Since our last issue, two of our principal citbloodshed. The immediate occasion of all this has been the telling lectures of Gavazzi against the iniquities of Romanism. The Padre has been at head quarters, and behind the dark curin order to render an unquestioning obedience to their priests, have sacrificed their manliness, their intelligence, their common sense, nay, their individuality, Like blood-hounds, thirst-Montreal, sought the life of the noble Italian Gavazzi. Crawling timidly along behind the ponderous car of French Canadian Popery, lashed in like hounds! What precious editors are these! What exalted conservators of public morals! How interesting it must be for a pious and liberal minded man, the father of a rising family, to find himself a subscriber to journals who can in one breath condemn riot and free discussion. Riot must be stopped by arresting such men as Gavazzi, and gagging in the House of Parliament the fearless member for Kent. Let Gavazzi cease laying bare the hideous deformities of Romanism, and he tempts to gain exclusive civil privileges, and no mob will demand him as a victim on which to reak their vengeance. ## THE LATE RIOTS IN LOWER CANADA.

The Montreal Witness concludes an able ar. ticle on the recent fierce attacks on Gavazzi with the following reflections :-

Many intelligent Roman Catholics, and some Protestants, lay the blame of the disasterous events of the past week on Father Gavazzi, and those who countenanced him; but these men, considering the better knowledge they possess appear to us greater traitors to civil liberty than ies have been disgraced by riot, violence, and the rioters. The question is not whether Gavazzi is good or bad, or whether he speaks truth or lies, but whether the right of meeting and speaking, and hearing what people choose exists in Lower Canada or not. We know it tain which conceals from the common gaze the does not exist in France, or almost any country monstrosities of the Papal system, and his dis- in Europe. There a government censorship closures have awakened the ire of those who prevents it, and such a censorship is to be preferred to that of a mob. We know it does not exist in the Slave States, where a system that like Romanism cannot endure discussion or investigation, quenches free speech in blood; ing for their prey, they have in Quebec and but we did, until last week, think that it existed in Lower Canada.

The reflection has occurred more than once, but human life has been sacrificed to appease that the extreme irritation of the Roman Cathothe rage of intolerant bigots. A man who lics against Father Gavazzi, and those who sought to influence us only by argument-an countenance him, must arise from the idea, unarmed and solitary stranger, whose heart that he is brought forward for the purpose of bleeds for the wrongs of his country, who came insulting them-than which no idea can be to point out his country's bane; has been driven more groundless. > Finally, deeply trying as is this present time for Christians in Quebec and Montreal, who are living as it were in a state of seige, harrassed by threatening and by these nocturnal assaults upon defenceless individuals, which are peculiar to Roman Catholic countries, we believe that it will all turn out for the furtherance of the Gospel. We think that the effect of Father Gavazzi's reception here, will be to convince Britain, the United States, and Canada West more fully that they must do nothing to foster or encourage a system which will not hesitate to trample their rights in the dust; and to convince all, that the only effectual remedy for those lawless passions, which threaten the destruction of society, is renewed, and incessant efforts to spread the Gospel of peace, purity, and love. We therefore take the liberty of exhorting Protesants to patience, constancy, and forgiveness of injuries, remembering Him who commanded you to pray for those who despitefully use you and persecute you.
