Arrival of the Africa.—News Important.—Forshadowing what is likely to take place, rather than furnishing any striking events from the Seat of War.

Turks are now acting on the offensive, and have gained some advantages over the Russians on the Danube.

A pitched battle between Gortchakoff and Omar Pasha soon expected near Giurgevo, the English and French are very uneasy in regard to the equivocal position assumed by Austria and Prussia.

Spanish news is conflicting, but insurrectionists certainly maintain themselves.

Breadstuffs decidedly lower.—Flour 2s. decline. What, 4d. to 6d. Corn, 2s.

Highway Robbery.

As Mr. Shield, a Schoolmaster in Richmond, was returning to his house, from the Scotch Corner, on Tuesday evening last, he was way-laid by two young men named Carvill and Donance, who after knocking him down and cutting him severely about the head, rifled his pockets of what money he had in his possession, although we understand they were disappointed in the amount upon his person, as he was supposed to have had his School allowance about him. Warrants are now in the hands of the Officers for the apprehension of the offenders.

The Fredericton Reporter speaks of Mr. Fisher's acceptance of place, from the present government as an infamous act; at least he says that if the said Mr. Fisher would accept office from the government he would be chargeable with something infamous. We trust the Reporter but expresses Mr. Fisher's own sentiments on this point. When convinced that we were mistaken, we will most cheerfully confess it and humbly ask Mr. Fisher's pardon.—Freeman.

SUICIDE OF TWO PERSONS IN EAST ABINGTON.—A suicide, attended with circumstances of a singular character, occurred yesterday morning in East Abington, the particulars of which we learn are as follows:—It seems that a young man named Isaac P. Nash, a native of Pembroke, but a resident of East Abington, and a young lady named Adriana Sampson belonging in Stoughton, had formed an attachment for each other, but from some cause or other, they were prevented from being united in the holy bonds of wedlock. The young lady was in this city Monday on a visit to an aunt, and appeared in excellent health and spirits. In the afternoon she returned to her home in Stoughton, and towards evening her lover, Mr. Nash, hired a horse and chaise in East Abington and proceeding to Stoughton, took Miss Sampson to ride.—This was the last which was seen of them alive, so far as is yet known. About five, A. M., yesterday Mr. John Sears, who tends Reed's Mill, in East Abington, discovered a horse and chaise, (which has since proved to be the one hired by Mr. Nash—standing near the mill, the horse being tied and carefully covered with a buffalo-robe. On the fence near the chaise, Mr. Sears also found two shawls and a bonnet, which have since been identified as belonging to Miss Sampson; and near by the same spot, he also found Mr. Nash's hat, in which was the following note:—

"My name is Isaac P. Nash. In this water you will find me. I am a perfectly sane man.

P. S.—Bury us both together as you find us.

ISAAC P. NASH.

Mr. Sears upon discovering these things went at once to the mill pond, and soon discovered the bodies of Mr. Nash and Miss Sampson in about seven or eight feet of water with their arms encircling each others necks, and their wrists and arms firmly bound together with a stout cord. He immediately drew the bodies from the water and Coroner Reed was called to hold an inquest thereupon. Circumstances are known which render it very probable that the act was committed after 12 o'clock on Monday night.—Boston Journal, July 12.

A large Russian ship, with 70 men on board, for China, with furs valued at about a quarter of a million sterling, sailed from St. Petersburg a few days before the Calcutta arrived. The master was a German, and had procured double sets of papers, to take her to America if necessary.

Another heavy item to bear down the price of flour is the splendid wheat crop of Canada. It is the wheat crop of Canada. It is calculated that the surplus, for export, will be twelve millions of bushels more than last year.

Melancholy Accident.

An Inquest was held at the Parish of Brighton on the 23d inst, before John Bedell Esq. Coroner, upon the bodies of George Estabrooks, and John Nye, who were drowned crossing the River at Hayden's Ferry. The circumstances attending the death of these unfortunate men, as given in evidence before the Inquest were as follows:—

Samuel Estabrooks Esq., who had driven a horse and waggon from Woodstock, drove into the boat and remained setting in the waggon, after proceeding a short distance from the shore, the horse began stepping backwards, the two men being behind on the stern of the boat. Mr. Estabrooks called out to them to take care, they however had not time or did not heed the warning, the horse continued stepping back, they were shoved off the boat by the waggon, which drew the horse after it in the water. Mr. S. Estabrooks was thrown out, and after struggling for some time in the water was when nearly exhausted rescued by a canoe from the opposite shore. The two men were drowned before any assistance could be given them. A verdict of accidental drowning in accordance with the above facts was returned by the Jury.—Com.

MR. HINCKS IS UP FOR THE COUNTIES.

We have received the first number of Mackenzie's Voter's Guide. The following paragraph illustrates the spirit and power of its appeals to the people.—

Lord Elgin, and his stock of reformers, have stolen a march upon the farmers, have sat still till cholera whether, twelve long months, and asked the farmers to leave their harvest fields in July to elect the Legislature they prevented them from choosing last September.

Elect men of spirit, not cowards. Do it temperately, quietly, peacefully! but not by brute force.

Accompany the work with petitions; to the House of Commons England for a removal of the shackles from the Constitution; and to the House of Assembly, telling them at commencement what are the wishes of their country.

