

ENGLISH NEWS.

ARRIVAL OF THE FRANKLIN.

FOUR DAYS LATER FROM EUROPE.

The American steamship *Franklin* arrived at New York on Monday morning last, bringing London papers to the 7th inst.

The Steamship *Africa* arrived home on the 4th, in less than 11 days.

The commercial news presents no striking feature.—The flour market was without change.—Cotton had advanced from 1-8d. to 1-4d.—In Manchester a better feeling was manifested.

In the House of Commons on the 5th inst., Lord John Russell informed the House of the course the government proposed to pursue in consequence of their defeat by a majority of 14 on the motion of Mr. Hume, against the renewal of the income tax for three years. His Lordship said that the Cabinet was prepared to bow to the decision of the House, and to submit to the appointment of a select Committee of inquiry to consider the details of the obnoxious tax. The duration of this impost is therefore doomed. The reverse of the ministry on this question was received with universal joy.

In the House of Commons on the evening of the 6th, it was mentioned by the Government that the Lieutenant Governor of Van Dieman's Land had thought it his duty to withdraw the tickets of leave granted to the three Irish prisoners, McManus, O'Doherty, and O'Donahue, in consequence of their misconduct, and to subject them to certain terms of imprisonment.

On the evening of the 6th inst., the ministry were again virtually defeated in the House of Commons, on a motion introduced by Lord Naas with reference to the spirit trade. Lord John Russell said that the effect of the motion would be a reduction of duty on spirits, which the ministry were not prepared for. The motion was pressed to a vote of reference to a committee, and the members were 153 on each side.

Mr. Roebuck said that he would not go to the noble Lord, whether after this fourth defeat he would still retain the reins of government, and urged him to resign for the sake of his personal reputation.

Lord John Russell somewhat faintly replied, that he would take care of his personal character and reputation without Mr. Roebuck's aid or counsel; that resignation of government was a grave matter, involving very serious consequences; and that while the ministers were not disposed to allow the character of the government to be impaired, neither would they, under a sense of defeat, hastily resign office.

The subject there dropped, but the ministry are evidently too weak to guide the legislation of Parliament.

Nothing further has been done with the bill against the Papal aggression.

The Crystal Palace continued to be thronged with thousands of admiring and wondering visitors. On Monday, 5th, the price of admission fell from £1 to 5s. a head, and about 6,400 persons were admitted at that price, and £1,000 sterling were taken at the doors. The demand for season tickets also continued, and the receipts altogether were estimated at £2,000 a day.

FRANCE.—From Paris we learn that the 4th of May, the anniversary of the Proclamation of the Republic, had passed off without the slightest attempt at disturbance.

The confusion of parties was still very great in the French capital, and the greatest uncertainty prevailed as to the probable solution of the approaching political problem.

PORTUGAL.—From Portugal we have late intelligence, with accounts from Lisbon to the 29th, and Oporto to the 30th ult. The telegraphic despatches received by way of Paris and Madrid, announcing the insurrection of the Oporto garrison, on the 29th ult., is fully confirmed. No contest, however, took place, and but three lives were lost. Marshal Saldanha entered Oporto on the 27th ult., and was greeted with a most enthusiastic reception by the entire city, which turned out to meet him. The insurrection in his favor was spreading in all parts of the kingdom. The troops were unanimous for his cause, and were marching to join him from all points. The King had left Coimbra, and was retreating from Lisbon, most of the forces under his command having also pronounced for the revolution.

Count Thomaz's ministry resigned, and the Count himself fled from Lisbon. Fears were entertained of the rising of the popular or Junta party, unless the Queen should quickly take steps to clothe the victorious Saldanha with full powers to form a ministry, and it was further feared that Saldanha's party would require the abdication of the Queen and proclamation of a regency. A Spanish army of observation was being collected on the frontier.

We are happy to observe that the steamers Reindeer and Carleton are daily bringing from Woodstock and the upper country for conveyance to St. John, large quantities of Agricultural produce. We always knew that the county of Carleton possessed resources, and capabilities equalled by few, and surpassed by none of the other counties of the Province. —*Fredericton Times.*

From most of the British West Indian Sugar Islands there are good accounts of the crops. In Trinidad it was expected that the crop would exceed that of £200,000, consequently, the Governor has recommended a reduction of imports and other duties and taxes. The financial affairs of Bermuda are also in a flourishing state.

Mr. Ternay, the Superintendent of the B. N. A. Telegraph, is of opinion that the line will be finished and in working order, as far as Fredericton, N. B., early in July. A considerable portion of the line is now built—there are 50 miles of posts up from Rives du Loup northwards.—A large gang of workmen are busily engaged between Rives du Loup and Woodstock.—*Quebec Chronicle.*

THE CARLETON SENTINEL.

