

**THE FISHERY QUESTION.**—By reference to the report of the proceedings in the United States Senate yesterday, it will be seen that Mr. Mason of Virginia, Chairman of the Committee on Foreign Relations, introduced a resolution of inquiry into the subject of the Fishery troubles on our Northeastern coast. The President was requested to communicate to the Senate all correspondence touching the matter, since the convention of 1818. Information was also requested as to whether any portion of the navy had been ordered to the North for the protection of the rights of American fishermen. A feeling of indignation against the British Government, for ordering upon the coast an armed fleet, without notice or warning, was very generally expressed in the speeches of the Senators. The resolution was adopted unanimously.

It is stated that the U. S. ship Albany, Charles T. Pratt, Commander, which arrived at this port on Wednesday, will proceed to the disputed fishing grounds as soon as she receives the necessary stores. The Albany carries 22 guns. —Boston Journal.

**SINGULAR DEATH OF A BOY.**—Thomas Larkin, 13 years of age, while bathing in the river at Windsor Locks, Ct., was heard to utter a cry of pain and sink, with a backward motion, as if drawn under. The boy who was with him and saw him sink, raised an alarm, and Mr. W. B. Turpin, of Springfield who was at work in the vicinity, immediately proceeded to the spot, and dove in after the little fellow. He found him about 20 feet from the spot, where he was seen to sink, lying on the bottom, with his face downward. When taken from the water he was dead and upon examination the fleshy part of his leg appeared to have been bitten, as if by a large fish. Upon one side were seven incisions of the depth of three quarters of an inch, and six upon the other. They were evidently made by the teeth of a fish, and of what kind is a question. —Springfield Post.

**AN AMERICAN CAPTAIN MOBBED BY NEGROES.**—Barbadoes, dates received to June 23. A case of Lynch Law occurred on the 19th, which had caused considerable excitement. Captain Evans, of schr. Sally Evans, during a scuffle on board his vessel, unfortunately killed a negro. Intelligence reaching the shore, a large mob of negroes collected, and putting off to the schr. in boats seized the Captain and brought him on shore, where they were only prevented from murdering him by the intervention of the police. Capt. Evans was committed to prison to await his examination in August.

**FIRE AT HOULTON.**—Last Monday night a large part of the buildings at Houlton belonging to the United States, and formerly occupied by the garrison there, were consumed. They were undoubtedly set on fire. The buildings burnt were the commissary store, officers quarters, theatre building and one half of the soldiers' barracks, covering the west and north wing of the square. The buildings probably cost the government over \$20,000.

**JAMAICA.**—Kingstown papers to the 9th inst. have been received at New York. The small pox was still raging in various parts of the Island,—particularly at Hanover and Montego Bay. The Pimento crops on the lowlands of St. Anns, it is thought, will be a total failure.—The Estates in Trelawney were suffering from the want of rain. In some districts the land is completely burnt up. There was a great dearth of provisions at Montego Bay.

**ACCIDENTS FROM STEAM.**—A report from Mr. Corwin, Secretary of the Treasury, shews, that of all the steamers in the United States, one-tenth part are annually destroyed by fatal accidents. In the year 1851, on the lakes and rivers there were lost, one hundred and eighteen steamers, and six hundred and ninety five lives!

Amongst the curiosities in the Cork Exhibition is a surprisingly wrought model of a ship of war, which the public are informed was made from meat bones by a patient in Dr. Osborne's lunatic asylum, and which is finished with the most perfect neatness.

The first swallow tail-coat that old Sourby got, so displeased him, that he starched the skirts and used it for a boot-jack.

"I HAVE THE READING OF IT EVERY WEEK."—It not unfrequently occurs, when persons are asked, if they will subscribe for a newspaper, or if they already take it, that they reply,—“No, but neighbor B, takes it, and I have the reading of it every week.”—Such often add, that they like the paper, and sometimes they say they consider it “the best paper they know of.”—They are benefited by the toil, perplexities, and expenditure of those who receive nothing from them in return. Reader, if you feel reproved, just send your name, and take the paper yourself, not forgetting to pay for it.

THIS Institution will continue to be conducted upon the same principles which have rendered it so generally popular, and secured for it such extensive patronage from almost every part of these Provinces. It has now been opened and in successful operation upwards of nine years. The arrangements which were made to accomplish the important object for which it had been founded, were such as obtained for it, from its very commencement, a high position in the public estimation; and those upon whom the direction of its affairs has devolved, have been stimulated and encouraged by its prosperity, to continued efforts to render it, in all its departments, ever increasingly efficient. Every year in its history has, consequently, been marked by valuable additions to its Educational facilities, and by more or less extensive general improvements throughout the Establishment.—The attention of young Men, and of Parents and Guardians of Youth, is, therefore, respectfully invited to it, as an Institution where the advantages of a thorough intellectual training may be obtained in safety and comfort, and under most favorable circumstances.
