On Wednesday, August 10, Pictou is t have a sailing regatta that promises to be notable far. The first and second prizes offered for the ordinary type of "one-man" Gulf-fishing boat are respectively \$100 00 and \$50.00. The only conditions necessary to make a boat eligable for entrance are that she must have been regularly engaged in fishing during this season, and that she must not be more than twenty-five feet in length over all. After this class had been formed the management received numerous applications, notably from Prince Edward Island, asking for a class that would embrace the newer boats of the "two-man" type, of which so many have been built on the Island during the last year or two. The result was that a second class of fishing boats was formed, the conditions of entrance being the same, except that the boats must not be more than thirty-four feet over all. For these boats the first and second prizes are respectively \$30.00 and \$10.00.

Besides the fishing boats, provision has been made for three or four classes of vachts which are to be presented with cups. The management have wisely decided to eliminate all handicaps and to make an absolute class for every boat willing to enter. This should make an exceedingly pretty series of races. The generous prizes will in all probability, attract more boats than have raced together in a Maritime Province harbour before, and the whole regatts, and the small fishing boat race in particular, should be a

boat from the three Maritime Provinces into one regatta, and, as such, deserves

I have travelled through many parts of Canada and 1 have noticed everywhere the same spiritual fealty and attachment to the Holy Father. Here I have niet, with only another instance of the same. It shows how much you apprece iate, and rightly so, the grace given to you by Almighty God of being members of the Catholic Church. Christ in establishing age fees reduced, the town to bear the His Church had the purpose of glorifying God and sanctifying soule; this could not be obtained without truth and sanctity of doctrine and, therefore, the Church must be and is the light of the world and the purifier and healer of nations. Notwithstanding what rational philosophy and human art have accomplished, the world was in the darkness of error and in the depths of corruption and vice. "I am the light of the world" says Christ, "I came not call the just but sinners to repentance' Yet Christ was not to remain on earth for all time and therefore it was that he commissioned the Church, His Apostles and their successors to take up His work and carry it onward to the consummation of the world. Speaking to His chosen ones He said "You are the Light of the world. Let your light so shine before men that they may see your wo:ks and glorify your Father who is in Heaven.

This was to be the purpose of that great institution of Our Divine Lord, the Catholic Church, namely "to illumine those who sit in darkness and the shadow of death.' But that was not all. Christ said again to knew the witnesses would swear against His Apostles "You are the salt of the earth." That is to say that the Church was to purify and cleanse away foulness and corruption from amongst the children of men. That she might more effectively accomplish this sacred mission Christ chose one from amongst the chosen twelve and upon him and his successors He conferred the divine prerogative of being His immediate representative and vicar upon earth until the end of time. He constituted him the Supreme Head of the Church and elected him with all the powers and privileges to carry on the heavenly mission. "Thou art Peter and upon this reck I will build my Church and the gates of Mell shall not prevail against it." Thence did Our Lord ask the question "Levest Thou Me more than these?" and thrice was it answered "Yea Lord, thou knowest that I love Thee" and then the Lord said "Feed My lambs, feed My sheep."
