THIS Institution will continue to be conducted upon the same principles which have rendered it so generally popular, and secured for it such extensive patronage from almost every part of these Provinces. It has now been opened and in successful operation upwards of ten years. The arrangements which were made to accomplish the important object for which it had been founded, were such as obtained for it, from its very commencement, a high position in the public estimation; and those upon whom the direction of its affairs has devolved, have been stimulated and encouraged by its prosperity, to continued efforts to render it, in all its departments, ever increasingly efficient. Every year in its history has consequently been marked by valuable additions to its Educational facilities, and by more or less extensive general improvements throughout the Establishment. The attention of Young Men and of Parents and Guardians of youth, is, therefore, respectfully invited to it, as an Institution where the advantages of a thorough intellectual training may be obtained in safety and comfort and under most favorable circumstances.
