

**THE DEFENCES OF KARS.**—TREBIZOND, Oct. 8.—The Russians are supposed to be preparing to attack Kars again.

PARIS, Oct. 25.—An official report of the victory gained by the Turks at Kars, on the 29th ult., has arrived here. The defence was most heroic. No English officers hurt.

We have received from Berlin the following Russian despatch:—

“On the 22nd instant, the allies marched from Eupatoria towards Toulat, 40,000 strong.

“On the 23rd instant, having arrived at the height of Achassa-diamin, they perceived our banners on their left flank, and returned behind Ak-tatehi.

“Nothing fresh has occurred between Kinburn and Nicolaieff.

The *Daily News* Erzeroum correspondent gives some details of the Russian resources at Kars.

Colonel Lake distinguished himself by his bravery and skill, also Captain Teisdale and Thompson and Mr. Churchill, secretary to General Williams.—No European officer was killed or wounded. General Kenstli commanded the defence. Omar Pasha was coming up to Kars with his army.

The *Times*, in a leader, observes that Gortschakoff must look with anxiety towards a retreat as the only means of extricating from a position which every day is rendering more untenable.

Marshal Pelissier's object in avoiding to press the Russians with so much rigor as to force upon them the necessity of taking an immediate and decided part is to oblige them, when they shall at any time execute their retrograde movement, to endure all that the inclemency of the elements can inflict upon them, and to run the gauntlet through large bodies of troops, which may compel them to fight for its very existence.

The *Times* believes that, should no unforeseen accident disarrange and destroy our most carefully formed combinations, the Russian retreat will be the recommencement of a series of calamities not inferior to those which for so many months have rained fire, sword, and pestilence on the heads of the devoted defenders of Sebastopol!

The *Morning Advertiser* believes that Sir William Codrington has received telegraphic notice of his appointment as commander in the Crimea.

There are two rumours afloat as to the Czar. In Berlin it is said that his Imperial Majesty has sprained his foot in the most serious manner, and is obliged to keep his room. In Paris it is the report that the Emperor's mind is becoming affected, and that he spends the greater part of his time with priests, praying to God for victory. One story may give rise to the other; but whether the seclusion caused by the sprain was the germ of the latter story, or the sprain was invented to account for the seclusion arising from mental excitement, we must leave our readers to guess.

According to a despatch of Marshal Pelissier, the Allies took at Kinburn 1420 prisoners, with 164 pieces of cannon and a quantity of ammunition and stores; and this success has been rendered complete by the Russians themselves blowing up the fortifications of Gezakoff, on the 18th.

A striking instance of the way in which high prices attract grain from unexpected quarters is noticed by the *Manchester Guardian*. Even India, it seems, can furnish us with wheat, if the price be high enough to bear the cost of transport. In the month ending the 7th September, the quantity of wheat shipped from Calcutta for Great Britain was no less than 127,884 maunds, or 22,654 quarters, at the rate of 60 lbs. to the bushel; and at the date of the latest accounts shipments were still going on with considerable activity, and at rates which promised a handsome profit to the exporters.

Whampton, a Chinese tea merchant, has sent his son, a youth of sixteen, to England to be educated. He is to remain five years and then his father is to go over for him.

Two German girls, with a hurdy-gurdy and tambourine, have, it is said netted two thousand pounds sterling, in the short space of ten months in Australia.

**AMERICAN INTERFERENCE IN THE AFFAIRS OF CENTRAL AMERICA.**—There can be no doubt that the aggressive policy pursued towards the states of Central America by citizens of the United States, with the prospect of further aggressions in other quarters, has caused the strong and unmistakable language to be employed by the British journals to which we alluded in our last. The conduct of these expeditions into the territory of an unoffending people is daily growing more bold and determined; and although the American authorities exhibit no energy in suppressing them, yet when any retaliatory measures are adopted by the people invaded, and lives lost, the press is loud in its denunciations of the provoked people, and the U. S. Government, urged on by popular clamour, sends a vessel of war to in-

terfere, as in the case of the Graytown affair, when the place was destroyed in a most cowardly and dastardly manner.

