ARRIVAL OF THE "AFRICA."

Africa left Liverpool on the 14th, and arrived at Halifax on the 22d. "Saint Louis" left Southampton on the 12th—was detained some hours by holiday at harbour. "Nonpareil" packet ships arrived at Liverpool on the 11th, 14 days from Philadelphia. The Russian prize "Sika" arrived at the Downs on the 8th. American ship "Hurlbut" was in contact with line-of-battle ship "Duke of Wellington," both received damage. "New Orleans" put back to Liverpool, damaged in collision with steamer "North Carolina," from Philadelphia for Liverpool—steamer sunk in 10 minutes—crew saved. Intelligence by "St Louis" via Southampton is not important.

VIENNA CONFERENCE.—The 9th—Conference was held at Vienna on the afternoon of the 8th, which lasted but one hour. Russian Plenipotentiaries had not received their instructions. Drouyn d'Luys and Ali Pacha were present. Nothing whatever is known as to chances of agreement. Not known when next meeting will be held. Rumored that Western Plenipotentiaries are about to quit Vienna, but doubtful. Everything at present seems at a stand still. New complications are spoken of with Prussia, but of what nature is not mentioned. It is said that Ali Pacha's instructions are to assent to joint protectorate of the great powers over the Principalities, but to express regret that the Sultan's sovereignty was not re-established. The question relative to the indemnity for war is deferred.

THE WAR.—Nothing important from Sebastopol to April 8th. The position of the armies was unchanged. Night skirmishes on a small scale continued. Weather was fine and dry. There had been a three hours' armistice to bury the dead. The Allies report themselves ready to open a general bombardment of the city. Russians have constructed two new batteries, and have converted the ambulances into an advanced parallel. The French are advancing towards the Malakoff works by a serpentine sap. Omar Pacha had not marched on the Alma as reported, but had occupied two villages half a league from Eupatoria, and enlarged his fortifications to shelter 5,000 men. The Allies were sending him that number as rapidly as possible. French reinforcements and Sardinians arrived and also land shortly. An important statement is made of the Allies changing their tactics in the Crimea—will forgo and hold as material guarantee the already strong position of Hamiesch, with 20,000 men supported by the fleets. Embarkation of Sardinian troops ordered to commence from Genoa on the 15th in English steamers for Constantinople—thence re-shipped for Eupatoria to co-operate with Omar Pacha. Russians maintain their position on the Tchernaya, and are concentrating towards Baitar. Canard's despatch estimates the loss on the night of the 22nd, Russians 700 killed, 1500 wounded. French loss was 200 killed and 400 wounded. Russian agents at Vienna report sanguinary engagement, March 26th, but advices from the Crimea do not mention it. The Russian organs say that women, children and sick are being sent out of Sebastopol into the interior of Crimea. Disturbances at Krajova from persons illuminating houses on news of the Czar Nicholas' death. French hired transport steamer "Edinburgh" and two ships in tow, all with French horses, were lost off Balchick. Tunisian Brigade is sent to Batoul. Russians deny Menschikoff's death, but admit that he is wounded. 20 vessels at Galatz for corn. Greek ambassador at Constantinople on the 8th.

BALTIC.—The advanced squadron of the Baltic fleet reached Elsinore April 1st, and was supposed would anchor in Landskrona harbour until the Baltic was navigable. Advices from Rostock of the 8th say navigation would be dangerous for a week or fortnight to come—much heavy ice floating.

A Russian despatch from Warsaw says an army of 120,000 men is concentrating in the Baltic Provinces, and 300 gun-boats are afloat. Two divisions of the Russian fleet are at Cronstadt, and one between Swaborg and Revel.

BRITAIN.—Parliament not sitting. It was announced on the afternoon of Friday that Government had brought out loan—amount and terms unknown, but supposed £15,000,000 sterling. The funds immediately fell to 91 1/2.

