Can any unprejudiced mind in the world ask stronger testimony, or more convincing proof of the great restorative and curative powers of Hampton's Vegetable Tincture than given below. The writer is one of our most highly esteemed citizens, a man of integrity, and it is extensively known, has been for a long time suffering under disease; his altered appearance now is a subject of remark, and gives additional testimony and weight to the certificate below. He is also the son of Dr. Dunar, whose great skill as a phy sician is well know to most of the oldest inhabitants

BALTIMORE, February 9th, 1853. Messrs. MORTIMER & MOWBRAY:

Gentlemen:-It is with real pleasure that I am able to attend to the general healing and curative powers of Doctor Hampton's Vegetable Tincture. Some time during last November I was taken with a very bad and serious Cough. I was advised to take Cod Liver Oil, and did so, but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state, that for the last fifteen years I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am truly convinced that I owe my present good health to the use of the Tineture and a kind Providence.

You are, my friends, at liberty to use this as you think proper, and believe me

Yours, very respectfully,

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS,—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Boston Lincolnshire.

To Professor HOLLOWAY: Dear Sir,-Mrs. Sarah Dixon of Liquorpond Street, Boston, has this day deposed before me that for a considerable period she was severely affected with Scrotulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtain-

ed no abatement of suffering, but gradually grew worse. Being reccommended by a friend to try your Ointment she procured a small pot and a box of the Pills, and before that was all used, symptoms of amendment appeared. Be persevering with the medic nes for a short time longer according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your has alluded, and he now offers them to the people of North Ointment and Pills. AT MALTA AND PORTSMOUTH HOSPITALS. The following important communication has been forward ed to Professor Holloway for publication, by Mr. B. Dix-

on, Chemst, King street, Norwich. Copy of a Letter from Captain Smith, of Great Yarmouth dated Jan. 19th, 1853 To Mr. DIXON.

Dear Sir,-I send you the particulars of a cure effected by Professor Hollowiy's invaluable medicines :- Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which by unremitted application, healed all the ulcers, and restored him to perfect health and strength

I remain, Dear Sir, yours very truly, (Signed) JOHN SMITH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Moss-lane, Manchester, dated Feb. 12th, 1853. To PROFESSOR HOLLOWAY,

Dear Sir,-I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by use of your celebrated Ointment and Pills. Mrs. Martha Bell, of Pittstreet, in this Town, had been for a considerable time laboring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much expefrom all impure or irritating | idence in the use of all the known remedies for the cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was pursuaded to have recaurse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed. I remain, Dear Sir. yours faithfully

BOWELS. THE Proprietor is quite aware of the prevalent distrust existing in this Province of every medicine which professes any general remedial efficacy, and he is not ignorant that even among those who believe in the edicacy of one or other of the many forms of Proprietory Medi-States, the introduction of a new one may be considered unnecessary. He therefore feels it due, alike to himself and the public, frankly to state his reasons for offering this medicine, and the grounds of his conviction that it will be found serviceable in the large class of cases for the treat-ment of which it is recommended.

The practitioners of medicine in every country, have found it desirable and necessary to possess a safe and el-fectual CATHARTIC, available at all times, and applicable in all the extensive and constantly recurring diseases in which a specific action upon the Stomach and Bowels is required, and the proprietor is perfectly familiar with the formula of all the most famous medicines employed for this purpose in the Colleges and Hospitals of Europe and America and adopted in the medical practice of this

Province. Dr. Dow has been convinced by a close observation of the effects of the medicines just referred to, that such a cathartic as he has designated is still a desideratum, and he has bestowed the most careful attention and extensive experiments in order that he might furnish to his profession and the world, a Remedial Agent at once sale and effi-

It has not escaped the attention of the proprietor of these Pills, in the extensive professional patronage which he has now enjoyed for some time past in New Brunswick, that the effects of particular medicines on particular diseases, are very seriously modified by the climate, and habits of the people of the country, and he is convinced from personal observation that medical treatment to be safeand effectual, must be accommodated to these preculiarities.

His original formula for these pills although justified by science and experiments, has been modified from time to

DR. Dow no more hesitates. [after the testimony whch has been afforded in his own practice,] to claim for these dence of your medicines, and have recommended them to pills an entire superiority over all now in use, than to de. others in this neighborhood similarly afflicted, who derived | preciate the idea of recommending them as possessing any miraculous power or life giving virtue. He would as particularly and emphatically warn the public that it is in a special class of diseases, and only in a special class that his Pills will be found specific, as he will confidently assert that their perfect efficacy in the class of diseases has been demonstrated by an extensive administration and a uniform

Dr. Dow therefore unhesitatingly presents these Pills to the public as a reliable

FAMILY PHYSIC, well and carefully tested, and appealing to the general confidence by its past effects in a course of practice, in which for the last year from

200 to 300 have been administered daily! These Pills will be found safe in their operation, sure in their effects, and beneficial in all the diseases to which they profess to be adapted, viz: Dyspepsia, Indigestion, Sick or Nervous Head-

ache, Palpitation of the Heart, Heart Burn, Sickness or Weakness at the Pit of the Stomach, Jaundice, Impurity of the Blood, Pain in the side, Derangement of the Liver, disordered state of the Bowels, Costiveness.
