

Soft Harness EUREKA Harness Oil. You can make your harness as soft as a glove and as strong as iron by using EUREKA Harness Oil. It is the only harness oil that has been tested and found to be the best.

The Highest Object of Art is To Make Useful Things Beautiful. OUR NEW WALL PAPERS are open for your inspection. From rich colorings in Hall and Room Designs to Dainty Chamber Effects Our Stock and Prices should meet the most exacting requirements.

Favor us with an Early Visit. W. S. LOGGIE Company, Ltd., CHATHAM, N. B. Season 1904.

Publisher's Notice. The publisher desires to urge upon the notice of all who wish to contribute matter of any kind to the ADVANCE's columns—whether it be advertising, news or notices of meetings, etc.—that the paper goes to press on Wednesday afternoons and to ensure publication, their favors should be in the office not later than Wednesday morning.

The printing of the paper is frequently delayed by persons who hold back accounts of meetings, announcements of entertainments, etc., which they might easily send in days before that on which we go to press, but they seem to consult only their own convenience and often place them in our hands on Wednesday after the paper is made ready for press, and seem to think it a hardship because they do not appear; and, in most cases of this kind, the contributions are really free list advertisements. We want to help every deserving organization in the community, freely, in every legitimate way, but must expect them not to delay the publication of the paper when they wish to make use of our columns. Send your matter for the ADVANCE on Monday or Tuesday, but don't hold it back until Wednesday if you can possibly avoid doing so.

Big Freshets are the order of the day everywhere on the North Shore.

The Lawn Tennis Club, of Chatham, is open to its courts with play on Saturday.

OTT—Mr. J. R. Pedgley, late of the I. C. R. mail service, died at his home in St. John on Tuesday. He was 74 years old.

SCHUR LAURA C.—The three-masted schooner LAURA C. from Halifax to Sydney is coming to Chatham, N. B., and then goes to New York.

THE NEW CATERDRA—About a dozen stone-cutters and masons arrived by the Maritime express yesterday morning to resume work on the new Chatham Cathedral.

FIRE—Mr. Robert Coulthart's house about a mile in the rear of Douglastown, and nearly all the furniture, was completely destroyed by fire Sunday afternoon about five o'clock.

NEW TOG—Mr. Arch. Frazer's hand some and lady's new suit, the R. R. Call, was launched on Thursday morning last from the Miramichi Foundry building yard.

DENTAL NOTICE—Dr. Vaughan's office will be closed on Wednesday from 9 a.m. until 2 p.m., owing to his duties as dental surgeon to the Hotel Dieu requiring his presence at that institution.

I. C. RAILWAY CHANGES—Mr. Isaac B. Humphrey has moved to Newcastle to assume his duties as station agent in place of the late Mr. Fleming. Mr. J. Lutz, station agent at B. Heddou, succeeds Mr. Humphrey. Mr. Daniel Saunty of the freight house at Newcastle, will have charge at B. Heddou, for well established home in a few counties, selling on retail merchants and agents. Local territory. Salary \$1024 a year and expenses, payable \$18.76 a week in cash and expenses advanced. Position permanent. Business successful and rising. Standard House, 334 Dearborn St., Chicago.

NOT AT THE JUNCTION—The Montreal Transcript says that "Mr. John Fraser is in charge of the steam shovel at Chatham Junction."

What would a steam shovel be doing at Chatham Junction, especially at this season of the year? The only thing it could operate on would be black bog and water—chiefly the latter—and there is, no doubt, just as good water anywhere along the line. The Transcript will find Mr. Fraser at Barnaby River.

APPOINTMENTS—His Honor the Lieutenant Governor has been pleased to make the following appointments:—

Alexander J. W. McKee to be a Justice of the Peace. J. Raymond Young to be a Commissioner for taking Affidavits to be read in Supreme Court. Jerome Dirven, M. D. to be Coroner.

John B. Goggin to be a Commissioner of the Parish of Dandis Civil Court, in room of Louis L. Leger, resigned. George Jardine to be a Stipendiary or Police Magistrate for the Parish of Carleton, with civil jurisdiction. Hugh M. Ferguson to be a Stipendiary or Police Magistrate for the Parish of Richibucto, with civil jurisdiction.

