MRS. HATTIE MORRIS

Got New Life From Dodd's Kidney Pills.

She was Totally Run Down in Health—A Continual Sufferer Whom no Medicine Helped Till She Took Dodd's Kidney Pills and was Cured.

BURT'S CORNERS, N. B. April 17.—The women of Canada are the strongest believers in Dodd's Kidney Pills because they are in closer contact with sickness than men are, and know better what remedies produce the best results in the sickness of their friends.

Women are more subject to disease than men, though they complain less. Therefore, they know more than men do, about all the virtues of the many remedies on the market.

It is perfectly safe to take the opinion and advice of a lady on this matter. Take Mrs. Hattie M. Morris, of this place, for instance. She is an earnest advocate of the use of Dodd's Kidney Pills in all cases of "worn-out constitution," thin, weak, watery blood, and similar complaints. And her reason for this is that a year ago last spring, she was "completely run down," to use her own expression. The usual indications of defective Kidney action were noticeable.

Mrs. Morris became dull and low spirited, lost all interest in her work, and, in short, became a striking example of what deadly injury any defect in the Kidneys will cause.

She was advised to use Dodd's Kidney Pills for her trouble, and, although she says she had little or no faith in them, she began to take them. Three boxes cured her, made her a girl again, gave clearness to her complexion, brightness to her eyes, and springiness to her step. Dodd's Kidney Pills are a sure cure for all kinds of Female Troubles.

They are sold by all druggists at fifty cents a box, six boxes \$2.50, or sent on receipt of price by The Dodds Medicine Co., Limited, Toronto, Ont.

Chipman.

April 8.—An enthusiastic meeting was recently held at Kings Hall, for the purpose of discussing the advisability of erecting a cheese factory in this section. The meeting was unanimously in favor of a cheese factory and an estimate made of 470 cows being now kept affords a good prospect of getting an abundant supply of milk in case a factory would be built.

The number of cows could easily be increased to five or six hundred and the consensus of opinion among the farmers that they could supply enough milk for both butter and cheese factory if proper encouragement were held out to them.

Through the courtesy of the Secretary, G. H. King, who took down the minutes, we learn: The meeting was called to order at 7 p. m. Richard Hetherington was nominated chairman. Robert Ward was the first speaker of the evening and explained why the meeting was called. Dr. Nugent was called and gave a very interesting and instructive speech.

On motion resolved. Robt. Ward, Dr. Hay and Richard Hetherington were appointed a committee to procure all the necessary information in regard to the erecting and running a cheese factory, to be established at Chipman, and to call another meeting of the farmers at such date as they saw necessary, to fully lay the matter before the farmers and those interested.

On a vote being taken every farmer present expressed himself in favor of a cheese factory established at Chipman.

Motion to adjourn.
"Briggs Corner Public Hall Company" was duly organized on the 5th inst., with a membership of 19, citizens to commence business. The officers elected for the ensuing year consists of E. D. Chase, President; J. G. Nugent, M. D., Secretary; Treasurer; and a prominent board of directors, Christopher J. Wilson, James K. Lackey and George S. Chase Esq., in addition to the president and secretary.

In a brief space of time 43 shares were taken up and stock amounting to \$215.00 was subscribed towards the erection of a public hall at Briggs Corner. The directors with the consent of the meeting have decided to build a commodious hall 50 feet long by 26 feet wide and 19 feet high on a very slightly locality on Webbers hill. The past two days men and teams have been at work hauling and getting ready the frame and next week will see the frame up and boarded in, if the weather permits and the men are not called away steam driving, which is almost daily expected. As this is the only "Public Hall" in all this section of country abounding in halls and also the only incorporated one, the people ought to patronize it well and subscribe liberally towards making it an ornament in the community.

The two or three game wardens lately sworn in have entered upon their duties by taking incursions through the forests for the better protection of wild animals mercilessly slain by unlawful hunters; but as yet they have not succeeded, if they

have at all endeavoured to get upon the trail of those parties who are said to have slaughtered half a dozen deer, chased by dogs in the deep snow back of Mr. John Dohaneys's a fortnight ago.

The Presbyterians gave a lumberman's supper in King's Hall which was well patronized and yielded \$40 which goes towards the new church they are building and they also held a concert on behalf of foreign missions, which was also a financial success.

Mr. J. K. Scammell, government surveyor has a party employed in taking soundings in Salmon River in order to ascertain where dredging may be required. He commenced at King's bridge and is working down river, as he had no instruction to ascertain the condition of the river between Chipman and Briggs Corner where dredging is required; but this is not Mr. Scammell's fault.

Mr. John Fraser, who was hurt in the woods last winter, got pretty well of the injury; but was seized with the grip later on and this developed into pneumonia which led to his death this week; deeply regretted by all and a large concourse followed his remains to Red Bank cemetery last Thursday where the funeral obsequies were performed by the Rev. D. McD. Clarke.

John McAlister a young man of 17, son of David McAlister, also died from pneumonia and his remains laid in Red Bank cemetery on Friday.

The sick at Salmon Creek are on the amend and the schools are all in operation.

Spring is here and signs of stream driving are forthcoming at last.

Mr. Wannamaker's Advice.

Tomkins. "Good morning, Mr. Wannamaker, I have called to see if you can give me a position in your establishment. I can turn my hand to almost anything."

Mr. W. "No, we are full in every department, and you are the twentieth man I have refused today. Why don't you take up a line in which there is less competition and better pay?"

Tomkins. "I'd only be too thankful if you can put me on track of such a position."

