An Extraordinary Cure of Scorfula or King's Evil. Extract of a Letter from Mr. J. t. rathany. W. Inga Stree. Chellenhum, dated the 22nd of Junuary, 18:0. To Professor Holloway

Sin,-My eldest son, when about three years of age, was afflicted with a Giandular Swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it as a very bad case of Scorfula, and prescribed for a considerable time without effect. The disease then for four years went on radually increasing in virulence, when be ides the ulcer in the neck, another formed below the left knee, and a third under the eye, besides seven others on the left arm, with a tumour between the eyes, which was expected to break. During the whole of the sime my suff ing loy had received the constant advice of the most celebrated Medi al gentlemen at Cheltenham, besides being for several wenth, at the General Hospital, where one of the Surgeon said he would amputate the left arm, but that the blood was so impure, that if the limb were taken off it would be even then im possible to subdue the disease. In this desperate state I determined to give your Pille and Ointment a tritl, and after two months perseverance in their use, the tumour gradually began to disappear and the discharge from all the ulcers perceptibly decreased, and a the expiration of eight menths they were perfectly bealed, and the boy thoroughly restored to the blessings of health, to the asto..ish ment of a large circle of acqueintances, who could testify to the ruth of this miraculous case Three years have now e apsed with out any recurrence of the milady, and he boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you a quainted with this wonderful cure, effected by vur medicines after every other means had failed. J. H. ALLIDAY. (Signed)

FEMALE MEDICINE.

Nothing can be more surprising, than its effects on the human frame Persons ail weakness, from taking it, at once become rebust and full of energy under its influence. It immediately counteract the nervieseness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can as sure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without chie from aft r using a ten bottles of this invaluable medicine, have been biessed with fine healthy offsprine.

To Mothers and Married Ladies.

This estract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "The turn of life, medical perfession. The name of the parent, from metives of should neglect to take it, as it is a certain preventative for any o the numerous and herribe dise ers to which females are subject it this time of life. This period one to deleved for several yours by using this medicine. Nor is it lass valuable for those who are approaching wemanhord, we it is escalated to assist rate . by quickening the blood and ine gonitine the system, Indeedth a melicine is inequalite for all the deticale discuses to which women re subject

It beaces the whole system, renews permanently the esteral enrgies he removing the impurities of the body, not so for stimeest me heines taken for ismale weakness and disease. By using few bottles of this medicine, many severe and painful surgica perations mry be prevented.

Great Blessiag to Mothers and Children. It is the safest and most effectual medicine for puritying the sys in, and relieving the sufferingsattendant apon child birth ever seevered. It strengthens both the mother and child, pre

ints pain and diseas, increases and enriches the food-those who we used it think it indispens ble. It is is highly useful both before id after confinement, as it prevents diseases attendat upon childrth-in Costiveness Cramps, Swelling of the feet, Pespondenins, Hemorrhage, and in regulating the secretions and equaliicine is it is always safe, and the most delicate use it most success ally, very few cases require any other medicine-in some a little astor Oil or Magnesia is useful. Exercise in the open zir, and ght food with this medicine, will aiways ensure a safe and easy infinement.

Beauty and Health. Cosmetics, Chalk, nl a variety of preparations generally in ise, when apoli date be face very soon spoil it of its beauty.-They close he per of the skin, and check the circulation, which when nature is o a warted by disease or powder, or the skin inamed by the a kalies used in soaps, beautifies its own productive in the "human face divine," s well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to be extremities, is that which imparts the indescribable shades and lashes of loveliness that all admire, but none can describe. This is the or spring of nature-not of powder or soap. If there is not i free and healty circulation, there is no beauty. If the lady in fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or vellow, and there is pure and active blood, it gives a rich bloom to the cteeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish adies, are so much admired. Ladies in the north who take but attle exercise or are confined in close rooms, or have spoiled their omplexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla, Phousands who have tred it, are more than satisfied, are delighted, ladies of every station crowd our office daily.

an, word for word-other men who put up medidine have since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previous. ly they did not. A number of these Mixtures, Pills, &c., are ininr ous to females, as they aggravate d sease, and undermine the constitution.
