

the tear of sorrow has often left its mark upon my face, many of my youthful companions that started life's journey with me have gone down into the dark valley and shadow of death, and some lie at the bottom of the great deep, with the salt sea rolling over them, and others are still journeying in this world of sin; but oh, how changed. I would inform you, dear mother, that in the cruel hour of adversity my neighbours and friends stood firm and thick around me, and when I cease to remember their kindness, memory will be dethroned.

I remain,

Your affectionate Son until death,
GRIMMARIN CHAPMAN.

To Mrs. Mary Chapman.

BY TELEGRAPH.

[Reported for the Sentinel.]

ARRIVAL OF THE ARABIA.

St. John, October 24.

Arabia arrived at Halifax this morning.

BRITAIN.—Parliament prorogued to 13th. English Telegraph Companies gave banquet to Professor Morse, in Leaden Hall on 9th. Mr. F. Cooke presiding. Several honorable guests were also present. Professor Morse has succeeded in telegraphing over the united wires of the English and Irish Companies a distance of two thousand miles, at the rate of 210 signals per minute, thus proving the practicability of an Atlantic communication.

M. Magne, Minister of Finance, has in *Moniteur* a lengthy report on French finances of present year, and views them favourably.

The direct news from Naples to 29th ult., intimates that the king is still determined to resist all demands and remonstrances, but some of the German papers assert that he has been induced to make certain concessions, and that Gen. De Martine, the Austrian ambassador at Naples, will, it is hoped, complete what Baron de Cuba has commenced.

Martine is bearer to Ferdinand of Autograph letter from Francis Joseph, in which he is implored, in name of the relationship between the two countries, not to draw down misfortunes not only on Naples but on all Italy.

Two English ships of war, with Admiral Dundas, were at Ajaccio, and more were expected. French fleet continues at Toulon. Strong Russian fleet, commanded by Grand Duke Constantine, is to go to the Mediterranean as guard of honor to Empress month's tour in Italy. Spanish fleet on hand merely as police of Spanish islands, and Austrian Squadron is to cruise in the Adriatic, solely for exercise.

DENMARK.—Fatherland newspaper, not good authority, announces that question of Sound dues is settled. England and Denmark have come to an arrangement.

TURKEY.—Uneasiness is felt for the tranquility of Syria. Rumour that majority of Commissioners for the Danubian Principalities have refused to discuss the proposed questions until the Austrian troops evacuate.

Preparations for a Persian expedition was vigorously carried on in all departments in India. Two steamers from Calcutta to Persian Gulf had been dispatched in haste.

Cotton, Corn, and general produce markets are steady, with a fair amount of business. Money although dear is not scarce.

RAILWAY PROGRESS.—The *Westmorland Times*, under this head, gives an account of the Railway operations in that quarter. We learn from it that the editor has passed over the line completed from Humphrey's Mill to Cook's Brook, a distance of five miles. The contracts are let in three sections. On the first, being at the Shediac end, 400 men are now employed, and the works are rapidly progressing. On this section is the Scadouck Bridge, the construction of which is a work of considerable magnitude. On the second section about 350 men are employed, and it is that portion of the line over which the editor of the *Times* passed. He thus speaks of the progress of the operations on this section:—

The location of this part of the line differs materially from that laid down by the former Contractors, and nothing less than five dangerous curves are to be removed, and the line made nearly straight by a deflection to the North side in two separate places. The Road Bed has been widened 5 feet the whole distance, (or from 15 to 20 feet wide.) Three miles of new track has been laid and the remainder all lifted and re-laid, and many of the sleepers which were faulty and badly selected have been replaced by a superior quality and a better selection. A considerable proportion of this line has been entirely graded, and a depth of two feet of excellent gravel is now being put on as ballast throughout the entire section. The culverts wherever they have been necessary are of the most solid substantial mason work, being of the best description of stone, and laid in cement. The laying of Rails toward Shediac is being proceeded with as fast as possible, and the engines on both sections are in constant operation driving the ballast wagons. The clearings on both sides of the line are widened considerably, say 150 feet in the whole—the stumps all cut close to the surface, and the brush, &c., burnt up so as to avoid future mischief being done.

