

Communications.

To the Editor of the Carleton Sentinel.

I am well aware that it is next to impossible for a Public Officer to please all who may be interested in his acts, and that which ever way he may turn he will find some ready to complain. This we have lately found exemplified in the charges made against the Commissioner of Roads in this locality. If the party so loud in his complaints against Mr. Appleby had followed up the subject a little further, or had he looked nearer home, he would have found real cause of complaint, and could have made out a grievance without drawing upon the imagination. I will mention a case or two and if any are found with hardihood enough to contradict my statements, I stand ready to prove them, at any time I may be called upon to do so.

One of the By Road Commissioners for this Parish, (Simonds,) has now in his hands some twenty pounds of the Public Money which has never been expended. Some say he laid out the percentage and kept the principle. Be this as it may tax-payers here would like to know how he has made his returns! I hope our representative will look at these returns, and if they find the sum still in his hands, they will enquire why it has not been laid out; and if the returns have been made setting forth that the whole of the money has been expended, I beg to inform them that such is not the case, the twenty pounds still remains in the hands of the Commissioner unexpended.

Another fact I would wish to draw the attention of our Representatives to is this. An individual, and I may as well give his name, Mr. James Buchanan, wished to have the privilege of expending the money on the great road leading from Buttermilk Creek to the Boundary line, in the place of Mr. Appleby, late Commissioner. He well knew that if a petition was got up recommending him, that it would receive but few signers—he therefore got up a petition leaving the name of the Commissioner blank, telling the people it was to be filled up with the name of Mark Tracy. In this way he obtained quite a large number of signatures, and when he thought he had enough to answer his purpose, he filled up the blank with his own name.

This, Sir, is how Mr. Buchanan came to be recommended as Commissioner, and I leave you and your readers to judge how far he is to be trusted with the Public Money.

Yours, &c., QUEERIST.

To the Editor of the Carleton Sentinel.

SIR,—As Mr. John Gilchrist of Ghost Notoriety "Cedar Swamp, Prince William," does not seem to have received his newspapers from the parties who have called for them in his name, would you have the kindness to inform that *Gentleman* that from and after this date all letters and papers to his address passing through this office will be delivered strictly in accordance with the Bond of a Way Office Keeper viz. "to the person to whom they are addressed," and that I have fixed my office hours at 9 to 4 o'clock on week days with an hours intermission for dinner. The courtesy heretofore extended to him by delivery of letters or papers before or after that time will be discontinued,—and further, that having subscribed to the "Provincial Patriot" and "St. Stephen's Banner," some months ago and paid for it in advance, I have felt myself at perfect liberty to use it in any way that may suit my convenience.

I am, Sir,

Yours Respectfully,

JOHN HEA, JR.,
Way Office Keeper, Prince William.

SIR,—An answer to Mr. Jacob's communication of the 25th, will appear next week.

Yours, &c., E. R. WATSON.
Woodstock, March 29th, 1854.

Hon. Mr. Partelow.

The Hon. Provincial Secretary, as will be seen by our Legislative Reports, says that he expects soon to represent the County of St. John in the General Assembly. In 1850, we think the electors of St. John showed him plainly that they did not require his services, and nothing that we know of has since occurred to raise him in their estimation. Like the Hon. Mr. Gray he is ready at any moment to turn traitor to his former avowed principles, if he thinks he can thereby elevate himself, and obtain a few additional voters. The electors of St. John have yet some faint recollection of his connection with the office of Chamberlain of this City; his electioneering affairs in Victoria County; the mystification of the Auditor's Accounts at the last session of the legislature; the mutilated book, and the many no very trifling affairs which unhappily for his reputation have leaked out. Some of his friends here argue that if he is defeated, Mr. Ritchie might get elected. Now we think it possible not only to keep out the Hon. Provincial Secretary, but prevent the return of Mr. Ritchie also. Even if the defeat of the latter depended on the return of Mr. P., is it not as well to risk the chance of having an open enemy, as to elect a professed friend who is ready to turn traitor when he sees

Mr. Johnston gave notice of an address, in reference to the sale of Crown Lands in St. John.

