

ENGLISH NEWS.

Arrival of the Humboldt.

By Telegraph to the Sentinel News Room.

St. John, May 25, 5 o'clock P. M.—The steamer Humboldt with two days later news from England, arrived at New York at 7 o'clock Sunday evening.

The amount of Bullion in the Bank of England on the 8th instant had increased to about £20,000,000. Consols quoted 99 1-4.

Steamship America, from Boston, arrived at Liverpool on the 8th, making the passage in 10 days and 8 hours.

The steamship British Queen, from Liverpool for the Mediterranean, put into Holyhead on Sunday the 9th at noon, on fire. She had been flooded, but at 9 P. M. the fire was still burning.

FRANCE.—The fete of the 10th caused much excitement. It was fully anticipated that the proclamation of the Empire would take place. An official warning had been given by the Government to the Departments.

Other news from the Continent not worth reporting.

The steamship City of Manchester arrived at Philadelphia on Sunday morning, with 347 passengers.

STILL LATER.

HALIFAX, May 26.—The Cambria has just arrived from Liverpool. She has 52 passengers.

The news is interesting but not important.

Proceedings in Parliament during the week had been of considerable interest. A motion was brought forward in the House of Commons by Mr. Apouner on Thursday night for a Committee to enquire into the system of Education pursued at the Roman Catholic College at Maynooth. The motion was met by an amendment, that the House should resolve itself into committee to consider a Bill to repeal the Maynooth endowment, and all other grants in aid of religious institutions. A long debate ensued which brought out the whole force of the House.—Further consideration of the question adjourned till Tuesday.

On Wednesday the debate was resumed on Mr. Milner Gibson's resolution of the 22d to abolish the duty on paper, together with the stamp on newspapers and the tax on advertisements. Most of the prominent members took part in the debate. Eventually resolutions were voted on as follows—majority against abolishment of paper duties 66—newspaper stamps 99—advertisement tax 65. The debate elicited several statements of interest to the reading public—among others, that Government intends to procure monthly periodicals not published on newspaper stamps. The Militia Bill still draws its slow lengths along in the Commons. Thursday being the anniversary of the Queen's birth-day, there was no House. On Friday the House again went into committee on the Militia Bill. It was stated that Government intended sending a Militia force to Australia, the Colony to pay expenses.

Two destructive accidents had happened in the Welch collieries. The first was an explosion of firedamp, by which 80 persons perished. The other was the flooding of a pit, by which 24 more were drowned.

The Chrystal Palace is definitely bought for £70,000 by the Directors of the Brighton Railway, who intend by the aid of a joint stock company to erect it at Sydenham, and open it as an exotic garden.

Rumor says that Lord Glendall would supersede Lord Dalhousie as Governor-General of India.

FRANCE.—The long anticipated 10th of May passed off with the greatest eclat, without the slightest disturbance. The fete was purely military—60,000 troops of all arms were drawn up in the Champs de Mars, and not many short of half a million were spectators of the ceremony. About noon the President arrived at the head of a brilliant staff and proceeded to review the soldiers, after which the presentation of Standards surmounted by the Imperial Eagle was made to the Colonels of the various Regiments. The operatives of the Faubourg St. Antoine notified their employers that they would work

during the day instead of being present at the fete. Festivities were continued indoors on Tuesday, Wednesday and Thursday. On Tuesday night a Grand Ball at the Tuilleries was attended by 150,000 persons: a banquet was given to 600 Generals and officers of distinction, and on Thursday a dinner to 2,000 non-commissioned officers of the line.

General Changarnier refuses to take the oath of allegiance, and says, "Louis Napoleon has frequently endeavored to make me swerve from the straight line I had marked out for myself, and wishes to induce me to lend myself to his ambitious designs; he has many times—very many times—offered and caused to be offered to me, not only the rank of Marshal, which I should have filled in the eyes of France without being thought to degrade it, but another military dignitary which had never been revived since the fall of the empire."

A letter issued by the Court De Chambre calling on the Legitimists to refuse the oaths of allegiance, attracts much attention.

CENTRAL AND SOUTHERN EUROPE.—Advices from Prussia and Austria are mostly occupied with the movements of the Emperor of Russia, now visiting in Vienna. Prince Wendischgratz and the Duke of Bordeaux are expected—hence it is thought that the Emperor's visit is more on business than pleasure.

The Austrian Lloyds publishes a list of sentences against Hungarians implicated in the late war.

Further items will be given in our next.

TOBIQUE, Wednesday, May 26.—A young man by the name of Tapley was drowned just opposite Tobique about 11 o'clock this morning, and a man by the name of James McNeil was killed yesterday afternoon at Guisseguit.

FROM THE WEST INDIES.—Previous to the 4th inst., seven vessels had sailed from Bermuda for the United States, loaded with potatoes and tomatoes.

The Kingston (Jamaica) Journal says there will be a great falling off in the sugar crop—At the east end of the island it will be without parallel. The small pox continues its ravages on the north side of the island.

At Demarara, the yellow fever is committing serious ravages.

At Antigua, the drought continued with great severity. Distress was beginning to be felt for want of water. The crops were suffering, and many of the cattle were dying. At St. Kitts the drought was also very severe.