WOODSTOCK, MAY 27, 1851.

FROM OUR FREEDOM CORRESPONDENT.

The Executive Council met for dispatch of business this day week, and, as you may readily imagine the question as to what they intended doing was more easily asked than answered. The facts which I now communicate to you will solve the problem. The sudden death of the Honble. Colonel Shore (a gentleman universally respected by all who had the pleasure of his acquaintance) has placed the office of Clerk of the Pleas at the disposal of the Government, who have appointed William Carman, Esq., of Chatham, Northumberland, Barrister at Law, to that office. Mr. Carman was for one Session, a member of the House of Assembly, and as such was distinguished for his ability and staunch conservative principles. It is admitted by all that he is well qualified to fill the important trust assigned to him. In this appointment the Government have acted wisely and given general satisfaction. There were but few applicants for the office, for two reasons.—First, it not being generally known that the office had become vacant—and secondly from the fact of the salary being so low. (£250) that it was not an object of ambition for any gentleman of tolerable practice and good professional prospects, to seek after. Rumour says the Chief Justice claims the right to appoint, and has protested to the Secretary of State against its confirmation. Certain it is that the right has been exercised by former Chief Justices in this Province. In England the right ever has been exercised by them, and as our Courts are modelled after the Courts of Queen's Bench and Exchequer it follows as a consequence that the right to appoint is still in the Chief Justice, more particularly as the Provincial Act regulating the future Incumbent of the office does not take away that right, and nothing but a statute will do so. The late Chief Justice Chapman, on his assuming that office, memorialized the Secretary of State on the subject of the late Mr. Shore's appointment by the then Government, and received for an answer that the subject would be left for future consideration. Up to the present the right has not been established.

You will be glad to learn that Mr. Baillie has accepted the retired allowance of £500 and so soon as arrangements can be made will vacate his office. Report says the Government have settled who his successor is to be. My opinion is they will have to wait with the office some time ere it will be filled. R. D. Wilmot, Esq., is spoken of, but I much mistake that Gentleman's policy, if he would take office in the Government as at present constituted. Should he do so his re-election is certain.

By the death of Col. Shore and the resignation of Mr. Baillie the Government will be relieved from that hitherto increasing cry of high salaries—the hobby of the bung and snot politicians, who represent the eastern Colonies of this Province. It is generally understood that no appointments (for the present) will be made to the Executive. As yet we deal in conjectures as to the individuals.

The office of Clerk of the Crown is still in Mr. Street, Messrs. Allen and End are applicants. Plurality of office is not desirable.

I should have written you before had anything of moment occurred.

—We direct the attention of those parties interested in the private Acts, passed at the recent Session of the Legislature, to the Act 13th Victoria Chap. XIX, intitled "An act to regulate the printing and distribution of the Acts of Assembly," which declares "that no Private act shall be of any force or effect unless printed by the Queen's Printer, within three months after the passing thereof, and one hundred copies furnished to the Provincial Government, at the expense of the parties."

We refer to the three Acts effecting individuals in this and the Upper County, viz.: An act to Incorporate the Woodstock Farmers' and Mechanics' Library Society, Passed 15th March. An Act to incorporate the Arostools Falls Canal and Mill Company, Passed 20th March. An Act to incorporate the Simonds Agricultural Society, Passed 30th April.

RAILWAY DELEGATION TO CANADA.—We hear that the Hon. Mr. Chandler, on behalf of this Province, will accompany the Hon. Mr. Howe to Toronto, to confer with Lord Elgin respecting the construction of Railways in these Colonies upon a well digested plan, and on a comprehensive scale, without reference to local feelings or personal interests. These gentlemen will probably leave here for Canada during the first week in June, previous to which we hope to have the pleasure of welcoming Mr.

Howe among us, and also of hearing his exposition of railway matters.—*New Brunsw.*

It is to be hoped that those gentlemen will go to Canada by the way of the St. John River, in order that they may make themselves acquainted personally with the railway route in contemplation. Could the Hon. Mr. Howe be induced to tarry a day at Woodstock, it might be of infinite service to us. With a very short notice a public meeting might be convened, and an address from either of the gentlemen would be gratefully received. Indeed we only think it right that the Delegates should take the upper Counties on their way to the Convention.

Lieut. Colonel Hayne, of the New Brunswick Regiment of Artillery, has been appointed Adjutant General of the Militia Forces of this Province, in the room of the Hon. George Shore, deceased.