Maxime D. Leves and Hubert D. Richard to be Justices of the Peace. Philmore Leger to be a member of the Board of Liquor License Commissioners, in room of Philmore Leger, whose term of office has expired.

To Cure a Cold in One Day. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

S. S. Arrivals. The British steamers Lord Londonderry 1621 tons, and Ladbrough, 1969 tons arrived at Chatham yesterday.

The first named will have 300 standards of deals put in by E. E. Neale and finish loading with E. Hutchinson. The other will be loaded by Mr. Neale.

Always Reliable. We can always depend upon KENDRICK'S LINIMENT. It is always the same. E. S. DIBBLEE. St. John, N. B.

A Thrilling Alaska Adventure. Life "North of Fifty-three" has a wonderfully keen and sympathetic interpreter in Rex E. Beach in a story in the May McClure's. It vividly reflects the sometimes crude and brutal, yet always picturesque and interesting characters and conditions of "Big George" from a drunken bully into a

A Noble Rescue. The Sydney Record of April 28 contains the details of the sinking of the French schooner Augusta Marie last week, off St. John's, and the rescue of the crew by the Battle Line steamer Pydna, Capt. Crossley. The schooner was caught and crushed in the ice on the 28th of April. Being in the danger, Capt. Luney displayed signals of distress which were answered by the Pydna, then on her way to Louisburg, and the captain and 15 men comprising the crew of the Augusta Marie were taken off in safety, the schooner sinking within a short time after. The following is taken from the Record:

"The crew all wish publicly to thank Capt. Crossley of the Pydna, who forced his vessel through the heavy ice at great risk to rescue them and afterwards refused any compensation whatever for his services. They are determined that he shall be rewarded in some way for his timely rescue, however, and Capt. Luney has asked French Consul Moseley to bring the facts of the case to the notice of the French government."

Only One Cure For Catarrh. And it's neither a drug, mixture, a troublesome atomizer or an irritating snuff—it is fragrant healing Catarrhin which is recommended by at least twenty thousand physicians in United States and Canada. The balsamic vapor of Catarrhin goes at once to the source of disease, kills the germs, breaks down the inflammation, soothes the throat, keeps the nostrils clear and cures foul breath. Cure is complete and permanent when Catarrhin is used. It is as certain as eternity to cure, can't fail. Every complete dollar outfit guaranteed; trial size 25c. Use only Catarrhin zone.

That Campbellton Shooting Case. On twelfth of April a shooting case took place near Campbellton. A special train was pulling out of the I. C. R. yard at Campbellton on that day and passed two young men, Messrs. John Barberie and Jacob Moore. Barberie was carrying a loaded rifle and as the train was passing, the weapon in some manner discharged, the ball striking through the woodwork of the car, passing through the window of the car, striking Conductor Mieshad in the leg. The young men on being spoken to about the case, claimed that the rifle had been accidentally discharged. Their explanation was not, however, accepted by the railway authorities and Detective Skiffington was sent on the case. An information was laid against the Campbellton youths by Detective Skiffington on Friday last, charging them with criminal carelessness in handling firearms.

When the Liver Gets Torpid. You want a mild stimulant like Dr. Hamilton's Pills of Mandrake and Bisterton which cure inactive liver and relieve constipation and sick headache at once. Use only Dr. Hamilton's Pills. Price 25c.

Rev. G. M. Young Honored. Rev. G. M. Young, formerly pastor of St. Luke's Church, Chatham, who has during the four years since he left Chatham, been pastor of the first Methodist Church, Charlottetown, Prince Edward Island, is going to Fairville, St. John, in June. His ministry in Charlottetown appears to have been a successful one. The Charlottetown Guardian says:—

The First Methodist Parsonage was the scene of a happy company on Tuesday evening, when many of the congregation gathered to join with Rev. G. M. and Mrs. Young in celebrating the tenth anniversary of their wedding. When many of the congregation had assembled, Mrs. (Col.) Moore, on behalf of the ladies of the church, presented Mr. Young with a beautiful complete set of Rankin's works and Mrs. Young with the following address, accompanied by a purse of money.

