#### THE BLACK SEA.

Two Turkish commanders, who behaved badly at Balaklava on the 25th of October, have been publicly degraded at Constantinople and transported for seven years with hard labour.

The Levant mail steamer which left Constantinople on the 25th of December, brings the following intelligence:—The Duke of Cambridge is much better, and will probably return to England. General Montebello has left for France. Admiral Dundas and Admiral Hamelin are at Constantinople, on their way home. Admirals Lyons and Bruat have at present the command of the fleets.

The Ganges, which arrived at Toulon Tuesday the 2nd inst., left Constantinople on the 25th ult. At the last dates from the Crimea, 18 Turkish battalions had already landed at Eupatoria. As soon as the 30,000 men shall have been completed the Allies will resume their grand operations.—The besiegers had in part opened their fire. The weather had become better and the communication by sea was regular. The St. Louis, as well as other vessels, had arrived from France. In consequence of the exertion siege lines of the allies, the communications and the transport of provisions had become very difficult between Sebastopol and the Russian army posted Balaklava. The Duke of Cambridge, who has received a visit from the Sultan, is, it is said to return to England. Lord Cardigan has already left for London. General de Kennebello has delivered to General Canrobert 20 crosses of officers and 125 chevaliers in the Legion of Honour to be distributed in the army. It was the Polish General, Jordhu, who commanded at Redoubt Kale, and who, with the England, defended the place against 10,000 Russians. Snleyman Pacha has been degraded. Mecklee Pacha has been commander-in-chief of the Turkish army in Asia.

RUSSIA.—A writer of some repute says:—There is a serious schism in the Imperial family. The Grand Duke Constantine disputes the right of his elder brother, the Grand Duke Alexander, to succeed to the Imperial throne—the order of succession laid down by Peter the Great being in the eldest son of the reigning Emperor. When the Emperor Alexander was dying, his father was not emperor, nor did he even in direct succession to the throne. The eldest son, after Nicholas, became Emperor, is Constantine, and he therefore claims to be the rightful heir to the throne of Russia. It is in consequence of this dissension (says *Galignani*) that the Emperor Nicholas resolved to wait no longer for the accomplishment of his views in the East. Dreading a civil war between the two brothers after his death, he was anxious to find the means of inducing his son Constantine to withdraw pretensions which have for partisans a large portion of the Russian nobility, and nothing presented itself but the chance of creating a new empire of sufficient magnitude and importance to gratify his ambition. Hence the determination to prepare measures for the conquest of Constantinople, and consequently, hence the difficulty of concessions to the Western Powers; which would amount to the abandonment of the designs of the Czar on Turkey.

RUSSIA AND THE WESTERN POWERS.—Vienna Thursday, Jan. 18. The English and French ministers have received powers, enabling them to treat for peace with Russia.

The second edition of the Morning Post has the following from its Paris correspondent:—

No important news has reached Paris this day. Private letters from Vienna say that Prince Gortschakoff has instructions to accept everything; and accede to all the Allies may demand, except the destruction of the Russian fleet and the occupation of the Russian territory.

General Canrobert is said to be a son of the Emperor Napoleon and Madam de Rainey. The moral effect of this relationship has been immense upon the troops under his command.

THE UNEMPLOYED IN NEW YORK.—The central committee of Associated Workmen, in their memorial to the common council of New York, state that there are now in that City 60,000 able-bodied men out of employment—that 60,000 able-bodied women are unable to earn their own livelihood, and in many instances to comfort families by their unaided efforts, have no employment, and that 10,000 children accustomed to earn their own livelihood, and in many cases to aid materially, if not altogether support dependent relatives, are also out of employment.

Holloway's Ointment and Pills are superior Remedies for Bad Legs, and all kinds of Wounds.—The surprising sale of these invaluable medicines throughout the entire Globe, is the most convincing proof of their efficacy in curing bad legs, old wounds, and scrofulous sores. Thousands of people who have suffered from these dreadful maladies, have been cured by their use, after every other remedy had failed; and it is a fact beyond all doubt, that there is no case, however obstinate or bad, that may not be shortly cured by these wonderful medicines, therefore the afflicted should immediately try Holloway's Ointment and Pills.

Coal cinders pulverised are said to prevent rot in potatoes. It has been tried with entire success.

We are indebted to the politeness of Mr. Nash, of the Telegraph Office in this place, for the following Telegram—

(By Telegraph from St. John.)

