

LOCAL MATTERS.

NOTICE.

THE public are hereby cautioned against paying subscriptions or amounts for advertisements to any person on behalf of the STAR, unless said person hold written authority from me to collect and receive the same.

J. E. COLLINS,
Ed. "Star."

A Large Egg.

Our worthy townsman Mr. Regan exhibited last week in his shop window a hen egg weighing a quarter of a pound. The egg was laid by one of his own hens; and the same hen lays two or three such eggs every week.

A Mean Dodge

The patrician element of the Grit party here have now determined to have the "boat race" the day Sir Charles, and Sir Leonard and Hon. Peter Mitchell will be here. They know their muddled arrangements will be eclipsed by the Liberal Conservative demonstration here, they know Sir Charles will make smash of all Mr. Blake's icy special pleadings, and so they are determined on getting some of the people off to the boat race! Ehen!!

Star Agency.

Messrs. Staples and McAllister of Newcastle, have now the Star agency at Newcastle, and will see that our New castle friends are not about the Chatham Star. We feel glad in having Messrs. Staples and McAllister as our agents, for they are two of the most enterprising young men in the county. Their establishment is a marvel of success and business propriety. They deal in confectionary, temperance drinks, ice creams, biscuits, cigars, &c., of superior quality.

Drowned at Black Brook.

On Sunday night, three sailors belonging to the bark Glengarden, left Black Brook in a small wherry, to go on board of their ship. They were all the worse of liquor, and upset the boat. One of them, a colored man named Newman, belonging to Jamaica, and steward of the ship, drowned almost instantly. The other two clung to the bottom of the boat, and drifted down the river. Capt. Cameron, who had charge of a raft below Black Brook, heard the cries, and putting out rescued the two unfortunate fellows.

Appointment.

We are glad to learn that W. D. H. Kenny, Esq., of St. John, has been appointed manager of the Mutual Life Insurance Company for this Province and Newfoundland. Hitherto the company has had foreigners to do the Provincial work, but now we are glad to say that it has adopted the sensible plan of having "one of ourselves." Mr. Kenny is a first class business man, and represents a first-class company. He is doing a good deal of business now at the Miramichi. We understand he will appoint Mr. R. B. Adams, Barrister, etc., his agent for Chatham.

A Nelson Critic.

The Nelson correspondent of the Advocate, who is the greatest game poacher in Nelson, though a miserably bad shot, takes exception to the Star, saying "the sportsman is preparing for the 1st of November." So he is, but there is, we suppose, other game beside partridge. There is in this province, we believe, such a bird as a plover, a snipe, a sand piper, or "sand peep," as the clumsy poacher of Nelson calls it. Brother Advocate, don't publish these things, if you want to keep your correspondents out of trouble.

The Dredge St. Lawrence.

The dredge St. Lawrence concluded her summer's work on the Horse Shoe bar, Saturday last. She left this morning, for Picton. The dredge has done a creditable summer's work this season, on the bar. Indeed to put it aptly, there now is no Horse Shoe bar. There is a good staff in the dredge. Capt. Thompson is an officer who pays no attention to anything but his duty, and this he does intelligently and well. Mr. James McMurray is the engineer, and is the right man in the right place, while of the first class qualities of Mr. Allan McEachran as a pilot, we need not say anything. They have done first rate work—that is the best praise can be given them.

A Scandalous Bridge.

There is a bridge over Stewart's brook, three miles or so down the river road on the other side, which is a standing disgrace. The bridge spans a chasm fully 30 feet deep, and one wonders why horses are not driven over it, or men do not walk over it on dark nights, for it has no railing upon it. More than this, dangerous holes are appearing out towards the edge, and some time a horse will stumble into one of these and go over to his destruction. The bridge seems to be 30 or 40 years old, is substantially built, and one time evidently had a kind of ginger bread rail to it. What should be done at once is, fill up those dangerous holes, put a new top timber on either side the bridge, and on this put a substantial railing. We wonder why the supervisor or whoever he may be that has charge of that portion of the highway, does not notify our County members of the dangerous condition of this bridge. We wish Messrs. Adams and Davidson would some day take a drive down to it—if they did we are sure the danger would soon be removed.

Black Brook Notes.

Messrs. A. & R. Loggie & Co., Black Brook, are building a large freezer at Pokemouche, Tracadie, Gloucester Co. They are their own patentees for this freezer. It is surprising that merchants in that locality have never been energetic enough to have had a freezer there before this. It is said at that place and near St. Darions inlet the bass are very plentiful and of a large size, from 10 to 25 lbs. and uncommon weight. The Loggies must be National Policy men, for they believe in building up their own country, and to prove they are succeeding, is this written: At Black Brook they are building an enormous building for a smelt packing house. The upper storey for smelt box making, and a tin shop for lobster packing. They are wonderful boys.—Com.

