HORRIBLE AGONY.

Suffered by Mr. Thomas Harrison of St. Mary's, N. B.

Stone in the Bladder Brought Him to the Point of Death—Dodd's Kidney Pills Cured Him After All Else had Failed.

FREDERICTON, N. B., May 15.—All residents of the village of St. Mary's, a suburb of this city, will remember the recent narrow escape of Mr. Thomas Harrison, who was so seriously ill with Stone in the Bladder.

It will be remembered that Mr. Harrison had become so ill that many of his friends thought he could never recover. All medical treatment failed to relieve him; his urine was thick and bloody, and his chances seemed gone.

At this period Mr. Harrison was persuaded to give Dodd's Kidney Pills a trial.

He had no faith in them, nor hope that they would afford him either relief or cure, but he nevertheless agreed to give them a trial.

After having used one box he passed a large stone that had formed in his bladder as a result of defective kidney action.

All the pain vanished with the passing of this stone. He "mended" rapidly, gaining health, strength and flesh, rapidly.

Mr. Harrison continued the use of Dodd's Kidney Pills for a time, till his kidneys were perfectly restored and all danger of another stone forming had passed.

To-day he is strong and healthy, and no man in Canada is louder in praise of Dodd's Kidney Pills.

Dodd's Kidney Pills have had the same result in every case of Kidney Disease for which they have ever been used. They have always cured.

Victims of Kidney Disease—in any form—may be absolutely certain of a thorough and permanent cure, if they use Dodd's Kidney Pills.

University of New Brunswick.

FREDERICTON, N. B., May 1st, 1889.

DEAR SIR: The members of the class of 1900 who will graduate on the hundredth anniversary of the founding of the University, desire to celebrate the occasion by doing something towards a distinct advancement in its work and influence.

The most pressing need of the University at the present time is a new building for the department of Physics and Civil and Electrical Engineering. The increase of students in these departments makes such a building an absolute necessity. Plans have been prepared for a suitable building, the cost of which is \$20,000.

Feeling that the erection of such a building would be the most fitting method of celebrating the University Centennial, the class of 1900 has decided to appeal for assistance to the graduates and friends of the University. We intend to raise \$10,000 by a loan, and the remainder by direct contributions; and we ask your assistance either in the form of an annual or direct subscription. The members of the class of 1900 have already subscribed \$500 towards the Building Fund, to be paid six years after graduation.

We ask your careful consideration of our request; if you decide favorably, contributions should be sent to W. H. Harrison, Secretary of the Class, at the University. The accompanying circular contains further information as to the details of the building and the work of the University in the Engineering Departments.

We remain,
Yours very truly,
Committee on behalf of the Class.
W. H. CLAWSON, Pres.
A. H. MCKEE,
G. F. McNALLY,
W. J. R. WILSON,
W. H. HARRISON, Sec.

The following statement concerning the present courses in the University will show the need of greater accommodations.

The University has now a Civil and an Electrical Engineering Course. The present draughting room is overcrowded with the seventeen students now taking the Civil Engineering Course. Only one student graduates this year, and many applications have already been received from students who are intending to enter. Under the present circumstances it will be impossible to accommodate this increased number. The lecture room connected with the Course is also too small, and there is no room whatever for a Museum in which to keep models of apparatus, illustrating sanitary and railway work. The lecture rooms of the Art Professors take up all the remaining space in the present building; indeed for the Professor of Literature there is no regular lecture room. The Physics Laboratory is small, and situated as it is, in the Upper part of the building, is unfitted as a room in which to conduct delicate experiments. In the Electrical Engineering Course rooms are badly needed to accommodate the apparatus of the Department, especially the heavier machinery such as dynamo, recently presented by the Canadian General Electric Company. Engines to work the machinery cannot at present be purchased as there is no place in which to set them up. The cement tester being purchased by former graduates for the Engineering Department, will, with the apparatus connected with it, require a small Laboratory also.

The accommodations required can be given only by constructing a new building. The University has not a cent of debt, and there is every prospect of a steady advance, especially in connection with technical work. Circumstances require and justify the construction of a

new building before 1900.