On the part of Mr. Wm. Stevens, the Contractor, we should say the whole work appears to be done in a style which will bear examination, and reflect credit on him as a practical man, and by his unflinching attention to the work himself together with the experience he had in this, we feel confident the public will have reason to be satisfied that their funds are not mis-spent.

The third section comprises the end of the line from Humphrey's Mill to the Town, on which men are at work both day and night. This is a very heavy portion of the undertaking, as there are

seven bridges to be constructed, besides heavy cuttings and embankments, as well as pile-driving, &c. About 230 men are employed on this section. The whole work is proceeding most satisfactorily, and will be completed at an early day in a most efficient manner.—*New Brunswick.*

SUSPENSION OF A LIVERPOOL FIRM.—We regret to announce the suspension of the Liverpool firms of Messrs. M' Larty and Co., and Lamont, M' Larty & Co., with liabilities to the extent of nearly £100,000. Their losses in the Australian trade and in Italian steamers, have been the cause of their stoppage. Considering the valuable services the mercantile steam fleet rendered to the country in the recent war, it is indeed a source of regret that any firm should be compelled to suspend payment from losses occasioned by the working of a portion of the screw steam mercantile marine. In the Australian trade it is known that many serious losses occurred, yet to this very trade we are indebted for the large imports of gold now coming forward monthly from those colonies to the great advantage of the country at large.—*Liverpool Albion.*

COLLISION ON THE G. W. RAILWAY.—A serious collision took place on Thursday (9th instant) on the Great Western Railway, one mile west of London, by a train of cars loaded with cattle coming in contact with the Mail train going east. One passenger car, the baggage car, and the post office were burned with American and Canadian mails, the former consisting of fifteen and the latter of six bags; and the whole of the Express freight except what was in the chest, shared the same fate. The two locomotives and five cattle cars were destroyed, and a great many cattle killed, but we are happy to say, there was no loss of human life, and very few persons injured, and those not materially. The accident is attributed to the cattle train, persisting in keeping on the track when it was 45 minutes behind time; the trains running on time. Its proper course was to have stopped and allowed the right train to pass.—*Montreal Advertiser.*

PRESS PROSECUTION IN PRUSSIA.—The ministerial Berlin journal, the *Zeit*, has just had to defend itself in a criminal court on account of an expression employed in an article on the concordat. The writer, speaking of the celibacy of the priesthood, had stigmatised it as a "miserable" ordinance in a moral point of view. The advocacy for the *Zeit* produced the writings of a Catholic professor at Breslau, to the same effect, in order to show that he had not transgressed a liberty generally recognized. He was, however, condemned and sentenced to pay a fine. The article, it transpired, had been forwarded to the paper by a priest in Bohemia.—*European Times.*

SENATOR SUMNERS.—The *N. Y. Courier and Enquirer* publishes three letters from physicians of Senator Sumner, which effectually put at rest the base and heartless slander that he was keeping quiet for political effect. They come from Dr. Perry, Dr. Lindsly, and Dr. Wistar. A portion of the letter is as follows:—

PHILADELPHIA, Oct. 2.
SIR,—In reply to your inquiry, I begin by stating that my intercourse with Mr. Sumner has been wholly of a professional and social nature, as personally, I should derive no satisfaction from the success of these political principles to which he is committed.

I never saw Mr. Sumner before the 9th of July, when, upon his arrival in Philadelphia, he came under my professional care. Since then, down to the present moment, he has acted entirely in compliance with my advice, given to promote his recovery to health at the earliest period. I have insisted upon his seclusion, much in opposition to his own earnest desires, and the repeated calls of some of his political friends, convinced that his early recovery depended upon his entire abstraction from all excitement.

I make this statement in justice to Mr. Sumner, in order to repel the unfounded rumors of his complicity with party tactics in thus withdrawing himself. What he has thus done, he has done absolutely under my professional direction, and in the discharge of my duty I could not have given any other advice.