Dear Mrs. Young: On behalf of the ladies of the congregation it affords me much pleasure to present to you this little token of the anniversary which you are to-night celebrating, with the prayer that by the years roll by the cause we love so well may continue to receive from you the same brightening help, uplifting influence your presence among us has proved.

Committee. M. M. White, M. E. Moore. Charlottetown, P. E. I., April 26, 1904. Henry Smith followed on behalf of the congregation, reading the subjoined address, which was accompanied by a handsome purse containing \$100.

Rev. George Miller Young, pastor of the First Methodist church, Charlottetown: On behalf of the members of your congregation, we offer to you and Mrs. Young our congratulations on the tenth anniversary of your wedding day.

During four years as pastor and preacher, you have endeavored yourself to your people who will ever hold your faithful ministrations in loving remembrance.

We are confident that your efforts in promoting temperance and righteousness will have an appreciable effect upon the morals of this community, and will not soon be forgotten by the citizens of Charlottetown.

We beg you to accept the small token of our regard and esteem. Committee: SIMON W. CRABBE, HENRY SMITH. Charlottetown, P. E. I., April 26, 1904. Mr. Young responded feelingly to the token of appreciation from the members of his church, and the remainder of the evening was spent in games and conversation, during which luncheon was served by the ladies.

"Events." Messrs. Anlow, proprietors of the "Union Advocate," Newcastle, have taken over Campbellton "Events," which cannot but have a beneficial effect on the merits of that publication as a Newspaper. In its last week's issue the ex-editor and proprietor of Events says:—

"Announcement is made that with May the first the proprietorship of Events changes hands, the present publisher to be succeeded by Anlow, Brown, of Newcastle, publishers of the Union Advocate, the editorial chair to be occupied by Harry B. Anlow. We wish for our successors every success that enterprise on their part and progressiveness of the people will warrant. We thank the people of the Bay Chaleur country for the most generous

patronage accorded us during our sojourn of three years and four months in Campbellton, the Mecca of trade for this country, and will not soon forget our pleasant social and business relationships with the admixture of well defined French, English Scottish and Irish, not forgetting the Miramichi dialect of the North American pioneer which is still an element.

"While we are passing we are very pleased to note the best friendship between Protestant and Catholic which that spirit deepens and broadens that racial and religious discord may be eternally buried beneath the glorious sentiment of 'Canada for the Canadians'—a united people."—Events.

The Advocate announces that Mr. H. B. Anlow goes to Campbellton to take charge of Events, while Mr. C. W. Anlow will be business manager of the Advocate, with Mr. A. E. Goding as editor. Of the last named gentleman it says:—

"Mr. A. E. Goding who was at one time connected with the 'Union Advocate' arrived here Monday evening to assume the editorial management of this paper. When Mr. Goding left here some three or four years ago he went to Sydney where he represented the Halifax Chronicle during the boom period of the Iron City. He was afterwards in charge of the Halifax Evening Echo, and later still the news department of the Sydney Daily Record. While with that paper he was engaged by the New York American and Journal to furnish that paper with an account of Commander Peary's exploits in the Arctic regions and later by the same paper to follow the Marconi experiments in trans-oceanic wireless communication at Table Head and Cape Cod. About a year ago he returned to the Chronicle as financial editor."

Beyond All Description. Was the experience Mrs. E. A. Carter of Danville had with rheumatism which resisted everything till Nervine was tried and it cured. "The only relief I ever got was from rubbing on Nervine" writes Mrs. Carter. "I penetrated to the very core of the pain and eased my suffering after a few applications. I have used many rheumatic remedies but none had the soothing, pain subduing power of Nervine which I recommend highly." Try Nervine yourself, Good for internal use and excellent to rub on. Price 25c.