We noticed a few days ago the piratical descent of Col. Walker, at the head of an armed force, upon Grenada, in Nicaragua. So little efforts were made to interfere on the part of the American authorities, that they went on board of the Pacific steamers at California, and made no secret of their intentions. The American Minister to Central America, Mr. Wheeler, does not appear to have used his influence to prevent the expedition from landing and acted so indiscreetly that the authorities had him arrested. For this act, and also for firing upon a steamer which was believed to contain more of the filibustering party, it is said the American Government is about ordering Com. Paulding “to proceed to Nicaragua in a ship-of-war to enquire into the circumstances attending these outrages.” We think the Government will be a little more careful in giving instructions this time than they were in the Graytown matter; otherwise they may get themselves into trouble before they are prepared to meet it. The *New York Commercial Advertiser* takes an impartial view of these incursions into the territory of weaker states and asks:—

“Is it not high time that our Government was freed from the disgrace of these constant squabbles with its weak neighbors? Is it not time that these everlasting raids upon them should be effectually stopped? Are such marauders as Kinney, Fabens, Walker, French & Co., to be unceasingly embroiling us with people that desire to be at peace with us? Are the merchant steamers of private companies to be seized at the pleasure of these lawless men, and the safety of the vessels and the lives of harmless passengers to be perilled after this piratical fashion, without any efforts on the part of our government to punish the offenders? If the Executive has not power to prevent and punish such proceedings, for the honour of the country let Congress enact more stringent laws upon the subject.—Let not our vessels of war be employed in punishing the helpless victims of these reckless disturbers of national peace, or in making inquisition into the facts of their accomplished piratical outrages. But let it be shown to the world that we will protect our weaker neighbors from such assaults, even though they come from men who once owed allegiance to the United States.—*New Brunswick*.”

Judge Stuart, of the Superior Court of Quebec has decided that American coins are not a legal tender in the British Provinces.

The orders for the removal of the Canadian Rifles from Kingston to Toronto have been counter-manded. It is said that the threatening aspect of affairs between Great Britain and the United States has something to do with this.—*Quebec Chronicle*, Nov. 17.

The Grand Division of the Sons of Temperance for Canada West, states in its Report, number of Divisions, 353; number of members in 253 Divisions heard from, 10,270. This body is making vigorous efforts in behalf of a prohibitory law.—*Id.*

**HOW TO GET RID OF WORMS.**

*The simplest thing in the World.*  
You have only to purchase a bottle of M. Lane's celebrated Vermifuge, and administer it according to the directions accompanying each vial. It never fails to give immediate relief, and is perfectly safe for young or old. The following testimony in favour of M. Lane's celebrated Vermifuge was handed us a short time ago.  
New York, November 16, 1852.

A friend of mine purchased and administered one bottle of M. Lane's celebrated Vermifuge to a child of her's, four years old, which brought away between three hundred and four hundred worms—many of them large. The child is now well, and living in Remington place. For further particulars, inquire of Mrs. Harshie, No. 3 Manhattan place.  
P. S. Dr. M. Lane's celebrated Vermifuge, also his Liver Pills, can now be had at all respectable Drug Stores in the United States and British Provinces.

Purchasers will please be careful to ask for and take none but Dr. M. Lane's Vermifuge. All others, in comparison, are worthless.

*Holloway's Pills* may be taken with perfect safety by both sexes, and all ages, their effect being mild yet positive; their searching properties render them invaluable for the extermination of every disease, particularly liver and stomach complaints; bilious disorders, and indigestion.—As a purifier of the system, they are unequalled, and their virtues in cases of derangement of blood to the head, and asthmatic complaints, cannot be too highly commended on, in short, by a perseverance with this admirable Pills, there are few complaints which can resist their extraordinary influence.  
W. T. Baird, Agent for Woodstock.

**DIED:**

At Richmond, of Consumption, on the 21st inst., in the 24th year of his age, JOHN, third son of WILLIAM GREY, Esq. The deceased was an amiable young man, and much esteemed by his friends and acquaintance. His lingering illness, acting on a naturally reflective mind, had a tendency to lead him to meditate much upon things beyond “this vale of tears” where he saw he was only a sojourner; and the effect was a happy resignation to the will of his Divine master. “Blessed are they who die in the Lord.”
