TO NEW YORK.—Mr. Robt. Howie went to New York last week to attend Mitchell's Cutting School for a term. Though already possessing an enviable reputation as a good cutter Robert proposes to keep himself fully abreast of the times.

DROPPED DEAD.—William McLaggan, a well known Miramichi lumber operator, was stricken with apoplexy last Wednesday night at his home in Blackville Northumberland County, and never regained consciousness. Deceased was well known in Fredericton and was highly respected.

Two or three weeks ago somebody sent a stone through one of the windows in Charlotte Street School building. Again on Thursday night two large panes of glass and the sash were broken in Mr. Kilburn's class room. It is too bad that the rascals cannot be caught.

A BIG BIRD.—While partridge shooting with a companion near Lawrence Station on Tuesday, a lad from St. Stephen, named Norman Nicholson, was accidentally shot in the leg. The two were separated for a time and Nicholson's companion seeing a movement in some bushes near him that, as he thought, indicated a partridge, discharged his gun and shot Nicholson.

SPRING GOODS.—In our advertising column will be found the advertisement of Green Sons & Co., wholesale manufacturers in Hats, Caps and Gents Furnishings, who are now advertising the Spring Trade in these lines. This is a reliable firm having a good connection in these provinces, and our merchants will do well to correspond with them.

IN THE WEST.—It is with pleasure that we note that C. H. Lugin, formerly of The Herald staff, is now occupying a position on the editorial staff of the Seattle Telegraph. Mr. Lugin is a journalist of the first water, and our Seattle contemporary is to be congratulated on securing the services of so good a newspaper man. In addition to this, Mr. Lugin has again taken up law, and is a member of the firm of Williams & Lugin.—Herald.

AN OLD RESIDENT.—The death occurred on Friday last of Mr. Charles D. Currie at his home in Mauderville, Sunbury. Mr. Currie was well known in this city and was probably the wealthiest man in his county. He was a very active man for his years and usually gave personal supervision to all farm work as well as to the management of his general business. The funeral took place on Sunday afternoon, the remains being interred at Oromocto.

Mr. F. S. Williams of Marysville, left this morning on a business trip to the west.

Y. M. C. A.—General Secretary Gorton has just been in St. Stephen where he succeeded in enlisting the sympathy and support of the people in the inauguration of a Y. M. C. A. in that town. Watson's hall has been secured as headquarters and they intend to procure a permanent trained Secretary at once.

The baby seems inclined to die in this city for we have heard nothing lately calculated to offer hope for convalescence.

ANOTHER MILL.—Mr. Gibson finds a market for more shingles than his present mill will manufacture, and notwithstanding the numerous mills already owned by him, he is about to erect another very large shingle mill above the dam. It will be fitted with an engine 160 horse power and will have capacity for twelve shingle machines. This additional industry will likely be followed by the erection of a number of tenement houses. Gibson's mill at Blackville is now sawing night and day.

THE CURLERS.—The annual meeting of the Fredericton Curling Club was held last week when the officers for the approaching season, including a new chaplain were elected. They are as follows:—President, A. F. Street; vice-presidents, J. S. Neill and James D. MacPherson; secretary, E. H. Allen; Treasurer, Geo. W. Hoegg; chaplain, Rev. G. G. Roberts; committee of management, E. H. Allen, James H. Hawthorn, T. G. Loggie, J. B. Grieves and W. K. Allen.

POOR RETURNS.—In St. Stephen at an early hour on Friday morning burglars entered the office of the St. Croix Soap Manufacturing company and blew open the safe. The job was evidently a professional one, but the robbers obtained only slight reward, not more than twenty dollars being in the safe. The papers were scattered on the floor and left there. The windows were carefully opened so that no crash of broken glass would occur.

You Take No Risk

In buying Hood's Sarsaparilla, for it is everywhere recognized as the standard building-up medicine and blood-purifier. It has won its way to the front by its own intrinsic merit, and has the largest sale of any preparation of its kind. Any honest druggist will confirm this statement. If you decide to take Hood's Sarsaparilla, do not be induced to buy anything else instead. Be sure to get Hood's.

A WOULD-BE BIGAMIST.—Nathaniel L. Newcomb, a popular steamboat agent in Yarmouth, won the affections of Sadie Killam, daughter of W. A. Killam, and although there was a difference of thirty years in their ages they seemed to be born to be wedded. They were to be married this month but fortunately for the girl it was discovered that Nat. owns a wife and two children whom he deserted years ago and they are now living in Taunton, Mass.

AT THE GRAVE.—Our citizens were pained on Thursday morning to hear of the unexpected death of the young wife of Robert S. Barker of the Crown Lands office, and only daughter of Dr. T. C. Brown. Deceased was a general favorite with her large circle of friends to all of whom her death is a great shock, and the husband, father and brother have the sympathy of all in their sore bereavement. The funeral which was largely attended took place on Saturday afternoon and the remains were interred at Forest Hill cemetery. Rev. Messrs. Roberts, Alexander, and Parkinson took part in the solemn exercises.