Napoleon and the Empress would reach London on Monday—stay one week with the Queen. The tone of the British public is extravagant in adula-

tion—very different from three years since. Official programme as follows:—Monday, Prince Albert goes to Dover, meets the august party, lunches with them at the Warden Hotel, home to Windsor afternoon—Tuesday, morning Emperor receives Corps diplomatic, evening grand entertainment—Wednesday, investiture of Emperor with the order of the Garter, evening, grand dinner and ball—Thursday, Crystal Palace, evening, Opera—Friday, visit London to receive City address, déjeuner dinner at Buckingham place—Saturday, return home. Roebuck's Committee adjourned with Parliament until 10th. The propriety of raising the siege of Sebastopol is freely and favorably talked of. A Court-martial was sitting on officers of lost steam-ship "Tiger." Earl Carlisle has entered on the Vice-Royalty of Ireland—well received in Dublin. The movement respecting Newspaper Stamp Duty is taking direction in favor of half-penny postal stamp.

Brazil steamer "Solent," at Southampton, reports frigate "Constitution" at Cape Verd to leave April 1st for home—all well. "Solent" brings information that on February 1st American steamer "Water Witch" was fired into by batteries at the mouth of the Paragnay—steamer was damaged and one man killed; "Water Witch" promptly returned fire—dismantled one gun, and fired grape at the embrasures. Not having water to proceed up river, "Water Witch" repaired damages and returned to Corrientes.

FRANCE.—Exhibition universelle will open irrevocably May 1st. Paris "Moniteur" contains a remarkable official document, in which the military conduct of the Allied Governments of the war is explained—also promises that the various phases, motives and objects of the negotiation shall be made known. A document in five newspaper columns states that the plan of the campaign was firstly, either to march and meet the Russians on the Balkins, or secondly, to seize the Crimea, or thirdly, to land at Odessa or other point of the Russian coast of the Black Sea—not to proceed farther than the Danube unless Austria join the alliance. Gallipoli was first occupied with intention to check advance of Russians to Constantinople, but the Russians' retreat from Silistria rendered further occupation of Gallipoli and Varna unnecessary. The Allies could not have operated in Bessarabia without the aid of Austria; and not to remain inactive, the expedition against Sebastopol was undertaken. The remainder of the document is occupied with pointing out the immense difficulties of the siege, and in exonerating Napoleon, who planned the campaign. It also contains a copy of Marshal St. Arnaud's private instructions. The document has excited much interest at home and abroad. It is regarded as an apology for soon raising the siege.

SPAIN.—The Spanish Government has remitted to London the documents on which was demanded the recall of Lord Howden, British Minister, for his interference in religious matters. In the Cortes a vote of confidence in the National Guard was carried. Excitement had subsided and Madrid was tranquil. The Government had borrowed from capitalists 40,000,000 reals at 10 per cent.

GERMANY.—Discontent exists in Hanover against the King's attempts to restore the privileges of the Nobles. Nothing from other States.

AUSTRIA.—Emperor of Austria's coronation will take place August 18th. Sickness is reported in the Austrian army as reason why she is not ready to take the field.

ITALY.—Russian Count Potocki is visiting all Italian States, except Sardinia assuring them of the friendship of Russia—is said to have assurances of neutrality from Tuscany and Naples. It is reported that Duke De Gramont, French Minister at Turin, will proceed to Rome to mediate in the difficulty between the Pope and Sardinia. Napoleon has purchased estates in Roman territory of Civita Nova.

By Telegraph.—The Pope has had a narrow escape with his life from the accidental fall of a beam. Two Cardinals injured. Particulars not come to hand.

DENMARK.—The trial of the Ex-Ministers before the Supreme Court is postponed till June 4th.

RUSSIA.—St. Petersburg advices are altogether indefinite as regards politics. They however reiterate that Russia will not make concessions. Cholera continues in St. Petersburg. On the 29th were 200 cases.

INDIA.—Overland Mail Telegraph—Calcutta 10th, Bombay 18th.—March trade in India was dull. News unimportant. No intelligence from China.

LATEST BY TELEGRAPH.—Paris, Tuesday eve.—There is no news of importance.

SPAIN.—Advices from Madrid of the 12th state that the Militia Law with Marmigo's amendments had been adopted. Another attempt at an emule had been immediately repressed. No later news from Crimea.

The "Times" Paris correspondent writes—"It is rumored that we are to have another levy of 100,000 men in France, and that from 60 to 80,000 troops will be placed at the disposal of Austria, should war be the issue of the Conferences of Vienna." The latest accounts from the northern parts of Europe show that the navigation would probably be quite opened by the 20th inst. Although nothing can transpire before Monday, various statements are hazarded as to the terms of announced loan, and £15,000,000 is set down as the sum required.