Mr. W. "When I was 20 years of age, I was a stranger in a strange land, with neither work nor money, when a friend of mine, a lawyer, advised me to take a book agency saying he had educated himself by canvassing; like drawing men grasp at straws, I took his advice and in 5 years saved \$5,000, and with a sum started my present business. In just 50 years ago today that Mr. Bradley, the founder of the present firm of The Bradley-Garretson Company, Limited of Toronto, sent me my first book prospectus, and to his beautiful letters and good advice, I owe much of my present success. Yes, young man, if you have anything in you, there is just as good a chance for you today with this old established House as there was for me. Write them and see what they have to offer."

Tomkins. "I have seen the advertisements of this firm, for agents, for years back, and have often thought of writing them, but have never done so. I will write today; and I am very thankful to you, Mr. Wannamaker, for your good advice."

Oromucto.

April 17.—The ice in the Oromucto Creek started yesterday and the channel of the main river is open as far down as the Riverside Hotel landing, this looks as if the river would be free of ice by next Sunday.

Mr. Calvin Cogswell, who has been ill for the past two weeks, still continues very weak. He is being well cared for at the Riverside Hotel.

Mrs. T. J. McElroy has been very ill with congestion of the lungs, but is somewhat improved today.

The Indians have returned to us, bringing, if possible, more worthless cures than they took away. These dogs are a source of great annoyance to the whole neighborhood during the time the Indians are camped here.

Mr. J. W. Currier is giving his steam launch a new coat of paint, which improves its appearance very much.

Runners have given place to wheels on the roads.

COLD WEATHER.—The past week has been very cold for April weather and the water in the river has kept about stationary. The ice in the Creek is quite bad and a days warm sun would no doubt break it up. The ice up river is reported to be good yet.

Better than the Klondike.

No one who has a bad cough, which has racked their system, and bids fair to hold on through the entire winter, with all its misery and suffering should begrudge 25 cents to have certain relief. That is just what a bottle of Dr. Cook's old time English remedy, Cook's Sure Cough Cure, will do. Sold by all Dealers.

FOUR PERISHED.—The Alms House at Chatham, Northumberland Co., was burned on Saturday night at an early hour. Four of the inmates perished in the flames.

How to Dress Well.

By Using the Never Failing Diamond Dyes Any Woman Can have two or more Dresses of the Newest Colors at Trifling Cost.

Women who desire to dress neatly and well find the Diamond Dyes to be their best and truest helpers. One or two packages (according to weight of dress) will recreate any faded or discolored dress or skirt that has been cast aside as useless, and the cost will not exceed 10 or 20 cents.

Instead of having to depend upon one dress for street and church wear, any thrifty and handy woman with the help of Diamond Dyes can have two or more dresses in stylish colors always ready for service.

Do not risk your dresses with imitation or adulterated dyes; see that your dealer gives you the Diamond Dyes when you ask for them.

Did She Kill Her Father.

NEW YORK, April 14.—Suspected of having murdered her aged father by battering in his skull with an axe, Mrs. Dora Jeffries is locked up to-day at the Liberty avenue police station, Brooklyn. It required the combined efforts of four policemen to place her in the patrol wagon and take her to the station. She and her father, Thomas Hannon, lived on Atlantic avenue, and it was there he was assaulted. He died at St. Marys hospital shortly after midnight. Late yesterday afternoon Mrs. Jeffries ran into a barber shop near by and cried out that something was the matter with her father. A policeman was summoned and an examination was made. He was lying across the bed, the whole left side of his head crushed in. The bed was saturated with blood, and lying beside the wounded man was an axe covered with blood and hair. There were the marks of several distinct blows in the man's skull. He was very nearly dead when Policeman Carroll went up to him.

Mrs. Jeffries was extremely nervous about the entire matter. All that could be elicited from her was that there were no one in their rooms all day except herself and her father, and that he must have inflicted the injuries upon himself. She also said in her excitement that her father must have fallen. Finally the officer placed the woman under arrest. She became infuriated and struck the policeman squarely in the face, then she screamed and struggled and fought and it required the efforts of four officers to subdue her.

Hannon died at the hospital without regaining consciousness. Mrs. Jeffries raved and fought at the station, and screamed hysterically that she could not tell how her father had been killed if she were to be put into the electric chair for it.

Mrs. Jeffries is twenty-six years old, and her father was sixty.

COOK'S ANODYNE LINIMENT.

Cole's Island.

The roads are in a very bad condition for horses to travel on as the frost is coming out.

Alfred West has just arrived home from New York and is now repairing the inside of his shop. Mr. Elias Cole is doing the carpenter work.

Alfred Perry has left for New York.

Mr. and Mrs. Alfred Cole have gone to Boston for the summer. Mr. and Mrs. Eldon Wright will occupy their house.

Miss Minnie Fowlie, of Keirstead Mountain, was the guest of Mrs. John W. Perry.

James Vincent has done a big winter's work. He has cut and hauled 95 cords of cordwood.

Bliss Vincent has started for New Hampshire on a visit to his friends.

David Hugh's house caught on fire and would have been burned had not Messrs. George and Fred Elliott and H. Edwards got there and put it out in time.

Mark Cole has left for Sussex where he will spend the summer.

Mr. McLean, of Shannon Settlement, passed through here on his way to Coal Creek.

Mrs. W. H. Green who has been sick with lagrippe is improving.

Mrs. Caleb Lewis has been quite sick with lagrippe.

White's Cove.

April 17.—Frank McDermott who has been poorly so long died on Saturday, he was about 65 years of age. He will be buried at the Den Cemetery to-day.

Mr. and Mrs. James Stephens are both very sick. Dr. Earle is attending them. John Orchard who has been laid up with lagrippe is slowly recovering.