Mr. F. M. Tweedie on the Princess Royal Island Mines. [News-Advertiser, Vancouver, B. C.] F. M. Tweedie, manager for the Princess Royal Gold Mine, which company is operating some valuable claims on Princess Royal Island, is a guest at the Hotel Vancouver, having arrived from the north yesterday on the steamer Tessa. The properties on Princess Royal Island are very promising, and those operated by the company are contiguous to the Homestake, in which several Vancouver people are interested, and the Kelly group of nine claims, which are about to be taken over by New Brunswick people. Those who compose the Princess Royal Mines, Ltd., are also New Brunswick people, the president of the company being the Hon. Mr. Pagsley, attorney general of the province, and Hon. L. J. Tweedie, the premier, is also interested. Hon. Mr. Pagsley and others interested are expected in Vancouver early next month to look at the properties.

"We have two very well defined veins, and the ore is heavily mineralized," Mr. Tweedie said last evening, when asked for information concerning the claims. "One vein is nine feet in width, while the other is between three and four feet, they being 200 feet apart. We have a shaft sunk 100 feet, connecting with a 400 foot tunnel, and have employed eighteen men, all winter. We expect, however, to operate on a much larger scale this summer."

"I think the showing is the most beautiful of any of the coast mines, and there is certainly a future for the Princess Royal properties. The shipments already made have run over \$100 to the ton, twenty tons to January give \$119. We expect to make another shipment of fifty tons next month, and as soon as spring has cleared the two small lakes, across which we have to transport the ore, our shipments will be larger and more regular. The ore is gold-bearing and we have it treated at Tacoma."

A week ago last Saturday, we had our own knowledge, which did some damage and delayed operations. February was a hard month, but March brought us fine weather, and this was followed with rains in the early part of the present month. We expected the slide, but the volume of snow was a surprise. The slide, which filled the gulch, was the last of three, and swept away the ore sheds at the tunnel, the framework and sorting shed at the head of the shaft and filled the first ten feet of the shaft with snow.

There were three men in the tunnel at the time, the end of which was covered with 18 feet of snow. They came out by way of the shaft through 14 feet and were glad to gaze upon the blue heavenly ocean moon."

Chatham Town Council. The regular monthly meeting of Chatham Town Council—the first meeting of the newly elected council—was held on Monday evening in the Town Hall, His Worship, Mayor Murdoch, presiding.

The Clerk read the election returns, showing that all of last year's members, excepting Ald. Hocken, who did not run, were re-elected and that Mr. Bentley had been chosen as an alderman at large in place of Ald. Hocken.

The Clerk's report on the election was read and adopted. The minutes of last meeting were read and confirmed.

The Mayor read a letter from H. Bremner, complaining of over-valuation of property corner of Canard and Church streets. Referred to the assessors.

The Mayor read also a reply from the Minister of Militia and Defence, acknowledging receipt of Council's recommendation in reference to Lee-Merford rifles. Filed.

The Mayor also read a letter from the Minister of Marine, re marine slip subsidy for Chatham, saying the matter would receive his careful consideration. Filed.

Ald. Maher read a petition from a large number of citizens praying for the opening of a new street, running from St. Andrew's street and parallel with Wellington street, eastward to Green Lane so called. Referred to the Public Works Committee.

Ald. Maher read a number of Fire Department bills and Ald. Snowball a number of Light, Water and Sewer Department bills which were ordered to be paid.

Adjourned half an hour for committee work. [The Citizens' Band appeared before the Town Hall at this stage of the proceedings and delighted all present with the music of their serenade of the newly elected council.

The Granger Condition Powders. The only Powder that has stood the test of quality. Cure Stompage, Swelled Legs, Bad Blood, Horse Ail, Cough, Thick Water, a Blood Tonic and Purifier. At all dealers. Price 25 cts. THE BAIRD CO., Ltd., Proprietors. WOODSTOCK, N. B.

The council, on motion of Ald. Snowball, adjourned for committee work, and Mayor Murdoch appeared on the balcony and expressed the thanks of the members for the compliment and honor paid to them by that public spirited and popular musical organization.

After nearly an hour's adjournment council reassembled. The following standing committees for the year were moved:—

By Ald. Watt, Finance, Ald. MacLachlan, (chairman) and Ald. Snowball, Maher and Gallivan.

By Ald. Maher—Light, Water and Sewerage—Ald. Snowball, (chairman) and Ald. Fraser, MacLachlan, Morris, Bentley and Watt.