The building will be substantially constructed of Stone. It will be about 90x55 feet; the roof and inside framing will be of steel. The dynamo will supply a current for electrical work, and for lighting both buildings. On the first floor will be a Cement Testing Room, Civil Engineering Library, Reading Rooms and Physical Laboratory. The second floor will contain a large, well lighted Draughting Room, Instrument Rooms and Museum. In the basement the engines, dynamo and heavier machinery will be fitted up. By the construction of such a building, not only will there be room for the courses mentioned, but in the old building much needed room will be available for the Arts Course.

The estimated cost of the building is \$20,000. It will be situated on the University grounds below the Gymnasium, where connection can be made with the city water supply. The building will probably be started in June, and ready for students about Christmas, 1899.

COOK'S ANODYNE LINIMENT.

G. D., S. of T.

MONCTON, May 10.—The Grand Division of the Sons of Temperance met here today in semi-annual session. The attendance is good.

Major Armstrong, grand scribe, submitted his report for the past six months. Never Despair division, No. 46, had been organized at Wolford; and Frances Wilford, No. 373, at Sussex; and Crystal Stream, No. 191, at Salisbury, re-constituted. Following is the G. S.'s statistical statement:

	To Dec. 31, 1898.	To Mar. 31, 1899.
Initiated.....	264	274
Joined by card.....	2	4
Reinstated.....	2	..
Withdrawn.....	35	35
Suspended.....	127	99
Expelled for violation of pledge.....	2	6
Expelled for other causes.....	5	7
Deaths.....	3	3
No. divisions reporting	46	37
No. of members.....	3440	..
No. of divisions.....	37	..

The grand worthy patriarch, Rev. Jas. Crisp, in the course of his report had this to say:

"Our members are not only a law abiding people, but they desire that all persons should abide by and keep the laws of the land. My observation and experience have led me to the conclusion that in the adoption and enforcement of the Scott Act in various localities our order has taken a significant and very important part. My close and intimate relation to our order has led me to see that during the late plebiscite campaign much organizing was done, many addresses were delivered and very effective work was done by the Sons of Temperance. We understand and appreciate the value of the vote that was obtained as a result of the effort that was put forth. Although the stir caused by taking the vote a few months ago has been succeeded by a lull, yet the order stands ready for any good work in days to come.

"Progression, advancement, improvement, proficiency, these are the things on which we delight to think and speak, and these are the things upon which we must be united. In fighting the great battle of prohibition in the future we may be called upon to fight on very different lines from any upon which we have fought in the past. This seeming lull may be the stillness before the storm—a stillness that may be felt before the coming of a storm which shall shake the political earth upon which many of our representatives stand, and purify the moral atmosphere in which many of our politicians live. Here I would remind you of the great dissatisfaction and grave disappointment which have come to those who have taken a leading part in the counsels of our order.

"To obtain oneness of aim, we have as a body or organization in New Brunswick followed the lead of the Dominion Alliance. This has been good up to a certain point. Has it not given us room for grave doubt as to the propriety of following it any further? We have no right to be a party to suggest to the government anything short of prohibition. Sometime before this session is over resolutions will be introduced and a line of action marked out. Although we all hope for a better outlook on the temperance question we must realize that there never was greater need of vigilance and firmness."

The report of the treasurer, Thomas H. Lawson, showed a balance on hand on Oct. 26, 1898, of \$109.85; the receipts since that date were \$335.44; total receipts, \$445.29; paid out, \$396.54; balance on hand, \$48.75.

The grand scribe's report showed a small falling off in membership. The afternoon was taken up with reports and the business of the session will be concluded tomorrow morning, when a presentation will be made on the question of prohibition.

A public meeting was held in the Central Methodist church this evening. E. M. McCarthy presided and speeches were made by Rev. Jas. W. Crisp, G. W. P.; J. R. Woodburn, P. G. W. P.; Rev. G. W. Fisher, M. W. C.; and Major A. J. Armstrong, G. S. The dominion government's attitude in regard to prohibition was touched upon by the speakers and Mr. Woodburn aroused the ire of J. T. Hawke of the Transcript to such an extent by showing up the alleged fraudulent voting on the plebiscite in Quebec, that the chairman had to interfere and order Hawke to subside, much to the latter's discomfort and to the enjoyment of the audience.

