

THE NEWS-BOY'S  
ANNUAL ADDRESS,  
—TO THE PATRONS OF THE—  
**CARLETON SENTINEL.**  
JANUARY 1, 1853.

ANOTHER HAPPY NEW-YEAR'S DAY,  
Has brought your Printer Boy again,  
To offer you his humble lay;  
With tribute, generous, you may,  
His labor for the past repay,  
Whose sought your door thro' snow and rain.

With cheerful voice your Halls resound,  
While echoes there his call of *News*,  
And once a week, at least, you've found,  
A recipe to cure the blues.  
A willing hand inspires his muse,  
Now don't!—I know you can't refuse.

Throughout the year we blest have been,  
The horn of plenty open found,  
Nor Wars, nor strife, nor ruptures seen  
—Except the Fish! some talk I mean,  
Provincial hearts with hope abound.

The Parent state, the Great, the Free;  
The Alpha of all nations she;  
With sway so mild Victoria's Reign  
A dastard act 'twould be to pain,  
Whose love inspires true loyalty.

The Prince, and Boyal Babies too,  
The Scotch admire. The Irish—who?  
—'Tis honor in a high degree,  
To e'er maintain religiously,  
A due respect for powers that be.

Peace to the ashes of the dead,  
With muffled drum and measured tread,  
The troops of Britain mourn;  
Old England's lost, her noblest son.  
Arthur the brave, Lord Wellington!  
To silent grave is borne.

Across the channel *Crapeau's John*,  
In bull-frog chorus loud and strong,  
"L'Empereur" their voices raise;  
Alchemist Louis, late of *Lunnon*,  
In golden dreams a Crown was *runnin'*,  
Now plays a tune called *cease your funnin'*  
And doth the world amaze.

Is the genius of Napoleon found,  
Or is't the name inflating sound,  
That Frenchmen love and fear?  
The Senate to the winds have thrown,  
The French Republic and the Crown,  
Adopt—confounded queer!

Railroads now are all the go,  
From Shediac to Shithabow,  
The place where clams and oysters grow;  
Saint John crustaceously inclined,  
On bivalves fed the coast ne'er mind,  
With foreign cash their pockets lined  
To pay the Bills,  
For Jackson, Brassy and Peto,  
Will do the business up you know,  
And make the dose so pleasant, oh!  
With sugar coated Pills.

The Show at Fredericton's the next  
Point, to be touched on, in the text,  
'Tis most important too, I trow,  
Why didn't more from Carleton go?  
Provincial industry's a theme  
We ever highly should esteem,  
Tho' some of Annexation prate,  
Let's raise our own Provincial state,  
Untiring energies unfold,  
And far surpass the lands of gold,  
For *mind's* the standard we are told.

Tho' rich in *mines of woods* we boast,  
More highly still we prize our *coast*,  
A thousand sails, our bays present,  
With hearts elate and minds intent,  
The *finny* tribe to catch,  
But Jonathan so *scaly*, lo!  
In British waters he must go,  
A quarrel fresh to hatch;  
Should British Statesmen recreant prove,  
And ancient bounds attempt to move,  
Let's faithful to ourselves e'er prove,  
Nor slumber more—  
But sound the tocsin far and wide,  
Provincials rally side by side,  
Demand your rights whate'er betide,  
"Three miles from shore."

'Tis twelve o'clock, I'm almost napping,  
And there's that humbug spirit rapping,  
Believed by folks, a few,  
Of all departed that's come back,  
At call of Joe, or Jim, or Jack,  
There's one tho' medium's full you'll lack  
The ghost of *fifty-two*,  
And now good folks, *adieu* *ADIEU*.

The sale of Pews in the new Wesleyan  
Church, took place on Monday, and the way  
they *—* why, it was very satisfactory to the  
Treasury of the Church.—*Fredericton Head*  
*Quarters*.

As proofs of the mildness of the season, it is mentioned that fine strawberries were picked from vines in the open air at Germantown, near Philadelphia, on the 11th inst; that a lively butterfly just from its chrysalis state, was seen at Hartford, Conn., on the 10th—and that flowers in profusion were in bloom in that neighborhood at the same time.

The skeleton of a cat and a rat, in excellent preservation, have been found in Gerard Hall's crypt, London. The rat was firmly held in the mouth of the cat. It is thought they had lain there 480 or 500 years.

THE ARMY OF JAPAN.—A writer in the last number of the Edinburgh Review, says that the military force of Japan consists, by the latest accounts, of 300,000 infantry, and 50,000 cavalry, and that the soldiers are careless of danger and indifferent to life. Where one combatant falls, another will step into his place, and another, and another, as if their only object were to exhaust the fire of their enemies, and then overpower them by sheer numbers.