Petitions are invaluable.

See that Malcolm Cameron be sent to grass, and F. Hincks along with him.

Our new Governor is John Henry Manners Sutton, aged 32, if we are to believe the Directory, and grand nephew to the first Lord Manners; a member of the House of Commons since 1847, when he was elected for Newark, a conservative and free trader, in other words one of the small body of conservatives who adhered to the standard of the late Sir Robert Peel. To this party belonged the present Duke of Northumberland, late Colonial Secretary, now Minister of War. We presume this young man will make a good enough sort of a governor; the young men of the little band of Peelites were all very wise and steady young men; some of them indeed quite precocious.—St. John Freeman.

A PLUCKY OLD GOVERNMENT PENSIONER.—A very interesting circumstance occurred at the Admiralty the other day. A fine-looking, hale old man presented himself, requesting to be appointed to the war fleet, stating that one of the Captains would be glad to have him, and though he was not likely to be *au fait* at "going aloft," still he could "stand well to his gun" yet. The old fellow turned out to be Billy Needham, the sailor who saved Captain Brooke's life at the "Battle of the Chesapeake and the Shannon," who entered the Customs Waterguard in 1819, is now on the Customs superannuation list, at 74 years of age (!), and who plies the boat on the ornamental water in St. James's Park. No decided answer was, we believe, given by the Admiralty; but a messenger was sent to the old man with a couple of guineas from a donor *incognito*.

FEMALE EMIGRATION FROM IRELAND TO CANADA.—The Irish Journals received by last Mails state that the poor law Commissioners have received the authority of the Treasury to appropriate £10,000, Sterling, to assist in the emigration to Canada of young females who are now chargeable to their parishes. 1500 will be despatched this year. Some have already arrived, and were immediately provided with situations. Persons in want of such services should be on the look out by communicating with Mr. Buchanan, the active Government Agent of Emigration in this city.

THERE'S LIFE IN THE OLD LAD YET.

Lyndhurst sits in his wonted seat,
Peerless among his peers;
And when his voice is heard, they greet
Old Nestor with lusty cheers.
He is a staunch and hearty sire,
That England may ne'er forget;
His words are swords, his eyes are fire,
For there's life in the old lad yet.

They who would blot the Russian stain,
Look fearfully pale and glum;
Poor Clarendon answers in peevish strain,
And Aberdeen's worse than dumb.
Tho' that hand is withered, 'tis firmly clenched,
As he shows what the Czar shall get;
His pluck is not faded, his fire not quenched,
For there's life in the old lad yet.

He's a glorious type of a glorious land,—
A hale old flourishing tree,—
A right good leader to cheer the band
Of spirits who would be free.
When the toil is o'er, and the strife is won,
Then his sun may gently set;
But he knows that his labor is scarcely done,
And there's life in the old lad yet.

Holloway's Ointment Pills have Cured a Diseased Foot, and Prevented it being Amputated.—Mr. James Palmer, No. 1, Mason-court, Blake-street, Liverpool, suffered dreadfully from a diseased foot; the most eminent medical men attended him, and they deemed it necessary to remove one of his toes; before this healed, however, the disease broke out higher up, and then they wished to amputate the whole foot to prevent fearful consequences. This he objected to, and resolved to try Holloway's Ointment and Pills, which effected a perfect cure, and he can now walk and work as well as ever. This case can be verified by Mr. Martin, chemist, 20, Copperas-hill, Liverpool.

Mexican Mustang Liniment.

This article has been thoroughly introduced, and is now universally used throughout the entire Union; British Provinces, Canada, Bermuda, and West India Islands; and its power and influence is fast becoming felt wherever civilization has obtained a foothold. Its mild and soothing influence upon diseased parts—effectually curing in all cases—virtues so diametrically opposed to all other medicines of the kind used—has obtained for it its world wide reputation. A brief summary of its power is given in the following beautiful.

ACROSTIC.

Mustang liniment! The mass hails with joy
Earth's healing treasure, whose virtues destroy
Xeraxis, that foe to luxuriant hair;
Ich, that the finger nails hopelessly tear;
Cancers, whose gnawings so fearfully tell;
Acute Rheumatism and Chronic as well;
Neuralgia, Toothache, that agony swell!
Mustang—thy progress is upward and on!
Ulcers yield to thee like a dew to the sun.
Scrofulous sores that the doctors perplex;
Tumors of all kinds that bother and vex;
Aches, Cuts, and Bruises, and vile running sores,—
Nuisances—keeping us locked within do rs;
Gout, palsied limbs and a host of such bores.
Lame stricken cripples are raised on their legs,
In joy, quaffing pleasure's bright cup to the dregs,
Nature's great remedy—on with thy work!
Inflammations expelling wherever they lurk,
Men, women, and cattle, like evile must bear,
Each one in like manner this blessing can share
Next thing we say—though the truth may sound strange
That if we don't cure—we give back the change.

TO FARMERS & LIVERY STABLE KEEPERS AND all who have the care of Horses or other animals, this LINIMENT is of immense benefit. All the Express Companies of New York City are using it, and have unanimously certified in its favor. Proof documents at our office.

To Country Merchants.

Every store should be supplied with this valuable LINIMENT, as it pays a good profit, and sells rapidly. Sold in Woodstock by W. L. FERGUSON.