Liverpool Cotton.—Business has again been large, but without animation or improvement in prices—market closing lamely. The calm was attributive to spinners having laid in a sufficient stock to enable them to resist an advance. Week opened active, but fell quieter downwards—closed better. Qualities, American or middling upwards, were in rather short supply.

Liverpool Breadstuffs.—Market generally quiet, prices unchanged. Broker's circular says Wheat extremely inactive throughout week, and prices turn cheaper—Flour, moderate retail business about previous rates—Indian Corn in fair request for Ireland, but last week's prices barely maintained. Brown, Shipley & Co's quotations are, all Breadstuffs very quiet, favoring buyers—Western Canal Flour—old, 41s to 42s, new, 37s to 39s—Baltimore and Philadelphia—old, 42s 6d to 43s, new, 40s to 41s—Ohio, 42s 6d to 44s—Canada, 40s to 41—Sour, 33s to 41s. White Wheat, 10s 10d to 12s 6d—Red, 10s 6d to 11s 3d. Yellow Corn, 42s 6d to 43s 6d—Mixed 42s—White, 41s to 42s.

Weather continued backward. Money continues easy. Prime short paper could be discounted at 3 3/4 per cent. Consols had been depressed all last week in expectation of Government loan, and now announced and concluded at decline 91 1/2. Exchanges low, and checked export of Gold. Bullion decreased £126,000.

Liverpool freights unchanged and generally dull.

Mexican Mustang Liniment.

This article has been thoroughly introduced, and is now universally used throughout the entire Union; British Provinces, Canada, Bermuda, and West India Islands; and its power and influence is fast becoming felt wherever civilization has obtained a foothold. Its mild and soothing influence upon diseased parts—effectually curing in all cases—virtues so diametrically opposed to all other medicines of the kind used—has obtained for it its world wide reputation. A brief summary of its power is given in the following beautiful

ACROSTIC.

Mustang liniment. The mass hails with joy
Earth's healing treasure, whose virtues destroy
Nervous, that foe to luxuriant hair;
Rich, that the finger nails hopelessly tear;
Cancers, whose gnawings so fearfully tell,
Acute Rheumatism and Chronic as well;
Neuralgia, Toothache, that agony swell!
Mustang, thy progress is upward and on!
Ulcers yield to thee like a dew to the sun.
Sorefulas sores that the doctors perplex;
Tumors of all kinds that bother and vex;
Aches, Cuts, and Bruises, and vile running sores,
Nuisances—keeping us locked within do re;
Gout, paralyzed limbs and a host of such ills,
Lame stricken cripples are raised on their legs,
In joy, quaffing pleasure's bright cup to the dregs,
Nature's great remedy—on with thy work!
Infirmary expelling wherever they lurk!
Men, women, and cattle, like evil must bear,
Each one in like manner this blessing can share,
Next thing we say—though the truth may sound strange
That if we don't cure—we give back the change.

TO FARMERS & LIVERY STABLE KEEPERS AND all who have the care of Horses or other animals, this LINIMENT is of immense benefit. All the Express Companies of New York City are using it, and have unanimously certified in its favor. Proof documents at our office.

To Country Merchants.

Every store should be supplied with this valuable LINIMENT, as it pays a good profit, and sells rapidly. Sold in Woodstock by W. L. FERGUSON

Holloway's Pills a certain Remedy for Indigestion and Liver Complaint.—Maria Armstrong, of Three Rivers, Canada, suffered more than most people from indigestion; accompanied by liver complaint, several very clever medical men told her she was in a consumption, and her friends despaired of her ever recovering, as she had tried every thing thought likely to benefit her, without success. At last she tried Holloway's Pills, which quickly assimilated with the blood, removed the obnoxious matter, and thoroughly cleansed and renovated the system. The result is, that she was perfectly cured, and now enjoys the best of health. These Pills are also a certain cure for all diseases of the stomach and bowels.

Marrings.

On the 22d instant, by the Rev. William Allen, Mr. Asa D. Thompson, of Wakefield, to Miss Rhoda Dickenson, of Dumfries, County of York.
