IT is the Fashion of the times to extol the magnitude of HALLS and extent of Windows; I do not approve of it, but for those that do, I would say that I have somewhat of a large Window, and a very small Shop, but yet have done more in the clothing line than any other establishment in the village. Sears' Great Work on Russia!

JUST PUBLISHED: AN ILLUSTRATED DESCRIPTION OF THE RUSSIAN EMPIRE;

Being a Physical and Political History of Governments and Provinces, Productions, Resources, Imperial Government, Commerce, Literature, Educational Means, Religion, People, Manners, Customs, Antiquities, &c., &c., &c., from the latest and most authentic sources. Embellished with about two hundred Engravings and Maps of European and Asiatic Russia. The whole complete in one large octavo volume of about 700 pages, elegantly and substantially bound. Retail Price \$3.

This work has been several years in operation, and will, it is believed, meet in the fullest expectation of the world, the want so universally felt for reliable information on the history and internal resources of a country occupying so large a portion of the Eastern Hemisphere, and holding so formidable a position at the present time to the rest of Europe and Asia; but of which far less is known than of any other European nation.

Works on Russia have (with a few exceptions) been mostly confined to descriptions of Moscow and St. Petersburg, the ancient and modern capitals of the Empire, and their immediate suburbs. The present volume, however, is a complete geographical, topographical and historical description of the WHOLE EMPIRE.

From the Baltic Provinces, and Russian Poland on the west, to Kamischnika, ten thousand miles away, on the shores of the Pacific Ocean; and from the vast but bleak and sterile government of Archangel, bordering upon the Arctic Ocean, to the romantic and sunny Crimea, lying like a gem upon the bosom of the Euxine, every Government and Province of this colossal Empire is fully described—its geographical and topographical features portrayed; and its mineral, agricultural, manufacturing, and commercial resources minutely detailed.

A description of the government of the Army and Navy, Revenue, Currency, Commerce, Religion, Literature, Educational Resources, Classes of the People, their Manners and Customs; in brief, everything requisite to a complete knowledge of RUSSIA AND THE RUSSIANS, has a place upon its pages.

In addition to a careful summary of the principal events in Russian History from the earliest period of authentic date to the present time, local historic notices of Governments and Cities, many interesting facts and incidents will be found interspersed through the volume. The latest and most reliable authorities have been consulted with especial reference to correctness and fullness of details.

THE PICTORIAL ILLUSTRATIONS, (approaching Two Hundred in number,) are from the bureau of one of the first artists in America; having been engraved expressly for this work, with many from original designs.

Maps of both EUROPEAN AND ASIATIC RUSSIA, prepared exclusively for this work by Professor Morse, also form a part of the Illustrations of this new volume. No expense has been spared in its preparation; and it is confidently expected that this new work will be pronounced, both in its letter press and illustrations, one of the most beautiful specimens of book-making ever issued from the American Press.