Mr. Muirhead and Major Call in Thunder Bay.

In the Thunder Bay Sentinel of Aug. 19th, we find the following:—
Wm. Muirhead, Jr. Esq., son of Senator Muirhead of Chatham, N. B., and R. R. Call, Esq., of the same place were among our visitors on Wednesday last. Mr. Muirhead is the owner of a large quantity of valuable mineral lands in the western portions of the township of McIntyre and is here to look at them, and we hope will do something toward their development. Mr. Call previous to his departure was the recipient of a very handsome gold watch and chain which we see by the Chatham Star was presented to him by a wealthy lumber merchant of that place for having rendered valuable service in saving from destruction an immense quantity of logs, the loss of which would have ruined the owner.

Correspondence, Poor Knapp.

A writer signing himself "busy-body" writes us from Sackville, giving an account of the preparations to receive Mr. Blake. He grows very satirical as he enumerates some of the "gentlemen" who are to assist Sir Albert in receiving the leader. He mentions the name of A. W. D. Knapp; but he must be joking. Poor Knapp!—we have seen him, and deem it cruelty to animals to have an unkind word to say about him. The fact is,—and we would not say it but that A.W.D. has been making himself so conspicuous in the old Woodstock Sentinel, and as a Blake receiver—he was looked upon when we knew him as being a little bit silly, but quite harmless. Mary a day have comrades said, when it was dull, and we could not borrow a base or a cricket ball, Come and let us have some fun with Knapp. And poor Knapp has gone into public life. It is a mortal sin, not for poor Knapp, because he knows no better, but for those who led him on. We hope Mr. Blake, when he visited Sackville, was very much pleased with A. W. D. Knapp.

STAR BRIEFS.

Mr. James Stevens is on a short visit to Chatham.

See Senator Botsford's advertisement in another column.

Mr. Kennedy and family are to visit the Miramichi. See their advertisement.

See Mr. Thompson's advertisement today. Mr. Thompson is a first-class photographer, and his patronage is large.

Hon. Mr. Blake arrives here this afternoon, and will be the guest of Mr. Snowball during his visit. He remains till Monday.

Mr. W. Wyse advertizes for sale the effects of the late establishment of Carmichael Brothers. See in another column.

Mr. J. Bell has a contract to whitewash and paint the office of J. B. Snowball, Esq. Mr. Bell attributes this to the N. P. Hitherto fresco painters were imported.

A great many of the gentlemen who worked hardest for Mr. Snowball, at the last election, have not been invited to the "supper." They are much "put out," and it is no wonder.

BATHURST NOTES.

Bazaar.—The R. C. congregation of Bathurst have during the past three days been holding a most successful bazaar in aid of their new church to replace the one destroyed by fire a year ago. The average attendance for the three days has been 500 persons, but it is impossible at this writing to give anything like a correct account of the receipts. The affair is to be wound up this evening by a grand concert in which many of the leading musicians (both vocal and instrumental) of Bathurst and Chatham will take part. It will no doubt be a grand affair. Rev. Father Varrilly and the congregation are to be congratulated on their energy and perseverance and also on their success. Excellent tables were spread to which most all present did ample justice. Mrs. Rachael Doucet had entire control of the eating department, for the ladies of the village and Mrs. Melvin for the town, in which they were ably assisted by many very efficient helpers. Mrs. S. Melanson had charge of the selling and lottery table on the village side, and judging from the energetic way in which she and her assistants sold tickets and goods must have been very successful.

The Sisters of the congregation of Notre Dame also had a table, but at this writing I have been unable to get any very definite information in regard to it. There was also an art gallery which was well patronized.

The past rains have made the roads very bad and I learn that the farmers are getting anxious about their crops.

There is a boom in mining stocks and

Bathurst has gone wild over it this afternoon. Some not satisfied with silver are taking active steps to prospect for gold during the coming week. The redoubtable "Bill Gray" has in his possession some splendid specimens of gold-bearing quartz and he is to be employed as guide to the prospectors.

Schools opened on Monday last, but teachers complain of irregularity of attendance of pupils.

MORE ANON.

Aug. 26, 1881.

BURNT CHURCH NOTES.

It was wet the early part of the month; indeed up to the 24th. So much so that large quantities of the hay and oat crop is spoiled. The crops had not been so good in this Parish for many years before.

Francis H. McKnight, Esq., of New Jersey, lost a fine young horse 3 years old the other day.

Mr. Peter Morrison of Burnt Church lost 13 sheep one evening, lately, killed by "Indian dogs."

Mr. Louis Savoy so well known by every one down here is lying dangerously ill.

"Ladians" it appears is now the new name given to the French people by Mr. Snowball. Well, that serves Aluwick perhaps no more than right. Our County Councilor may look like this or that, but if he had as much traffic with the Indians, as the person in Chatham who wrote the letter sometimes has when he comes down here, he might perhaps look like one.