A Bill to incorporate the St. John Fire Insurance Company—passed.

The Attorney General moved for a select Committee to report on the training school in St. John. Hon. Mr. Connell and Mr. Hatheway opposed the motion on the ground that the Government being the Board of Education, ought to possess all the necessary information and report to the House—motion carried.

Hon. Surveyor General wished to make a few remarks in reference to Mr. Johnson's motion, and spoke of statements made in the Freeman as to Manufacturing Votes by the improper sale of Crown Lands, and denounced the statements as utterly false.

Hon. Mr. Gray endorsed the statements made by Hon. Surveyor General, and considered the paper as not fit to be countenanced in any communi-

Hon. Provincial Secretary was totally regardless of the abuse of the papers—he had been abused for the last twenty-five years, in most all the papers and was able to take care of himself!!

The Bill containing the condensed laws passed to-day. Chairman reported accordingly under an amended title.

In supply a long debate on a motion to place £2000 in the hands of the Government to buy up mining leases—resolution sustained, yeas 17, nays 16—Amount to fill up the Blank not agreed to—come up again to-morrow.

BLOOD HOUNDS.—The following, which appeared lately in the North Carolina Observer, tells its own story of the beauties of the patriarchal institution:—"Sale Extraordinary.—Mr. J. L. Bryan, of Moore County, sold at public auction, on the 20th inst., a pack of ten hounds, trained for hunting run-aways, for the sum of \$1540. The highest price paid for any dog was \$301; lowest price, \$75; average for the ten, \$154. The terms of sale were six months credit."

THE PILLAR OF PEACE FALLEN DOWN.—The London Times of the 22d ult., on the same page which contains the following announcement of the preparation for a European war, and of the first embarkment of troops for the service, contains by an apparently accidental coincidence the account which follows, of the downfall of the *Pillar of Peace*, erected forty years ago, in commemoration of the abdication of Napoleon the first.

The appointment of Quartermaster-General under Lord Raglan's command has been offered to Lieutenant-Colonel Pennefather, C. B., Deputy Quartermaster General in Ireland, and will, it is believed, be accepted by him. The post of Adjutant-General is now, therefore, the only important one in the staff of the expeditionary army that remains to be filled up. Last night's *Gazette* contains the names of Lord Raglan as General, [better known as Lord Fitzroy Somerset,] and of Colonel Bentick, Colonel Sir Colin Campbell, Colonel Airey, and Colonel Pyre as Brigadier-Generals of the Forces "about to proceed on a particular service."

We understand that the Ripon, the Manilla, the Orinoco, and Niagara sail with 3,300 men to-day, the Cambria and Vulcan, with 1,500 on Friday next; the Himalaya, with 1,400 on Monday; the Emeu and Simoom, with 2,000 on this day week; and the Golden Fleece and the Atrato, with 2,200 shortly afterwards. The Mediterranean brigade will be formed from the 44th, at Gibraltar, and two regiments at Malta.

The Pillar of Peace.—Travellers by that portion of the Lancashire and Yorkshire Railway which passes through the picturesque vale of Todmorton will have had their attention drawn to a tall column reared upon one of the highest cliffs in the whole of that part of "the backbone of England" which there divides Lancashire and Yorkshire, and situated at a distance of a mile or a mile and a half from the railway. It was one of those commemorative pillars by which the people in those wild districts sought to express their feelings when the wars arising out of the French revolution were completed by the overthrow of Napoleon, and we believe not fewer than 203 persons subscribed towards the cost of its erection. It was commenced in 1814 immediately on the abdication of Napoleon and was completed in 1815, soon after his final fall, Mr. Thomas Sutcliffe, of Stoodley-bridge, supplying what means were still required for the purpose; and there it remained until Wednesday se-night, a suggestive memorial of the blessings which peace had brought to the two counties it was placed between. On that evening, however, the people of Langfield were alarmed by a loud noise, resembling the falling of rocks, or of some large building; and on looking towards the Pikehead they found their old landmark was no longer visible, but the stones of which it had been composed lay in ruins near its base.