THE GREAT COMET OF 1856.—We have on a former occasion alluded to the probable return during the present year, of the great comet of 1264 and 1556, with a tail of 99 degrees and much historical celebrity. We now perceive that Mr. Hind, a distinguished English astronomer, who has furnished the best accounts of the comets observed during many hundred years, has enlisted Professor Littrow of the Imperial Observatory of Vienna, in his inquiries. The result of the discovery of the original chart and observations of the celebrated astronomer, Fabricius, and those of the Nuremberg observer, Joachim Heller. Their opinions, supported by that of Halley, confirm Mr. Hind in his own, that this magnificent comet may be momentarily looked for. Its re-appearance, says Mr. H., is near at hand.—*N. Y. Tribune.*

MELANCHOLY CASUALTY.—The body of a girl named Mary Brown, about fourteen years of age, was discovered yesterday morning about 6 o'clock, lying at the bottom of the Mill-pond in Carleton. Under the bridge connecting the two wards, and a few yards to the Southward of the building occupied by Messrs. Bond, DeNett and others.—*New Brunswick.*

READER, ARE YOU AFFLICTED WITH any kind of humors or suffering from the effects of indigestion, flatulency, costiveness, troubled with bilious stomach, affection of the liver, or the piles? If so, consult your physician and he will undoubtedly advise you to procure a bottle of G. W. Stone's Vegetable Liquid Cathartic, as it has been proved a reliable remedy in all the above complaints.

Special Notices.

WORLD'S BLESSING!

DR. J. B. N. GOULD,

Rheumatic, Neuralgia and Spinal Balm.

Cures from 12 to 48 hours, removes Rheumatic and Neuralgia Pains in fifteen minutes.

We would call the attention of our readers to the above wonderful preparation, used only as an external application. The following is sufficient to satisfy the most sceptical of its virtues:

Boston, April 9th, 1855.

DEAR SIR,—Ever since this session of the Legislature commenced, I have been severely afflicted with inflammatory Rheumatism. I expended much money without obtaining any relief, when one of our Representatives brought me a bottle of your "Rheumatic Balm," and from its first application the pain began to decrease, and I am now almost entirely free from the affliction. You are aware that I ordered six bottles more, which I distributed among suffering friends, and in every instance it has afforded immediate relief. I give you this testimony of the worth of your medicine, unsolicited, as a slight token of my appreciation of your endeavors to soothe the pain and anguish of your fellow men. Very respectfully,

W. E. P. HASKELL,

Clerk Mass. House of Reps.

Dr. J. B. N. Gould, East Abington, Mass.

Dr. J. B. N. GOULD: Dear Sir,—Feeling confident that there are thousands of persons in the world that suffer with Neuralgia, I feel it a duty I owe to you and to the public to make the following statement known. I have been suffering from Neuralgia in the face and head, once or twice a month, for fourteen years. It was so severe, I have been obliged to leave my business, and confine myself to my room, one or two days at a time, suffering all the time the most intense pain. I have tried for years all the remedies that were advertised, also all the prescriptions given by physicians, and had experienced no particular benefit; and had made up my mind there was not anything that would give relief, and supposed I must suffer for the remainder of my days with this unwelcome disease. I saw the advertisement, last spring, of your Rheumatic and Neuralgia Balm, and as it was highly recommended, I concluded to try it; but I had no confidence in its virtues. I applied it according to the directions, and in a few hours was relieved. That was three months since, and I have not had the slightest attack; and I feel thankful to you, sir, for so great a blessing.

WORMS.—As this is the season of the year when worms are most formidable among children, the proprietors of McLane's Vermifuge, Fleming Bros. of Pittsburgh, beg leave to call the attention of parents to its virtues for the expelling these annoying, and often fatal enemies of children. It was invented by a physician of great experience in Virginia, who, after having used it for several years in his own practice, and found its success so universal, was induced at last to offer it to the public as a cheap but certain and excellent medicine. It has since become justly popular throughout the United States, as the most efficient Vermifuge ever known, and the demand has been steadily on the increase since its first introduction to the public.