I am glad to see some correspondent pointing out the necessity of a preventive officer down here. One is needed, as there is a first rate chance to land smuggled goods here from St. Pierre or else where.

Yours,
B.

A Budget of News by Cable.

THE LONDON SEASON—A COWARDLY CROWD—ARTIC EXPLORATION,
—POLAR CONFERENCE—
TUNIS THREATENED—
THE FRENCH ELECTIONS—FATAL ACCIDENT,
ETC.

The London season is dead; society is on the Continent or in Scotland, and the society papers to fill up are chronicling the movements of Messrs. Irving and Toole, the actors; one large daily, despairing of keeping public interest in its columns, has sold the right to the Alexandra Palace Company of exhibiting the last letters received from its lately imprisoned correspondent at Merv. The Saturday Review devotes two columns of laudation of Sheriff Garrett, who shot "Billy the Kid," and thinks him exactly the man from county Galway. Commenting on the suggestion made by a New York paper that dynamite should be tried on O'Donovan Rossa, it says that "this suggestion has already been anticipated by a very factious school-boy in Great Britain."

A COWARDLY CROWD.

Much indignation has been expressed about the conduct of fifty strongly built and well dressed Englishmen who stood round the basin in Kensington Gardens deliberately watching a little girl four years old drown in two feet of water. The coroner said he was ashamed of their inhumanity and cowardice.

A PARISIAN SENSATION.

While London has been concerning itself with topics such as these it has provided Paris with a sensation. During the last few days, a blue coated, capless, yellow stockinged boy from the ancient institution of Christ's Hospital has been among the Parisians, to their intense wonderment. They crowd about the young relic of medieval fashion and follow him as though he was some newly caught monster, and question him as to his age, sex, and origin.

ARTIC EXPLORATION.

M. Siberiakoff has determined after all not to send the steamer A. E. Norkenskjold to the assistance of the Oscar Dickson and the Norland, frozen up last winter in the Gulf of Obi. He has been making arrangements for their relief at Obdorsk, on the river Obi, and has dispatched a large number of reindeer with the coal and oil required to enable the vessels to leave the gulf.

THE INTERNATIONAL POLAR CONFERENCE, which was opened a few days ago at St. Petersburg, is held for the purpose of settling arrangements for the expeditions about to be equipped, to investigate the magnetic and meteorologic conditions prevailing in the polar regions. Delegates of Denmark, Russia, France, Norway, Sweden, the Netherlands, and Austria took part in the opening discussion. America will erect stations at Point Barrow and in Lady Franklin Bay, Denmark in Upernivik, Russia at the mouth of the Lena and Nova Zembla, France at Cape Horn, Norway at Boeskoop, Sweden at Spitzbergen, and Austria on the island of Jan Mayen.

AN EXPLORER'S FUNERAL.

The body of Dr. Matteucci, the African traveller, was consigned to the grave at Bologna with every mark of respect, public and private. His friend, Lieutenant Massari, the companion of his arduous explorations, who had accompanied the body from London, was pre-

vented by fatigue and sorrow from being present. Among the pall-bearers were the representatives of the King, the Duke of Aosta, the Senate, and the municipality, besides various other personages of distinction.

GEOGRAPHICAL CONGRESS.

Major Serpa Pinto has accepted an invitation to take part in the approaching geographical congress at Venice.

ART AND LITERATURE.

Alfred Tennyson is working at another drama.

Miss Braddon is issuing a penny edition of Scott's novels condensed.

Christine Nilsson has been invited to Copenhagen to take part in the fetes attending the marriage of the Crown Prince of Sweden.

ROYAL BRIDAL FESTIVITIES.

Great preparations are being made at the duchy of Baden for the celebration of the silver wedding of the Duke and Duchess of Baden, and the marriage of the Princess Victoria. The proposition to form a new kingdom is received with favor. The health of the Empress is much ameliorated.

TUNIS THREATENED.

Great excitement prevails in the towns and villages in the vicinity of Sussa, owing to the proximity of the Arabs. Reports of pillaging have been received from the entire neighborhood. The Governor has prohibited armed Arabs from entering Sussa. Several thousand Arabs are reported within forty-five kilometres of Tunis, and others at ten kilometres from Hammamet, where the French detachment is encamped, which General Logeret has ordered to withdraw in the direction of Tunis. It is reported the French Minister has been summoned to Paris, to confer with the Government to concert measures for securing orders in Tunis. It is stated the tribes of men and villagers are planning an attack on Sussa. It is reported that the Tunisian insurgents who advanced upon Gabes have been defeated with heavy loss. A large number of Ali Ben Khalifa's followers have abandoned him after the battle.

The gates of Sussa have been shut, and the governor has armed the civilians and ordered them on guard for service on the walls.

