

New Brunswick Society

FOR THE ENCOURAGEMENT OF AGRICULTURE,
HOME MANUFACTURES, COMMERCE, &c.

Great Provincial Exhibition to be opened at Fredericton on Tuesday the 5th October next, under the auspices and patronage of His Excellency the Lieutenant Governor and Lady Head.

TO THE PUBLIC.

The Legislature having passed a grant of £500 in aid of the funds of the Society, to provide for the expenses of getting up and managing the proposed Exhibition, and thereby shewing their approval of the same, upon the plan and contemplated arrangements contained in the Resolutions of the Society passed at the general meetings held on the 15th October and 7th January last, which have all been heretofore published and widely circulated throughout the Province, the Executive Committee are now actively engaged in the preparations requisite for carrying out the scheme; and all Local Committees for the different Counties in the Province; the General Committee, (consisting of the Legislative Council and Members of the House of Assembly, in their private capacities, in their respective Counties); these several County Agricultural Societies, and Mechanics' Institutes in the different parts of the Province; Manufacturing Companies, and all Agriculturalists, Horticulturalists, Manufacturers, Mechanics, Artizans and Artists throughout the Country, and all other persons taking an interest in its welfare and prosperity, are now called on to be up and doing, in aid of this great work; as no time is to be lost in preparing articles to be brought forward for competition, and in raising subscriptions in aid of the funds necessary to provide for the large expenses that must be incurred.

It will be seen by the schedule and classified list of the objects for the Exhibition, already published, that it will be open to all the natural productions, both Mineral and Vegetable, of the Province; to all kinds of Agricultural produce; to all articles of Home Manufacture of every description; to Cattle, Horses, Sheep, Pigs, Poultry, and Cured Meats of all kinds, and to specimens of all the different branches of the Fine Arts.

Farmers, Gardeners, Manufacturers, Musical Instrument Makers, Jewellers, Watch, and Clock Makers, Carpenters, Wheel-wrights, Blacksmiths, Whitesmiths, Founders, Mill-Owners, Carriage-builders, Boot and Shoemakers, Saddle and Harness Makers, and indeed all descriptions of Mechanics, Artisans and Artists, are therefore strongly invited to come forward with the respective productions of their industry, labor, skill, ingenuity and ability, in their different callings, for a generous competition with each other for excellence, and thus shew what the resources of the Province are, and what the people in it can do.

The Ladies of the Province are also solicited to exert their talents and ingenuity in fancy and ornamental works for the show.

Liberal prizes will be awarded to the victors in this praiseworthy rivalry, a list of which will be hereafter published as soon as it can be prepared and arranged. Pecuniary assistance to a limited amount, so far as the funds will permit, will be placed at the disposal of the respective local Committees for Counties at a distance from Fredericton, to afford aid to such persons as may be in need of the same in the expenses of transmitting their articles for competition to the Exhibition, and the more liberal the subscriptions from such Counties are, the greater will be the amount to which such aid can be extended to them.

The Exhibition will be opened by His Excellency the Lieutenant Governor, in person, on Tuesday the 5th October next, and closed on Saturday the 9th, during which time a Fair will be held with the Exhibition, at which Ploughing Matches, Regattas, and various kinds of public amusements and sports will be provided for, according to a programme that will be hereafter published; as the object is to make this great Exhibition and Show not only highly beneficial to the Province at large, and thus carry out the most important object of the Society, but also instructive and amusing to all who attend it.

The use of the Province Building has been kindly granted to the Society for the occasion,

in which all articles of a nature to require great care, safe keeping, and protection from the weather, will be placed.

Every exertion will be made to provide the means of comfortable accommodations in Fredericton and its immediate vicinity, for visitors to the Show.

It is hoped and trusted that the Public Press of the Province—that powerful engine for promotion of all great undertakings, will be exerted in behalf of this good cause, and that the Editors of Newspapers in the several districts of the country will give insertion in their respective papers to this communication, and exert themselves to give general information on, and keep the public attention alive to all matters connected with the scheme, which may tend to its success, and excite an extensive spirit of enterprise and desire for excellence among the people.

G. F. STREET,
President of the Society.

Fredericton, April 8, 1852.

THE FAMILY OF KOSSUTH.—The family of Kossuth, victims of Austrian tyranny, are, it is said, in great distress—objects, indeed, of charity. The Vienna correspondent of the *London Times* narrates that a small sum, some £120, having been forwarded by some philanthropist for their relief, the imperial authorities, after satisfying themselves that it was really intended for their support, consented to its being paid into the hand of the aged mother, who has a third daughter, and the 13 children of the two daughters who are in prison, dependent on her for their daily bread.

It is rumored that His Excellency Sir EDMUND HEAD is about to visit England for a few months, to represent in person at Downing Street the interests of this Province in the important negotiations now pending between the Mother Country and these Colonies. We believe that, in accordance with the Royal instructions, the administration of the Government, in his absence, will devolve on the senior military officer in the Province, Lieut. Col. MURRY commanding the 72nd Highlanders.—*Church Witness*.

A NEW PEN.—The Gutta Percha Pen is the name of a new article just introduced. They are a composition of gutta percha and metal, are durable, and will not corrode. Those who have used them think them superior to any other pen, and they are commended as not requiring to be wiped after being used. The gutta percha and metal are imported, and they are now manufactured in this country.—*New York Mirror*.

The *Preston Chronicle* says that a woman living in that town lately caused the two "eye teeth" of her daughter to be pulled out, in order that the child might look older than she really was. The cruel mother hoped that the surgeon might thus be deceived, and certify that the girl was thirteen years old, so that she might work full time in the mill where she was employed.

CHINA—BURNING OF HONG KONG.—The barque William Watson, arrived at San Francisco from Hong Kong, brought the intelligence of a most disastrous conflagration there, which destroyed nearly the whole city. Hundreds of lives, it is said, were lost, and every newspaper office was destroyed. The public market was destroyed, and much suffering was the result. The total loss was put at \$4,000,000.

It is ordered, that the heading of public documents which formerly ran: "In the name of the French people," shall be, hereafter, "Louis Napoleon, President of the French Republic," to all present and to come, greeting, (*salut*),—a step in the easy transition to "Napoleon II," etc., by the Grace of God."

MARRIAGE IN HIGH LIFE.—The *Vienna Zeitung* records the marriage of Herr Liebessell, Kaiserlich, Koniglicherdritter, Oberhofstaatsgerichtsrathscanzleiuinrpectionstitut and Sandy Lachenmayer, Kaiserlich Renighliche Tabackstrafiksanwartschaftsiababer Tochter.

It is stated that in the town of West Newbury there were raised and put up, last year, of marketable apples, fourteen thousand and nine barrels, worth about \$28,000.

A man who will pursue any business or calling in San Francisco is obliged to buy a license.
