Sale of Fishing Privileges.

One half of that valuable salmon fishing on the north end of Fox Island, adjoining T. H. & P. Crocker's establishment there, has been purchased by W. S. Loggie, Esq. Also all the outfit for the sum of \$800. This half in good salmon fishing season, produces over 100 salmon.

A Spool Factory.

The erection of a Spool Factory was commenced in Newcastle about five weeks ago by Mr. William Russell, which will be ready for business in the course of a couple of months. Mr. Russell has a brother engaged in the lime kiln business in Chatham, and we are pleased to learn that he manufactures a large amount of lime which returns him a handsome profit. We hope these energetic men will succeed in the enterprises they have in hand.

Wooden Ships.

The New York Maritime Register contains the following item:—There seems to be quite a demand for wooden sailing ships. The Germans are in the market for second hand vessels but can find very few, and it is reported that there is now but one wooden sailing ship for sale along the Eastern Coast. This will be somewhat surprising to many, but it is a good indication that sailing vessels still find profitable employment.

Diphtheria.

In our last issue we announced the death of one of Mr. Cherry's daughters. In this issue we are pained to have to announce another. Elizabeth, aged 15 years, died on Wednesday at 6 o'clock, p. m.

Patrick Condon, aged 7 years, died of diphtheria on Tuesday last at 11 o'clock, p. m.

The eldest child of Mr. Samuel Wilcox, aged seven years, died of diphtheria yesterday.

Worthy of Attention.

The heir of the Touchey estate has returned from Boston, and purposes removing off his lands at Lower Napan, all the railway sleepers, hemlock, pine logs, spruce logs, smelt poles and everything that will make cord wood, etc. All this material he proposes taking to Boston, where, he says, good figures can be got for them. He also says we are all asleep in Miramichi, wasting our time and giving away our lumber for nothing. He appears to be an intelligent person and among other things he says we have trade enough to keep five vessels of from 70 to 90 tons each, employed in carrying railway sleepers, lumber and bark to Boston alone.

And he will convince you that St. Jacobs Oil is the most wonderful remedy that has ever been brought before the public. Rheumatism of many years standing has yielded immediately to its almost magical influence. As many have expressed it, its action is electrical, seeming to drive the pain before it until all discomfort remains. It is a certain cure for neuralgia, giving immediate relief upon the first application, and curing, in a short time, the most inveterate cases.
