WILMOT GUIOU.

Nov. 5, 1868.

GENERAL NEWS.

Annapolis sends 3,000 barrels of
apples to the States. An item for our
farmers.

A young woman in Ottawa, last
week, tired of her life, stood in front of
a full speed locomotive. She had her
wish.

A LUCKY SLIP.—A man while walk-
ing in the woods near Lynn, Mass.,
recently slipped into a hole, from which
he took out, after considerable hard
work, a tin box containing about one
hundred Portuguese silver coins. Some
of the dates are very old. It is sup-
posed that they were buried in early
times by Portuguese pirates.

The Eddystone Lighthouse is situated
on the Eddystone rocks in the English
Channel. The first lighthouse was
built in 1696 and stood until November,
1703. W. Winstanley, the architect,
with a party of workmen, went to it to
make some repairs. A terrible storm
arose on the night of the 26th and not a
trace of the lighthouse or its inmates
was ever seen afterward.

YARMOUTH, Nov. 6.—Willie Perry
aged about sixteen, was kidnapped
from the residence of his adopted
father, Mr. Freeman Dennis, on Sun-
day night, by three villains, chained and
carried a few miles into the woods and
secured. After enduring the rigors of
the severe weather of the past few days
he succeeded in extricating himself and
got home this afternoon. There is no
little excitement in town over the
matter.

Alexander, Emperor of Russia, takes,
in early morning, a cup of coffee and a
biscuit, and then a walk. He can't
drink tea because his nerves are shat-
tered by his persistent attention to the
government of his country. At 12 he
takes luncheon—a simple one, as he is
not able to eat rich food. Then he
walks or rides, and then goes to his
study. He dines at 5 or half-past, and
after several hours of work retires at
midnight, sometimes concluding his
labors with one round of whist.

GREATEST SHOW ON EARTH.—The
greatest show in Europe is a caravan of
Nubians, conducted by Hagenbeck, an
enterprising dealer in wild animals,
who has furnished the most interesting
specimens to the various zoological
gardens. He is king in his trade, hav-
ing agents and experienced hunters in
all parts of the world to buy or track
wild and curious animals. The caravan,
consisting of sixteen men, one woman,
and a number of small elephants, rhino
ceroses, giraffes, ostriches, etc., has
created a sensation in the German
capital. The show will soon be in
Paris.

Lord Lytton, Governor-General of
India, is said to be far less careful of
the pomp of office than were his pre-
decessors. His manners are so easy and
cordial that the native princes can
hardly understand him. On one occa-
sion, says a French observer, Lord
Lytton learned that the Prince who
was visiting him was the author of
several poetical works, and in his
poetical ardor he told the interpreter to
inform the Prince how happy he was
to make the acquaintance of a brother
poet, while on another occasion a Hin-
doo prince, remarkable for his beauty,
having offered him a beautiful work of
Lord Lytton told him that he was de-
lighted with his present, but that the
work he admired most was the prince
himself.

The Aquarium is again opened, after
a brief suspension of performances,
with new attractions. Evolutions
pleasant to look upon and tricks sug-
gesting painstaking drill are performed
by Mons. Oscar's troupe of American
thoroughbred horses. An excellent
double-trapeze act is done by Miss
Geraldine and Mons. Leopold, after
which is introduced the sensation of
the performance—the shooting of the
young woman out of a cannon's mouth.
Thus is given a literal exemplification
of what it is to be "fired out." The
cannon seems to be made of wood and
is mounted after the manner of a mor-
tar. It stands at the front of the stage,
pointing at an angle of about thirty-five
or forty degrees, between the upturned
faces of the spectators and the rafters
overhead.

At the close of her trapeze act Miss
Geraldine comes down the rope head-
foremost by twining one leg around it
and with her disengaged toe describing
an Archimedian spiral. She is then
assisted to the raised muzzle of the
cannon, into the bore of which she
slips feet first, lying on her back. Her
head and neck are just visible when the
gun is charged. Then she gives the
word, the report of the cannon is heard,
and she flies toward the spectators,
going some twenty-five or thirty feet in
a straight line before she drops to the
net spread to catch her. When she
again steps upon the stage and smiles
her acknowledgment of the applause,
her bright garments are not at all
blackened by powder—a fact which is
doubtless due to the interior mechanism
of the cannon. This act and the per-
formance by the trained horses are to
be the attractions of the Aquarium for
a season.—New York Sun.
