Agent for Pelee Island Wine, Teas, &c

**Nerve Energy and Eye Glasses**

The constant dropping of water will wear a hole.

A slight eye strain impairs the health, because it is constant.

The strain which first manifests itself as a slight discomfort should be promptly remedied by the use of glasses.

THIS IS THE ONLY CURE.

**TIRED AND LANGUID**

THE EXPERIENCE OF AN ESTIMABLE YOUNG LADY.

Her Blood was Poor and Watery—Suffered from Sick Headaches and Fainting Spells—How She Regained Health's Bloom.

The Recorder, Brockville.

On one of the finest farms in Wolford township, Grenville county, resides Mr. and Mrs. Alonzo Smith and family. Mr. Smith is perhaps one of the best known men in the county, as in addition to being a practical farmer he represents several agricultural implement companies. His family consists of two estimable daughters, the eldest being seventeen years of age. To a correspondent of the Brockville Recorder who recently called at Mr. Smith's, Miss Minnie E. Smith, the eldest daughter related the following story:—"About two years ago I was taken quite ill. I became pale and languid, and if I undertook to do any work about the house, would easily become terribly fatigued. I became subjected to terrible sick headaches, and my stomach became so weak that I loathed food. My trouble was further aggravated by weak spells, and my feet, winter or summer, were as cold as ice; in fact it seemed as if there was no feeling in them. I tried several kinds of medicine, but instead of helping me I was growing weaker. One day in March, 1898, my father brought home a box of Dr. Williams' Pink Pills. I immediately discontinued the other medicine and began taking the pills. I found that they helped me and four more boxes were procured and by the time I had finished them I was entirely well. I have never had better health in my life than I am now enjoying. My appetite is now always good, and I have increased in weight. All that is due to the efficacy of Dr. Williams' Pink Pills, and I would advise any other young girl troubled as I was to use them, and they will certainly cure if the directions are followed."

The facts above related are important to parents, as there are many young girls just budding into womanhood whose condition is, to say the least, more critical than their parents imagine. Their condition is hale and waxy in appearance, troubled with heart palpitation, headaches, shortness of breath on the slightest exercise, faintness and other distressing symptoms which invariably lead to a premature grave unless prompt steps are taken to bring about a natural condition of health. In this emergency no remedy yet discovered can supply the place of Dr. Williams' Pink Pills, which build anew the blood, strengthen the nerves and restore the glow of health to pale and sallow cheeks. They are certain cure for all troubles peculiar to the female system, young or old, these Pills also cure such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus dance, nervous headache, nervous prostration, the after effects of la grippe, influenza, and severe colds, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Do not be persuaded to accept any imitation, no matter what the dealer may say who offers it. Imitations never cured any one. See that the full name Dr. Williams' Pink Pills for Pale people is on the wrapper around every box you buy.

**ST. JOHN LETTER.**  
The life of Thackeray, though crowned with what we call success, was not a happy one. His patrimony of several thousand pounds was swallowed up soon after he came of age in unfortunate ventures for which his supposed friends were more responsible than himself; his marriage resulted in disaster, and before he became famous much that is now considered a part of his best work, was sold to the publishers for a pittance because they knew he needed the pittance, and therefore would pay him no more. It is no wonder that he grew cynical, and was cynical to the end. Honored and respected as he was in the later years of his life, he was never able to shake off the idea that the world was full of hollowness and pretence. There is something very pathetic in the closing paragraph of a letter that he wrote near the end of his life, which is reproduced by his daughter, Mrs. Ritchie, in a recent edition of his works:—"One paces up and down the shore yet awhile—and looks toward the unknown ocean, and thinks of the traveller whose boat sailed yesterday. Those we love can but walk down to the pier with us—the voyage we must make alone. Except for the young or very happy I can't say I am sorry for any one who dies."

Another bronze and iron fountain is being erected at Ferhill, the gift of Collector Ruel, president of the Cemetery Co.

It is said that Rhoads, Curry & Co., of Amherst, will build the sheds and elevator for the I. C. R. in this city.

A large sea dog was captured in the harbor a few days ago.

The civic elections of last Tuesday were not exciting. Mayor Sears, who was re-elected, was not in the least disturbed by

his petty opposition.

Six ocean steamers are in port.

In a fight between some city toughs the other night one of the crowd was stabbed six times. Several arrests have been made.

The 5th of May has been set apart as arbor day in the city, but it is doubtful if its observance will consist of anything more than the closing of the schools.

It is said that another St. John man has drawn a prize of \$8,000 in the Honduras lottery.

Granulated and yellow sugars are 5 cents per 100 pounds lower than they were last week, but prices are very firm.

Roller oatmeal has advanced 10 cents per barrel and pork has declined 25 cents per barrel.

Choice P. R. molasses is quoted at 32 cents and extra choice at 33 cents; new Barbados sells at 30 cents.

Coarse salt is 48 cents and fine \$1.10 per bag. Codfish, large and medium is firm at \$4 and pollock at \$2.25 per 100 pounds.

Of pickled fish there is none in the market. Eggs are becoming plentiful at 12 cents and choice butter is in fair demand at 16 cents.

George S. deForest & Sons received another direct shipment of Havana cigars last week, consisting of about twenty approved brands.

Three brothers named Lowry died at South Bay recently within a few days of each other. Their sister died last Thursday.

The sum of \$400 was realized at a performance in the Mechanics' Institute last Thursday evening, for the benefit of the children of Conductor Cassidy. The world is not utterly bad.

EDWARD EDWARDS.

St. John, April 22.

