

tions in aid of the funds necessary to provide for the large expenses that must be incurred.

It will be seen by the schedule and classified list of the objects for the Exhibition, already published, that it will be open to all the natural productions, both mineral and vegetable, of the Province; to all kinds of agricultural produce; to all articles of home manufacture of every description; to Cattle, Horses, Sheep, Pigs, Poultry, and Cured Meats of all kinds; and to specimens of all the different branches of the fine arts.

Farmers, Gardeners, Manufacturers, Musical Instrument Makers, Jewellers, Watch and Clock Makers, Carpenters, Wheelwrights, Blacksmiths, Whitesmiths, Founders, Mill Owners, Carriage Builders, Boot and Shoe Makers, Saddlers, Harness Makers; and indeed all descriptions of Mechanics, Artisans and Artists, are all therefore strongly invited to come forward with the respective productions of their industry, labor, skill, ingenuity, and ability, in their different callings, for a generous competition with each other for excellence, and thus show what the resources of the Province are, and what the people in it can do. The Ladies of the Province are also solicited to exert their talents and ingenuity in fancy and ornamental work for the Show.

Liberal Prizes will be awarded to the victors in this praiseworthy rivalry, a list of which will be hereafter published as soon as it can be prepared and arranged. Pecuniary assistance to a limited amount, so far as funds will permit, will be placed at the disposal of the respective Local Committees for Counties at a distance from Fredericton, to afford aid to such persons as may be in need of the same in the expenses of transmitting their articles for competition to the Exhibition; and the more liberal the subscriptions from such Counties are, the greater will be the amount to which such aid can be extended to them.

The Exhibition will be opened by His Excellency the Lieutenant Governor, in person, on Tuesday the 5th of October next, and closed on Saturday the 9th, during which time a Fair will be held with the Exhibition, at which Ploughing Matches, Regattas, and various kinds of public amusements and sports will be hereafter provided, as the object is to make this great Exhibition a Show not only highly beneficial to the Province at large, and thus carry out the most important objects of the Society, but also instructive and amusing to all who attend.

The use of the Province Building has been kindly granted to the Society, for the occasion in which all articles of a nature to require great care, safe keeping, and protection from the weather, will be placed.

Every exertion will be made to provide the means of comfortable accommodation in Fredericton and its immediate vicinity, for visitors to the Show.

It is hoped and trusted that the public press of the Province—that powerful engine for promoting all great undertakings—will be exerted in behalf of this good cause, and that the Editors of Newspapers in the several districts of the country will give insertion in their respective papers to this communication, and exert themselves to give general information on, and keep the public attention alive to, all matters connected with the scheme, which may tend to its success and excite an extensive spirit of enterprise and desire for excellence among the people.

G. F. STREET,
President of the Society.

Colonel Murray, and the Officers of the gallant 72nd Highlanders have kindly consented to do what may be in their power to aid the Exhibition.

THE CARLETON SENTINEL.

SATURDAY, JULY 24, 1852.

The illness of the Editor and the absence of one of the hands from the Office will, we trust, be a sufficient apology to our readers, as well as our advertising friends, for the issue of only a half sheet this week. Next week, however, we hope to be able to resume our wonted size.

Last week we made some observations and inserted some communications concerning the celebration of the Battle of the Boyne.—Since that time we have received communications from all parts of the Country, affording the most gratifying accounts of the manner in which this most memorable day was celebrated. Peace and good will prevailed throughout the whole, which must be gratifying indeed to every member of the community. The last, not least, of these communications was from a "A Visiting Brother," of the Williamstown Heroes, No. 56. Our good brother will excuse us for not inserting his communication, as space will not admit. Suffice it to say that every favor we have received goes to show that we are neither *dead* or *dying*, but fully alive in the good old loyal Protestant principle for which our Country ever has been and ever will be remarkable.

THE ANGLO-AMERICAN MAGAZINE.—The first number of a new magazine with the above title, published in Toronto by Mr. Thos. Maclear, has just made its appearance. It is the best work of the kind we have ever seen, and our Canadian exchanges speak of it in the highest terms. Persons in the Colonies who wish to subscribe to a good Magazine, not filled with the *wishy-washy* trash to be found in American periodicals, with which the Provinces are now flooded, should at once subscribe to the *Anglo-American*. Each number is to contain one or more original papers on subjects connected with the Colonies, besides tales, biography, &c. We shall have much pleasure in forwarding the names of any of our friends who may wish to patronise this work. It contains 96 double-column pages, and is to be issued on the first of each month. Price only \$3.

