ERYSIPELAS OF EIGHT. YEARS' DURATION CURED.

#### Copy of a Letter from Geo. Sinclair. Esq., of Paris, Canada, dated the 18th July, 1854.

To Professor HOLLOWAN.

Sir,-I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which affected me both night and day, rendering life a misery to me, as well as to all around-so severe was the attack. I used several remedies without deriving the least cessation to my misery. At last, I determined to try your Ointment and Pills : after taking them for a few weeks, a visible improvement took place, and I felt considerably better-in three months, by continuing with your medicines I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for place : me to request secrecy.

I am, Sir, yours respectfully,

GEO. SINCLAIR. (Signed) ULCERS IN THE LEG-REMARKABLE CURE. Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor HOLLOWAY,

Sir,-My sister, Miss Jane Tomkinson, suffered for great number of years from a bad leg, in which there were several deeply seated and old wounds, defying the skill of some of the most eminent of the medical faculty; a variety of remedies were also used unsuccessfully, and it seemed to me that there was not anything capable of mitigating the agonies she endured. At length she had recourse to your Ointment and Pills, and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known. I remain, Sir, your most obedient servant,

The essential object of this treatisee is to point out the fearful consequences resulting from certain habits, irregularities and excesses, which have produced more misery in Youth, degradation in. Manhood, and premature accay at all stages of Life, than, perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness, and privileges-

It is absolutely necessary that all men should know that derate self-indulgence, how these penaltles may be mitigated now the sting of their bitterness may be removed, w the evil and its consequences may be avoided,