**Mr. Wannamaker's Advice.**

Tomkins. "Good morning, Mr. Wannamaker, I have called to see if you can give me a position in your establishment. I can turn my hand to almost anything."

Mr. W. "No, we are full in every department, and you are the twentieth man I have refused today. Why don't you take up a line in which there is less competition and better pay?"

Tomkins. "I'd only be too thankful if you can put me on track of such a position."

Mr. W. "When I was 20 years of age, I was a stranger in a strange land, with neither work nor money, when a friend of mine, a lawyer, advised me to take a book agency saying he had educated himself by canvassing; like drowning men grasp at straws, I took his advice, and in 5 years saved \$5,000, and with this sum started my present business. It is just 50 years ago today that Mr. Bradley, the founder of the present Firm of The Bradley-Garretson Company, Limited of Toronto, sent me my first book prospectus, and to his beautiful letters and good advice, I owe much of my present success. Yes, young man, if you have anything in you, there is just as good a chance for you today with this old established House as there was for me. Write them and see what they have to offer."

Tomkins. "I have seen the advertisements of this firm, for agents, for writers back, and have often thought of writing them, but have never done so. I will write today; and I am very thankful to you, Mr. Wannamaker, for your good advice."

**Chipman.**  
April 22.—The farmers of this section held another successful meeting last week in King's Hall, in reference to building a cheese factory.

The meeting was addressed by Mr. John Slipp, of Sussex, who gave much valuable information respecting the manufacture of cheese. He showed by facts and figures that it paid the farmers better to convert the milk into cheese and sell for cash at wholesale than it did to manufacture it into butter and barter it away for goods to country merchants at a low figure. At the close of the meeting a local company was formed with sufficient capital to erect a commodious building and procure the necessary plant for running a cheese factory. The company has already commenced building. The frame is up and boarded in and they expect to have the factory ready for business by the first of June.

The work on the Public Hall at Brigg's Corner is progressing finely under the supervision of Capt. Chase and other directors of the company. The building is double boarded and today the workmen will finish shingling the roof. The doors and windows are now being made in St. John, and in a short time the hall will be sufficiently advanced to hold public meetings during the summer months.

It is reported on what seems good authority that work on the Central Railway from Chipman to Fredericton will be commenced next Spring or early in the summer.

In making this connection the Central will have as feeders the Canada Eastern, the C. P. R. and the Woodstock branch which will greatly increase traffic along this section and we can supply all the railroads in N. B. with an abundance of coal in return.

Mr. William Morrison our local fur dealer, who had bestowed tenderly care all winter on his young bear, in supplying it with every comfort which philanthropy could suggest, has now taken up the refrain of "The white man's burden" as the bear did not take kindly to civilization, and one fine morning of late brain made a bound for greater liberty and his native woods. Mr. Morrison seized his Winchester and a tempting luncheon for his fugitive "Jack" now lost to view, went in hot pursuit of the ungrateful runaway, without avail. Jack had no dinner that day, but he had lots of freedom which he valued more than victuals, and the tempting luncheon was highly relished by Jack's own master, miles from home near setting sun. A party started next morning with dogs and found Jack at Coal Creek, perched on a tree; but as Jack could not be entreated to come down, his pursuers dropped him to the ground with their deadly rifles.

The ice in the Salmon River has run out and the freshest which is even with the highest intervals is kept in check by cold winds and frosty nights.

Leslie McInnis, the Champion Chopper of Chipman, who has just come out of the woods is ready to accept the challenge of King Crawford any moment the latter sees fit to meet him. Leslie says he can chop 40 logs, 11 inches at small end in 2 hours, and he is not accustomed to chopping small poles like his friend Crawford down the Bay.

Rudyard Kiplings are springing up like mushrooms in Queens and the dead as well as living are getting well pickled and preserved in doggerel song by every tyro who has a weakness for poetry. Poetry seems to have been created with man; but is subject to certain rules of Prosody which some of our local poets should acquaint themselves with before they undertake, like Robert Burns, "To hang up the Schoolmaster like potato bogles in sang."

**Cambridge.**  
April 24.—The ice is almost all gone out of the lake and some of our wood-bomen are anxiously awaiting the time when they shall again plow the raging maine. Chopping frolics were the order of the

day last week, three being held as follows: Mrs. John McD. Bolyea's on Thursday, Mrs. Jacob Carpenter on Friday and lastly, one at H. Humphrey's on Saturday.

Messrs. Black and Wilson of the Narrows have been in this section of the country sawing with their new sawing machine. Their work pleases all who employed them.

Mr. Merrit Straight of Mill Cove spent Sunday with his mother Mrs. Abial Straight.

Mr. Frank E. McDonald has again returned to his home in St. John.

McDonalds Cor. people ought to feel highly honored on having such an eloquent poet, as can be seen by the quality of his verse. He is no amateur in the business. We hope in the near future to hear from the poet again.

We are sorry to learn that some of the most prominent young men of this place are contemplating going away the last of this month. Should they go, they will be missed by many.

Mr. Wm. Humphrey has the honor of being the first man to do any plowing this spring, as he commenced on Thursday morning.

The members of Cambridge Union Lodge, I. O. G. T., would be pleased to again greet the smiling face of their much esteemed brother, Mr. Geo. A. Wilson:—(our mailman)

**PERSONAL.**  
Mr. Harvey Weston left on Tuesday morning to resume his duties on the Stmr. May Queen.

Mr. Archie McKeague started on Monday for Boston.

Messrs. Louis Brooks and Bruce McDermott went to St. John on Tuesday.

Mr. Charles Gilchrist had a party of young men splitting wood on Monday.
