

JAMAICA.—The Georgia brought dates from Jamaica to the 18th inst. The difficulties between the Governor of the Island and the Legislature with reference to the revenue bill, still continue. The Governor had sent in his Message, in which he says, that the revenue acts having expired on the 30th of April, the treasury will be deficient on the 15th of October next to the extent of some one hundred thousand pounds, and that there will be no means to pay a fifth part of that sum. In consequence of this state of affairs, he says that he is preparing to release all the convicts and discharge the police force, as he has no authority to run the State in debt to feed prisoners and pay the police. On the 18th inst., the Assembly appointed a Committee to prepare an answer to the Message, which was to have been reported on the 19th inst. In the meantime a motion was made in the Assembly to draft a remonstrance to Her Majesty's Government, praying that the Governor may be removed from office.—*Boston D. Adv.*

By way of New Orleans we have received late and highly important intelligence from Mexico. The stringent policy adopted by Santa Anna, since his re-instatement as President of that country, has already produced revolution and bloodshed. Owing to a decree for the incorporation of the National Guards with the troops of the line, a sanguinary conflict took place between these parties at Vera Cruz, on the 17th inst. The fighting lasted for three days, and was finally checked by the entrance of a large body of troops from Jalapa. Some fifty of the National Guards were killed, and a large number were wounded. During the conflict business was entirely suspended, the Guards having possession of the streets, and the regular troops of the two forts. Verily, this is a sad beginning for a man who, it was fondly hoped by the Mexicans, was to restore peace, happiness, and prosperity to the country. But what else can be expected under the circumstances? Instead of striving to smoothe the waves of discontent, Santa Anna has commenced his government by issuing decrees against the liberties of the people and the press, more becoming the crowned tyrants of the dark ages than the President of a republic of the present era. Among other measures recently adopted by Santa Anna, is the degradation, by decree, of all Mexican officers who surrendered to Gen. Scott and the American army. This is the coolest piece of assurance we ever remember to have read of. After providing, by every means in his power, for his own instant flight, and leaving his subordinate officers to be taken prisoners or killed, this modern Napoleon, as he styles himself, embraces the first opportunity to degrade those high-minded men who would not follow his example and seek safety in inglorious "leg bail." Cool—very!—*N. Y. Herald.*

DOG SELLER.—"That 'ere hanimal's the real stock, mum, and dog cheap at thirty dollars."

YOUNG WIDOW.—"It's a sweet, pretty darling—black and white; but in my present beavement, you must procure me one entirely black. This will do me very well in about six months, for half mourning."

Boston has raised and expended for school purposes during the last eleven years, the sum of \$2,810,862 40.

Doctor Franklin said that it cost as much to maintain one vice, as it did to bring up two children. At this rate what an enormous family most young men could bring up—for bad habits are vices. The cost of respectable intemperance would pay the expense of a family.