A man in this place, who don't take the *Sentinel*, was told the other day, that Kalafat was taken,—"I don't believe it," said he, "Kalafat is just as good a General as any of them."

Deaths.

On the 17th Feb., James Healy, fourth son of Mr. James Healy, aged 17 years 1 mo. and 7 days.

The Great Medical Necessity of the Age Supplied

DOW'S

Anti-Bilious and Family Aperient PILLS!!

A SAFE MEDICINE AND A SURE REMEDY IN ALL DISEASES OCCASIONED BY DERANGEMENT OF THE STOMACH, LIVER OR BOWELS.

THE Proprietor is quite aware of the prevalent distrust existing in this Province of every medicine which professes any general remedial efficacy, and he is not ignorant that even among those who believe in the efficacy of one or other of the many forms of Proprietary Medicines, now offered to the public in Europe and the United States, the introduction of a new one may be considered unnecessary. He therefore feels it due, alike to himself and the public, frankly to state his reasons for offering this medicine, and the grounds of his conviction that it will be found serviceable in the large class of cases for the treatment of which it is recommended.

The practitioners of medicine in every country, have found it desirable and necessary to possess a safe and effectual CATHARTIC, available at all times, and applicable in all the extensive and constantly recurring diseases in which a specific action upon the Stomach and Bowels is required, and the proprietor is perfectly familiar with the formula of all the most famous medicines employed for this purpose in the Colleges and Hospitals of Europe and America and adopted in the medical practice of this Province.

Dr. Dow has been convinced by a close observation of the effects of the medicines just referred to, that such a cathartic as he has designated is still a desideratum, and he has bestowed the most careful attention and extensive experiments in order that he might furnish to his profession and the world, a Remedial Agent at once safe and efficacious.

It has not escaped the attention of the proprietor of these Pills, in the extensive professional patronage which he has now enjoyed for some time past in New Brunswick, that the effects of particular medicines on particular diseases, are very seriously modified by the climate, and habits of the people of the country, and he is convinced from personal observation that medical treatment to be safe and effectual, must be accommodated to these peculiarities.

His original formula for these pills although justified by science and experiments, has been modified from time to time by the proprietor to suit the peculiarities to which he has alluded, and he now offers them to the people of North America as the best and safest.

ANTI-BILIOUS & FAMILY APERIENT!

Dr. Dow no more hesitates, [after the testimony which has been afforded in his own practice,] to claim for these pills an entire superiority over all now in use, than to deprecate the idea of recommending them as possessing any miraculous power or life giving virtue. He would as particularly and emphatically warn the public that it is in a special class of diseases, and only in a special class that his Pills will be found specific, as he will confidently assert that their perfect efficacy in the class of diseases has been demonstrated by an extensive administration and a uniform success.

Dr. Dow therefore unhesitatingly presents these Pills to the public as a reliable

FAMILY PHYSIC,

well and carefully tested, and appealing to the general confidence by its past effects in a course of practice, in which for the last year from

200 to 300 have been administered daily!

These Pills will be found safe in their operation, sure in their effects, and beneficial in all the diseases to which they profess to be adapted, viz:

Dyspepsia, Indigestion, Sick or Nervous Head-ache, Palpitation of the Heart, Heart Burn, Sickness or Weakness at the Pit of the Stomach, Jaundice, Impurity of the Blood, Pain in the side, Derangement of the Liver, disordered state of the Bowels, Costiveness, Piles, &c. &c.

As a preventative of Sea sickness, these Pills will be found invaluable.