By Ald. Snowball—By-laws and License:—Ald. Maher, (chairman) and Ald. Watt, Bentley and Gallivan.

By Ald. Fraser: Fire—Ald. Gallivan, (chairman) and Ald. Bentley, Maher M. Lachlan and Morris.

By Ald. MacLachlan: Public Works.—Ald. Watt, (chairman) and Ald. Fraser, Bentley Snowball, Maher and Gallivan.

By Ald. Morris: Police—Ald. Morris, (chairman) and every other member of Council, including Mayor Murdoch.

Ald. Morris read a number of Police Committee bills and Ald. Watt a number of Public Works Committee bills which were ordered to be paid.

Ald. MacLachlan, from the finance committee presented a number of election and other bills, which were ordered to be paid. Ald. MacLachlan moved that an assessment of \$28,600 be levied on the town for the current year, make up as follows:

Interest 87,800
Sinking fund 1,900
Schools 8,700
Sewers 1,500
Maintenance 1,500
Streets 3,000
Light 1,600
Contingencies 2,500
Board of Health 100

The total amount, Ald. MacLachlan said, was \$50 less than last year's assessment carried.

Ald. Morris read Scott Act report showing that the following were fined \$33 each, during April.

Thos. Mangano
James Johnston
John McKinnon
Arch Fracker
G. Morris

The report was adopted. Ald. Bentley asked why they never got further than a first offence.

Ald. Morris said that in order to obtain that information Ald. Bentley would have to ask the Scott Act Inspector.

Ald. Watt said it might be that the parties had already paid second offence fines and it was not in order to make second offences in the case. The Act, it seemed, was run for revenue purposes rather than suppression.

Ald. Bentley said he still wanted to know how it was that the law was not administered in Chatham in a proper way. The people had noted in favor of it, because they wished to suppress the traffic and not to have it operated for revenue. There was a way to have liquor legally. Those who wished to do so could import it from outside and fill their cellars with it without violating the law, but the sale in Chatham was illegal and he proposed to do what he could to have it stopped.

Ald. Maher said Ald. Bentley had just lost the order for the year's assessment passed with nothing for police purposes. The Scott Act was depended on to produce the revenue to pay the policemen.

Ald. Snowball sympathized with Ald. Bentley's views. There was enough now in the Scott Act fund to pay the police for the year, violators could be fined if desired if it was desired to put down the traffic. He observed that some in the business were not fined as often as the others. He would back up the Inspector if he would treat all equally and fine them as often as he liked.

Ald. Watt agreed with what Ald. Snowball had said; he said that hereafter the police committee business would be done in open council as all the Aldermen were members of that committee. He favored the license system, which would compel the dealers to do business with a plate glass front between their customers and the street and all could see what was going on. The Scott Act enabled the dealers to pay the police for their business screened from the public.

Here the matter dropped. Ald. Gallivan moved that tenders for sawdust and wood for the electric light and pumping stations be called for by invitation to each of the mill owners in town. Carried. Adjourned.

DEPARTMENT OF AGRICULTURE, COMMISSIONER'S BRANCH. OTTAWA, APRIL 28, 1904. Many of the most thoughtful and public spirited men of the Dominion are numbered among the officers and members of the Canadian Association for the Prevention of Consumption and other forms of Tuberculosis, which held its fourth annual meeting in Ottawa on April 20th and 21st. Every thinking man and woman must be impressed with the necessity for united action to check the ravages of a disease which causes one death in every eight in this country, and gives rise to a vast amount of suffering and permanent ill health. It is calculated that in Canada as the present moment between 30,000 and 40,000 persons are suffering from it, yet it is undoubtedly a preventable disease, and one that is curable in its earlier stages.