CHATHAM'S TURN.—Nobody can blame Chatham for wanting a new Post Office. The World says that Mr. Ewart, an engineer of the public works departments, has been there looking at the proposed sites for the new post office and custom house that is to be built. He vetoed them as a whole, saying the department would have nothing to do with the wharf, and asked Mr. Shirreff to name a price for 100 feet of land. He looked at the old Methodist church, the property of Mr. Snowball, and at two or three other proposed sites, and examined the properties that will have to be acquired if the building should be erected, on the site of the present one.

An elegant line of Real Diamond Rings at R. Blackmer's.

Professor Murray will deliver his inaugural address, Thursday evening, 29th inst.

ORANGE MEETING.—A Public Orange meeting was held last Thursday evening in the Orange hall Tay Settlement. A number of members of the Fredericton lodges were present and delivered addresses, after the public meeting a lodge meeting was held for the conferring of degrees.

Wedding Bells.

Two interesting events were celebrated in this vicinity last evening. Mr. T. Amos Wilson, the popular bookbinder, led to the altar Sadie, daughter of Mr. H. G. Wetmore. Canon Roberts united the happy young couple in St. Ann's church. They were the recipients of many handsome presents, including an elegant silver tea service from the "Opera Cabinet" of St. John.

About the same hour the nuptials of Lieut. John Johnston of the 71st Batt. and Mrs. Thompson, sister of the wife of the officiating clergyman, were celebrated at Nashwaakiss at the residence of Mrs. Evans, mother of the bride. The knot was tied by Rev. Mr. Eatough and the happy couple embark on the ocean of life with the hearty good wishes of many friends.

A CONFIDENCE TRICK.—People from down east are often victims of sharpers in large cities, and now the Boston Herald reports that last week Arthur Higgins a Nova Scotian was fleeced by a confidence man on Canal street, while on the way to the beside of his dying brother at Truro, N. S., but fared better than he at first supposed he would. Captain Cain's sympathies were aroused by his tale, and he sent him to general manager Furber of the Boston & Maine road with patrolman Fessenden, who related the story and asked for a pass for him. This was granted as soon as asked for, as far as Portland, where Mr. Furber's direct power ceased, but he gave him a note to use at another railroad office, when he arrived there, which would doubtless secure for him a free ride to Truro.

LOTS OF WORK.—At the meeting of Conference last week Rev. Wm. Downey was authorized to undertake the work of an evangelist this year.

One of the busiest men of the Conference will be Dr. McLeod, who in addition to his onerous duties as editor of the Intelligencer, is appointed general secretary to do the following things: To prepare plan for a better circuits system also a plan by which supplemental funds can be raised, to aid poor pastors and prepare more systematic methods of increasing the ministers' relief fund. A resolution was passed authorizing Dr. McLeod to enter upon the work soliciting aid for the Union Baptist seminary.

ANOTHER MINE.—Charlotte County has provoked it's share of attention to its mining capabilities the past year, and now what might be called a Pennsylvania coal mine has been discovered. The St. Croix Courier says that the efforts of the parties who have been prospecting coal at Lepreaux for some time past now seem to be crowned with success. It is said that 40 feet from the surface where the operations are going on a seam of anthracite coal, six feet, has been found. Some of the coal has been tested. It is free burning anthracite and of excellent quality. An expert from Pennsylvania, who is directing the operation, says he has no doubt whatever that a most valuable bed of anthracite has been discovered.

A TERRIFIC EXPLOSION.—Intelligence has been received of the sudden death of a former resident of Tracy. A terrific explosion occurred last Friday in a mill at Manchester, N. H. in which two persons were killed, one a New Brunswick man. Several others were badly injured. About 9:30 o'clock Thursday morning the flywheel in the engine room of the mill burst. Samuel Bunker, the engineer was killed outright. He was found shortly afterwards in the wheel in the pit with his head smashed in. Bunker was married and was a native of Tracy, York county, N. B. His remains were interred at Manchester. Several of those injured in the mill were girls.

Smallpox in the North.

The Restigouche Pioneer says: The second case of smallpox has broken out in Dalhousie. This time a girl, an inmate of the house that has been in quarantine since the first case was noticed. She has also been removed to an isolated house over the hills.

As soon as the health officers of the town, learned of the two cases of smallpox in a settlement near St. Moise on the line of the I. C. R. about 75 miles from here; the provincial board at Fredericton was notified of the facts by wire. Since then the board and Dr. Doherty, inspector of the board of health, for the county, have been in correspondence, and no doubt every necessary precaution will be exercised to stay the spread of the disease.