The Halifax *Wesleyan* comes to us this week considerably enlarged, in the altered form of a folio, with a new heading—"The Provincial Wesleyan," and much improved in typographical appearance. It is now the largest paper printed in the lower Provinces, and withal the best religious paper we know of.

On Friday, the 9th July, an interesting Division of the Sons of Temperance, characterized under the name of Colebrooke Division, No. 70, was organized at the Grand Falls, by the G. W. P., James Johnson Esq., assisted by P. W. P., A. K. S. Wetmore of Melancthon Division.

The following persons were initiated and installed as the Officers for the current quarter, viz.:—

Chas. A. Hammond, Esq., W. P.; Ward C. Burpee, W. A.; C. Crookshank, Esq., R. S.; W. D. Kearney, A. R. S.; A. W. Rainsford, Esq., F. S.; D. Langen, T.; N. Churchill, C.; N. Gallop, A. C.; J. Leslie, I. S.; O. Curtis, O. S.; Elijah Estabrooks, assigned the chair of the P. W. P.

The *New York Times* says that Kossuth has realized about \$150,000.

DEATH OF THE OLDEST METHODIST MINISTER.—On the 8th of December, near Liverpool England, died Rev. Geo. Highfield, a Methodist preacher, aged ninety-one. He was called to the ministry by John Wesley, 1785, and continued in his pastoral labors for sixty-seven years.

We learn by telegraph, that John Jordan, Esq., was returned by a large majority of the Freeholders of the County of St. John, to represent them in the General Assembly.

The County Council has closed its semi-annual session. We will publish the sayings and doings of the Councillors in our next.

ST. ANDREWS & QUEBEC RAILROAD.—The ship Speed, with a number of men to be employed on the Railroad, with their families arrived at St. John last week, and were landed here from the steamer Nequassett on Thursday last; they are fine, hearty, robust fellows. Several Engineers and other gentlemen to form the Staff of an efficient Railway corps also came out in the same vessel. On Friday last, the large party partook of an excellent Dinner, at Phaasant's Hotel, given them by their spirited and generous employer, G. W. King, Esq., one of the contractors, upon whom the direction of the line devolves, to whose business energy and tact the rapid progress which has been made with the work within the last fortnight, may be attributed. Some time must elapse, however, before the necessary preliminary arrangements can be completed, "to put on the steam"—and place large crews of men along the line, but from present appearances a few days will be sufficient to make all things ready. The iron rails are now placed near the track for the purpose of being laid down immediately; the Locomotive, the "Pioneer," as it has been aptly named, has been cleaned and made ready for action at any moment, and the time is fast drawing near—that great crisis in the annals of New Brunswick, when the first engine will commence running on the St. Andrews & Quebec Railroad; a happy consummation truly, to the hopes and fears of its projectors and ardent friends.

The men who came in the Speed commenced work on Monday last, and with the large force already employed are driving on with an activity which leads to the conclusion that patience and perseverance will accomplish wonders.—*St. Andrews Standard.*

THE STOCKPORT RIOT.—This riot appears to have been one of the most fearful character.—Its origin is stated as follows:—

The Roman Catholic schools announced their intention of walking on Sunday, and the Protestants directly reminded them of the Proclamation, and in such terms as to indicate the worst of feelings. The procession took place however, and was peaceably conducted, a body of Irishmen, four abreast, marching in front as an advance, and others accompanying it as a safe guard. It is said that many of those who formed the guard were strangers. There were in the procession a few crosses, but little display of any other kind—no canonicals, no guild dresses. Sunday night passed off with quietness, but on Monday the breach of the Proclamation formed the subject of much conversation in the town, and at night a party of Irishmen and Englishmen meeting at a public house, and getting from words to blows, the Irish ran into John street and Edward street, and got a reinforcement from their countrymen. The English also sought support, and in the end the Roman Catholics were beaten, and many ill treated. The result of the fight was one man killed and sixty wounded. Several houses were torn down, and the Catholic chapel sacked; the organ, altar, and furniture burned in a bonfire, and nothing left but the bare walls. The military was called out, and succeeded in quelling the riot. The recent Proclamation of the Queen was the cause of the disturbance.

DISTURBANCE AT HAMILTON.—In consequence of a special telegraph received in this City, that the Railroad *navvies* had assembled in considerable force at Hamilton, to waylay and murder the Orangemen from that city and neighborhood on their return, they were detained here till the afternoon boat of yesterday, hoping that by that time the Railroad-men would