Arousing the Public. The report of the executive council pointed out that the operations of the association have combined with other influences to concentrate public attention in some degree upon Consumption and to awaken a desire for information regarding the measures which should be taken to stay its ravages. The Secretary, Rev. D. Moore of Ottawa, during the year distributed by mail and otherwise over 100,000 leaflets on "How to Prevent Consumption," "Rules for Ginnapitives," etc. Many lectures

The Granger Condition Powders. The only Powder that has stood the test of quality. Cure Stompage, Swelled Legs, Bad Blood, Horse Ail, Cough, Thick Water, a Blood Tonic and Purifier. At all dealers. Price 25 cts. THE BAIRD CO., Ltd., Proprietors. WOODSTOCK, N. B.

were also given, with the hearty co-operation and sympathy of medical health officers and other members of the medical profession; the mayors and members of municipal councils, the clergy of all denominations, and the proprietors of newspapers. As the president, Hon. Senator Edwards, pointed out literature such as the association distributes should be in every home, so that the people might be taught the simple means by which the scourge may be avoided.

While sanatoria were helpful in the case of those who had the disease, he believed that the great means of its prevention was in education.

Infection from Animals. A phase of the question in which farmers are particularly interested was discussed by Dr. Ravenal, an eminent United States authority, who is assistant medical director of the Henry Phipps Institute at Philadelphia, in an able address on "Animal Tuberculosis in its Relation to Human Health." Dr. Ravenal detailed with exactness the advancement made in the study of consumption since Koch of Berlin made a famous discovery of the tubercle bacillus, and said that in the course of many years experimenting he had not found any animals that were immune from tuberculosis. The lecturer vigorously combated the opinion of Koch and others that there is an essential difference between human and bovine tuberculosis, and cited a large number of experiments in support of his view that these were practically identical. While admitting that the majority of cases of consumption were due to infection by inhalation, he claimed that a considerable percentage could be definitely traced to infection through the digesta tract by food, particularly milk and meat. The few figures available seemed to indicate that about 25 per cent of children's cases were due to the latter cause. He had no knowledge of any case of an adult becoming consumptive in this way. In conclusion, Dr. Ravenal urged that while it is important to educate the public, to build sanatoria, and to establish large institutes for the treatment of advanced cases, the whole duty of prevention was not being done if the possibility of infection from animal sources were neglected.

The speaker was most favorably received, and at the close of the lecture was accorded an unanimous vote of thanks on the motion of His Excellency, the Governor General, who has always taken a great interest in the work of the association.

Fresh Air, Light and Sunshine. The keynote of the convention was:—"Live as much as possible in the open air." Fresh air, light and sunshine are most important preventives of consumption, and all rooms occupied by consumptives should be as well lighted and ventilated as possible. Living in overcrowded, ill-ventilated, dark, dirty rooms; insufficient or bad food; dissipation; or anything which enfeebles the constitution and thus impairs its power of resistance, is likely to fall prey to the invasion of the system by the germ. There are found in vast numbers in the dust particles of the dried up air of the consumptive, and in the minute droplets sprayed into the atmosphere by the consumptive in coughing, consequently spitting about the streets or in buildings (churches, schools, theatres, railway stations, etc.) is a dangerous as well as a filthy habit.

The Sanatorium Treatment. The ideal place for treatment in advanced cases of tubercular disease is in the municipal fresh air sanatorium, where the patient may enjoy the best of care, without being altogether removed from the watchfulness of his friends and family physicians. Every patient who is cured in the sanatorium becomes an apostle of the gospel of fresh air, hence these institutions serve as object lessons of the greatest value. It is for this reason mainly that the Nova Scotia Government has just erected a sanatorium at Kentville with a capacity for 18 patients. In the whole Dominion there are only four other institutions devoted to the treatment of consumption. Three of these are under private control and management, and one is the property of the National Sanatorium Association of Ontario. The total accommodation in all of these, with that in hospitals to which consumptives are admitted, probably does not exceed 200 beds. We are indeed poorly equipped for the fight, since the sufferers are so vast in number and so widely distributed as to require a home for consumptives in nearly every county. Only the hearty co-operation of the Dominion and Provincial Governments with the municipal councils seems likely to afford a satisfactory solution of the problem of dealing with what should be no longer the "great white plague."

WOODSTOCK, APRIL 28th 1904. Containing large meadow and upland, also dwelling house and Barn. Apply to Mrs. CATHERINE MAHER, St. Hubert, April 28th 1904.

Farm for Sale or Rent. Containing large meadow and upland, also dwelling house and Barn. Apply to Mrs. CATHERINE MAHER, St. Hubert, April 28th 1904.