Cook's Penetrating Plasters.

Success Must Follow

THE FAIR USE OF DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE.

That is the Experience of Mrs. Sydney Druce, of Deseronto, Who Had Suffered for Many Years with Rheumatism and Catarrh of the Bowels.

From the Tribune, Deseronto.

Our attention was lately directed to the wonderful cure effected upon a resident of Deseronto, which illustrates in a very marked way the merits of that widely known health restorer "Dr. Williams' Pink Pills." We refer to the cure of Mrs. Druce, wife of Sydney Druce, caretaker of the High School building. Being desirous of giving our readers the facts, a reporter of the Tribune called at Mrs. Druce's residence, and is therefore enabled to present our readers with the following facts, which can be vouched for by many neighbors and friends of the family. Mrs. Druce had from the early age of ten years been a sufferer from rheumatism and had endured an untold amount of suffering from this dire disease. She had tried scores of different medicines to dispel the malady but in vain. Doctors told her it was impossible to eradicate the disease from her system and she had at last become resigned to the belief that rheumatism was incurable. In addition to rheumatism, about seven years ago she began to suffer catarrh of the bowels with its attendant headaches and depression of spirits. The pain of the rheumatism and constant headaches wore her out. The doctors prescribed opiates which only dulled the pain, but did not repel the disease. The two diseases continued to make steady headway and at times she felt such pain that she could not even allow her husband to raise or move her. The neighbors thought she would never get up again. All kinds of remedies were suggested and many of them tried, but all in vain. Providentially, as Mrs. Druce expressed it, the use of Dr. Williams' Pink Pills was mentioned. It was not until the end of the second box that she realized any benefit. She then began to realize that she was regaining strength. Before she mentioned this to others her husband also observed the change, for he remarked one day "those pills are doing you some good, you look livelier than you have for some time."

She continued the use of Dr. Williams' Pink Pills until she had taken fourteen boxes, with the gratifying and almost remarkable results that she was completely cured of the rheumatism and catarrh, not a solitary symptom of either trouble remaining. Mr. Druce was present during the interview and confirmed, all that his wife had said and was as delighted as she in praising the virtues of Dr. Williams' Pink Pills. Mrs. Druce said that out of gratitude for this wonderful restoration to health she had told scores of other sufferers from different diseases of the virtues of the medicine which had been the undoubted means of prolonging her life. She hoped that others would follow her plan of giving the pills a fair and prolonged trial as she was confident that in the end success would surely follow as in her own case.

Three Men Dead.

OKOLANA, Miss., May 9.—Dr. Wm. Murphy became involved in a dispute to-night with Charles D. Clarke over a bill which Dr. Murphy claimed Clarke owed him. A fight was precipitated and Clarke, with a knife, slashed Dr. Murphy and cut his jugular vein. Howard Murphy, son of the physician, then shot Clarke dead. Walter Clarke, brother of Charles D. Clarke, and Howard Murphy then began a duel to settle the matter. Pistols were used, the men fought viciously and both were killed.

More Mob Violence.

LEBANON, Tenn., May 10.—A mob of fifty masked men terrorized this place yesterday. First the jail was visited, and Ewing Hodge, who is charged with attempting to murder a white woman, was demanded. Being assured by a search of the jail that Hodge had been spirited away to safety, the members turned their attention to the city workhouse. There Bill Dibble and Leslie Hudgins, two negroes charged with attempting to force themselves into Mrs. Mace's house were confined, and they were soon in the mob's hands. Officers attempted to interfere and in the mixup Hudgins escaped. Then Dibble was hustled into a wagon and started to the country. Nothing further is definitely known, but it is rumored that the negro escaped with a severe beating.

Volcanic Eruptions

Are grand, but skin eruptions rob life of joy. Bucklen's Arnica Salve cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chillsains. Best Pile Cure on earth.