The incendiary torch is spreading destruction and devastation in all parts of Gaudaloupe.—Fires were of daily occurrence, and it was with great difficulty that the large towns were preserved from destruction.

THE WEATHER, &c.—We have had another week without any rain of consequence and we understand that grass lands are now beginning to suffer. The seed has been mostly got in, in this part of the country, and if we are favored with warm rain soon, the season will be quite as forward as usual. A very large breadth of Potatoes has been planted, and we have heard of several fields of Wheat and Oats in this neighborhood being well braided.

Potatoes and Oats continue very scarce and high in the market—the former bringing 5s. per bushel freely, and the latter, of common quality, 3s. to 3s. 6d., white good seed oats have sold readily at 4s. to 5s.—St. John Courier, 2nd.

GASPEREAUX FISHERY.—We are informed that the Gasperaux Fishing in our Harbor is unusually good this season—much better than for many years past. The catch indeed is stated to be so great, that the quantity of fish exceeds the number of vessels prepared to hold them, and we have been told that in some cases scows have been employed to salt them.

The bounties of Providence seem to flow upon us, and ought to be received with thankfulness.—Jb.

The sum of \$375 has been forwarded to the families of Jonathan Collins and Daniel Assity, who lost their lives in attempting to save the crew of the barque Joseph, off Truro, through R. B. Forbes, Esq., being the amount subscribed at the Merchants' Exchange Reading Room in Boston.—New Brunswick.

NEW POWER PRESS.—The Worster Transcript, since its enlargement, has been printed on a power press, of simple and ingenious construction, lately invented in that city by Dr. Hawes, one of the most competent of practical mechanics. We cannot describe the *modus operandi* of the machine, so that our readers would gain a very intelligible idea of its construction—but it prints two thousand an hour, is propelled by one man, and cost about \$600. It takes but one person to feed it, delivers the papers itself, and does not occupy as much room as an ordinary hand press.

DEATH OF THE REV. MR. ELDER.—A telegraph despatch received from Philadelphia announces the death of the Rev. Mr. Elder, minister of the Baptist Church in this Province. The Rev. gentleman was well and favorably known throughout New Brunswick, and his loss will be deeply felt by the denomination to which he belonged.—New Brunswick.

The frame of the new Methodist Chapel is now being raised on the site of the building destroyed by fire. It is a substantial piece of workmanship, and when completed will add much to the appearance of that part of the City in which it is located.—Head Quarters.

A BLOODY DEED.—A Scotch woman named Conney, keeping a boarding house in N. York, was attacked Wednesday by a boarder named Doyle, who cut her throat, and afterwards his own. Doyle died in a few minutes, and the woman's life is despaired of.

Barnum's last operation is the buying up of one-half of Bridgeport, Ct., which he offers for sale, every other lot at first cost, his profits to come out of the advance which the improvement will cause in the remaining lots. This great showman was once a journeyman printer.

It is stated that whenever the King of Siam, feels like having a little field sport, he shoulders his rifle and goes hunting after missionaries.

Married.

At Houlton, Me., on the 26th inst., by the Rev. Lewis L. Record, Mr. James Phillips to Miss Margaret McDermont, both of Woodstock. At Richmond, on the 13th inst., by the Rev. John Hunter, Mr. Alexander Bell, to Letitia, second daughter of David Alexander.

LOOMER & WOODWORTH.

Upper Corner, Woodstock, May 29, 1852.

PROSPECTUS

The Anglo-American Magazine.

On the first of July next will be published the first number of a Monthly Periodical, under the title of THE ANGLO-AMERICAN MAGAZINE.

Each number will contain 96 pages royal octavo, with double columns and numerous illustrations. Price 15s. per annum, paid in advance, and sent by mail to any part of British North America, or the United States.

It is proposed to publish in each issue one or more original papers on subjects connected with British America, carefully excluding party politics or religious articles of a denominational character. Selections of the best writings in the leading British periodicals will be copied, especially such as have reference to the welfare and interests of these Colonies.

A careful digest of the current news of the world, Scientific Discoveries, Commercial News, Musical Intelligence, and all matters of general interest, derived from the most recent information.

It is also intended to publish a series of Biographies of eminent men of Great Britain and Ireland, from Alfred the Great to the present time. This department will be illustrated with portraits from the best masters.

As it is proposed to make this work a national and not a local work, it will unflinchingly advocate all questions affecting the common interests of our Colonies as an integral portion of the British Empire.

An experience of several years in supplying the reading public of Canada with the serial publications of the United States, convinces the projector of this periodical that they are entirely inadequate to the wants of the majority, and little calculated to form or improve the taste of a people essentially different in their feelings and principles from those for whom those Periodicals were prepared; and believing that the enterprise will meet with encouragement from those for whose pleasure and information it is designed, he trusts that the experiment will realize his expectations.

The Magazine may be made one of the best Mediums for Advertising yet offered to the Colonial public; and the terms will be regulated in such a manner as to induce all parties to avail themselves of its pages.

THOS. MACLEAR.

Toronto, April, 1852.

N. B.—Newspapers inserting the above Prospectus till first of July, and afterwards noticing each number as published, will receive the Magazine regularly.
