon's Bazaar incidents was introduced by Mr. P. Hennessy, of Newcastle, whose nam is a synonym for liberality in the support o Dr. Montizambert, the director general of all good things. Mr. Hennessy, instead of paying the ordinary entrance fee of te cents handed in his check for \$500 on the Royal Bank of Canada to Mr. W. Winslow, to be given to the treasurer the Cathedral building fund.

We hope to be in a position to report our next issue that Mr. Hennessy's libera example has been followed by others.

Carleton County's First Hanging.

George Gee is to be hanged at Woodstock, Car. eton County, tomorrow. The particulars of his crime are thus given in the St. John

George Gee borrowed a rifle from the shooting deer with it (defying the game stand, testified that he was in the habit of lending a rifle to those in his company whom he trusted and Gee was one of them. Evidently it did not enter his head that the rifle was intended to be used for the purpose immediately preceding the early Sunday

Fattening Chickens for Market.

Ottawa, July 14, 1904.

DEPARTMENT OF AGRICULTURE. Commissioner's Banch.

FEEDING IN CRATES. THE BEST RATIONS. In order to have the chickens plump hangman, although the sheriff has had many and well fitted for the market when they are at the most prefitable age, they should be placed in the fattening crates when they are three months old. It is not meant by this that chickens cannot be fatted profitably when they are more than three months older Suitable Imarket chicken's of any age will show gains in the crates. In selecting chickens for fatrening, those should be fatted that have a good constitution, denoted by strong short beak, head wide between the eyes, lively appearance, and that are of medium size, and are of a broad square shape, with short, straight legs set well

> EQUIPMENT FOR FATTENING. In fattening chickens for market, it is advisable to use the fattening crates recommended by the Poultry Division. Ottawa. If only a small number of chickens are to be fatted, packing boxes of suitable dimensions can be adapted for the purpose. The open top of the box should become the bottom of the crate. and one side should be removed for the front. Laths should be nailed up and down the front, and also length ways of the crate to form the floor. The laths are placed at the same distance apart as recommended in the construction of the fattening crate. A board should be 10 loosened in the top of the crate to remove the chickens from, and a feed troug arranged in front. A shaping board and shipping boxes are also required. FATTENING RATIONS.

A satisfactory fattening ration, is one that is palatable and that will produce a ground with the coarser holls sifted out, should form the basis of all the grain mixtures. Ground corn fed in excesss will result in a yellow-coloured flesh of inferior quality; ground pess impart a hardness to the flash that is not desirable. Ground oats, ground buckwheat, ground barley and a low grade flour are the most suitable mea's for fattening.

SALISFACTORY MEAL MIXTURES:-1 Ground oats (c a ser hulls removed.) 2 Siftings from rolled oats (no hulling

dust should be included.) 3 Two parts ground oats, two parts ground buck wheat, one part ground corn. 4 Equal parts ground oats, ground

barley, and ground buck wheat. 5 Two parts ground barley, two parts low grade flour, one part wheat bran. The ground meal should be mixed to thin porridge with thick sour skim-milk or buttermilk. On the average 10

pounds of meal require from 15 to 17 pounds of sour skim-milk. A small quantity of salt should be added to the When sufficient skim-milk or buttermilk cannot be obtained for mixing the

vegetable food should be added to the fattening ration. The chickens should remain in the fattening crates for a period of 24 days more or less depending on the condition of the bird. Before they are placed in the crates they should be well dusted with sulphur to kill the lice. They should be

mashes, a quantity of animal or raw

THE FIRST WEEK. It is necessary to feed the chickens lightly the first week they are in the crates. A small quantity of the fattening food should be spread along the troughs and as this is easen more food is added, but not as much as the chickens would consume. The food should be given three times a day, and after feeding the troughs should be cleaned and turned over. The chickens should receive fresh water twice a day, and grit two or three

THE SECOND WEEK. The chickens should be given twice a day as much food as they will eat. Half an hour after feeding the feed troughs should be cleaned and turned over. THE LAST TEN DAYS.

At the commencement of this period one pound of tallow a day should be added to the mashes for every 70 chickens The quantity of tallow should be gradually increased to that at the latter part of the period one pound of tallow is fed to 50 chickens. The chickens should receive the fattening food twice a day.