Three French battalions have embarked at Toulon for Algiers with artillery.

THE FRENCH ELECTIONS.

The Committee appointed to enquire into the election at the 25th arrondissement of Paris, have announced that Gambetta was duly elected in the 1st or Belleville district, but failed to secure the necessary number of votes in the 2nd, consequently the Charronne election will have to be recontested.

The République Française, in an important article, declares that what France needs is not a programme, but a government and a policy. This would seem to indicate that M. Gambetta could and is prepared to give the country both.

FATAL ACCIDENT ON BOARD A SPANISH WAR VESSEL.

The Spanish squadron with the King and Queen on board the Sagunto, went last week for target practice to the entrance of Vigo bay. At half past three in the afternoon a muzzle-loading gun of sixteen centimetres calibre burst on board the Tornado. One man was killed and seven wounded, of whom two are not expected to live.

THE ST. GOTHARD TUNNEL.

The last granite ring in the treacherous part of the St. Gothard tunnel is completed. Rings previously made show no signs of yielding. It is hoped the difficulty which so sorely troubled the engineers has been overcome.

NEW FEATURES FROM AUSTRALIA.

(From the San Francisco Daily Examiner)

COLE'S CIRCUS.—The pavilion at the corner of Seventh and Market streets was filled to the limit of its seating capacity last night to witness the initial performance of this mammoth show.

The menagerie has been considerably enlarged since it left here on its tour around the world, by the addition of some of the wonderful birds and animals of the antipodes, and includes a white buffalo from India, the Maori war dances, Arabian athletes, kangaroos, ostriches, and other Australian curiosities. The grand entree with its camels, elephants, ladies, knights in armor, and electric light shining on the spangles and the brilliant accoutrements, was a sight which brought forth applause from the audience. The wonderful performance which George Conkling puts his trained elephants through, was well done. The act consisting of running a bicycle on a wire suspending across the dome of the circus, caused a thrill to run through the spectators, and was performed by John Murtz, George Dunbar and Adelaide d'Attalie. The batouite leaping by the corps of athletes showed to what perfection human muscle can be brought by training, several of the members doing a double somersault in masterly style. William Organ then introduced his "trick horses" Humboldt and Illudoo, the former doing some wonderful jumping. The equestrian acts of Wooda Cook and Mile Adalafes were well executed. It is a notable fact that none but bare-back riders are engaged, and these are champions of their calling. W. O'Dale Stevens, with his dancing globes and electric table seemed to meet with the approbation of the audience. Miss Linda Jeal did a daring bare back hurdle, act leaping with her horse Salamander through great circles of fire. The troupe of six trained stallions made their bow to the audience next, and were put through

their part of the performance by William Organ, which includes waltzing on their legs, setting down on chairs and other difficult and ingenious tricks. Taken together, the circus is the most meritorious one that has been here for a good many years. The acrobats and riders are excellent, the animals well trained and the clowns have picked up some new jokes during their travels in foreign lands. It should be remembered that this mammoth and mighty exhibition is to give performances in Chatham, Tuesday, 20th Sept.—Adv.

BRILLIANT LIGHT!

GREAT ECONOMY

A GAS Light in Front of Any Man's House.

The Dominion Lighting Company, Manufacturers and Proprietors of the VAPOR GAS LIGHT, Contractors for lighting streets &c. Plain and Ornamental Lanterns and Posts. A full sized Gas Jet for less than 1c. an hour.

This Company beg leave to call the attention of Cities and Towns wanting a Superior Street Light, also for use in front of public buildings, hotels, and about private grounds etc., etc. Each lamp is independent, produces its own Gas, and is applicable to any place. It burns much like Coal Gas, without wicks or chimneys, and emits neither odor nor smoke, the jet or flame is the same shade, and is not distinguishable from Coal Gas, and is thoroughly reliable in every way.

Portions of St. John, and the whole of the Town of Portland, are lighted with our Vapor Gas, giving entire satisfaction. Correspondence solicited.

HUGH P. MARQUIS, Agent for Chatham. Aug. 17, '81—tf.

NOTICE TO CONTRACTORS

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for St. Andrew's Beacon," will be received until THURSDAY, the 1st September next, in the harbor of St. Andrews, N. B. according to a plan and specification to be seen on application to the Collector of Customs, St. Andrews, and from whom printed forms of tender can be obtained.

Persons tendering are notified that Tenders will not be considered unless made on the printed forms supplied, the blanks properly filled in, and signed with their actual signature.

Each tender must be accompanied by an accepted bank cheque, made payable to the order of the Honorable the Minister of Public Works, equal to five per cent of the amount of the tender which will be forfeited if the party declines to enter into a contract when called on to do so, or if failure to complete the work contracted for shall ensue. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

F. H. ENNIS, Secretary.

Department of Public Works, Ottawa, 1st August, 1881. aug1td