Shock of an Earthquake generally felt throughout the City this morning, at 6 45. Thermometer at 7 o'clock stood 10° below zero.

At Dorchester and the Bend the shock was very sensibly felt.

8th February, 1855.

The same was very sensibly felt in this place by a number of individuals of undoubted veracity. Mr. Henry Dow, formerly a resident in California, where he had frequently experienced shocks of a similar nature, at once pronounced the shock felt on Thursday morning, to be that of an earthquake.

Through the kindness of Mr. Walsh, operator for the Quebec Line, we have received a Telegram, which the crowded state of our columns prevent from giving in full. The following is the substance of it:—

The West wing of the Lunatic Asylum at Beaufort, near Quebec, was destroyed by fire on the 25th inst. The unwearied activity and energy of the firemen from the city confined the devouring element to the west wing, and saved the rest of the building. No lives were lost. It is estimated that the damage sustained amounted to about \$10,000.

The Secret Infirmities of Youth and Maturity.  
Just Published, Price 2s. stg., free by post from the Author only for 30 Stamps.

NERVOUS DEBILITY: its Causes, Symptoms, and Cure: an Essay on Spermatorrhoea, with Practical Observations on a safer and more successful mode of treatment of the Diseases of the Generative System, obtained by the use of the Microscope in detecting and distinguishing, by Urinary Examination, the real cause and effect of every variety of Complaint, whether arising from solitary habits, excesses, accident, or climate—to which are added Commentaries on the Physiology of Marriage, with precautionary hints on the evils emanating from empirical practice, and on the dangerous remedies advocated by various writers on these important disorders.  
BY S. LAMERT, M. D.,  
37 BEDFORD SQUARE LONDON,  
Matriculated Member of the University of Edinburgh,  
Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall,  
London, &c., &c.

The essential object of this treatise is to point out the fearful consequences resulting from certain habits, irregularities and excesses, which have produced more misery in Youth, degradation in Manhood, and premature decay at all stages of Life, than, perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness, and privileges to which every human being is entitled.

It is absolutely necessary that all men should know that there are principles of personal management which cannot be violated without incurring grievous penalties, and when wisdom and regret succeed the heyday of inconsiderate self-indulgence, how these penalties may be mitigated, how the sting of their bitterness may be removed, and how the evil and its consequences may be avoided, and, above all, that there is scarcely any degree of physical infirmity or functional derangement to which the timely aid of science cannot apply a cure.

The work may be had in St. John, N. B., of Messrs. H. Chubb & Co. Price 2s. stg. Jan. 26, '55.

#### Mexican Mustang Liniment.

This article has been thoroughly introduced, and is now universally used throughout the entire Union; British Provinces, Canada, Bermuda, and West India Islands; and its power and influence is fast becoming felt wherever civilization has obtained a foothold. Its mild and soothing influence upon diseased parts—effectually curing in all cases—virtues so diametrically opposed to all other medicines of the kind used—has obtained for it its world wide reputation. A brief summary of its power is given in the following beautiful

#### ACROSTIC.

Mustang liniment! The mass hails with joy  
Earth's healing treasure, whose virtues destroy  
Xerasia, that foe to luxuriant hair;  
Itch, that the finger nails hopelessly tear;  
Cancers, whose gnawings so fearfully tell  
Acute Rheumatism and Chronic as well;  
Neuralgia, Toothache, that agony swell!  
Mustang—thy progress is upward and on;  
Ulcers yield to thee like a dew to the sun.  
Scrofulous sores that the doctors perplex;  
Tumors of all kinds that bother and vex;  
Aches, Cuts, and Bruises, and vile running sores,  
Nuisances—keeping us locked within do rs;  
Gout, palsied limbs and a host of such bores.  
Lame stricken cripples are raised on their legs,  
In joy, quaffing pleasure's bright cup to the dregs,  
Nature's great remedy—on with thy work!  
Inflammations expelling wherever they lurk,  
Men, women, and little, like evil must bear,  
Each one in like manner this blessing can share  
Next thing we say—though the truth may sound strange—  
That if we don't cure—we give back the change.

TO FARMERS & LIVERY STABLE KEEPERS AND all who have the care of Horses or other animals, this LINIMENT is of immense benefit. All the Express Companies of New York City are using it, and have unanimously certified in its favor. Proof documents at our office.

#### To Country Merchants.