Purchasers will be careful to ask for Dr. McLane's Celebrated Vermifuge, manufactured by FLEMING BROS. of Pittsburgh, Pa. All other Vermifuges, in comparison, are worthless. Dr. McLane's genuine Vermifuge, also his Celebrated Liver Pills, can now be had at all respectable Drug stores. None genuine without the signature of FLEMING BROS.

HOLLOWAY'S PILLS will cure any disease of the Liver and Stomach after all other remedies have failed.—There is no medicine in the world which enjoys such an extensive sale as these invaluable Pills, and none which deserve it, the myriads of individuals who have been restored to health after every other remedy has failed, is the chief and deserved cause of their popularity, they have been introduced into every country of the world, and have been found signally efficacious in all disorders incidental to the human frame; liver and stomach complaints are quickly carried off by their use, and their virtues in severe cases of dropsy, are the most extraordinary ever witnessed by man.

MOFFAT'S LIFE PILLS AND PHENIX

BITTERS.—It is a common thing for a person to say they don't feel well, have a slight cold in the head—"it is nothing"—but if not attended to, shaking fits follow, then fever and ague, heart burn, and flatulence at the stomach. For any of these symptoms the Moffat medicines will prove a safe and certain cure. Sold by the Proprietor, 335 Broadway, New York.

W. T. BAIRD, Agent for the County of Carleton.

A. P. HAYWOOD, Agent for Houlton.

THE GOOD SAMARITAN OUTDONE.

Mrs. M. N. Gardner, whose biography lies open before us, has certainly been a Good Samaritan on earth, and the Indian maiden, Nahmonitah, can never be forgotten as the compounder of the celebrated Indian Balm of Liverwort and Hoarhound which is saving thousands in our midst, doomed victims of Consumption or sufferers from severe Colds and Coughs, Asthma, Croup and Bronchitis. This pleasant medicine has great and sovereign virtues,

and should be early employed in all cases of Lung complaints. It is for sale everywhere. Messrs. Weeks & Potter's, 154 Washington Street, Boston, General Agents. W. T. BAIRD, Agent for Woodstock.

MARRIED:

Long may they prove 'tis hallowed ground
Where mated hearts are mutual bound!
The spot where love's first links were wound,
That ne'er are riven,
Is hallowed down to earth's profound,
And up to heaven.

On the 22d inst., at the residence of the bride's father, by the Rev. John Prince, David R. Thomas to Louisa P. youngest daughter of Solomon W. Gray, both of Woodstock.

[For a generous portion of delicious cake the Editor tenders his thanks.]

On Saturday, Oct. 15, at Houlton, Me., by J. F. W. Hall, J. P., Mr. John H. Robinson to Miss Harriet Elizabeth Robinson, both of Brighton, Carleton Co.

[Thanks for the usual remembrance.]

DIED:

At Grand Falls, Sept. 30th, after a lingering illness of several months, Elizabeth J. H., wife of A. W. Raymond, Esq., and eldest daughter of the late Andrew B. Hammond, of St. Leonards, aged 23 years and 9 months.

At Richmond, on the 15th inst., Isabel, daughter of Mr. Thomas McBride, aged 3 years and 5 months.

The precious gift of a gracious God,
To loving parents given,
Has been recalled by his blest word,
To be a saint in heaven.
Then mourn not, parents, for your loss,—
'T was he who gave her that took her away;
Our Saviour died upon the cross,
To make her happy in the Judgement Day.

New Advertisements.

SOMETHING NEW.

THE subscriber would respectfully announce to the citizens of this place and vicinity, that he has fitted up rooms in the COMMERCIAL HOTEL, and is prepared to take that new and beautiful style of Pictures known as

AMBROTYPES,

in as good shape as they can be obtained in this or any other country.

The superiority of the Ambrotype over any other kind of picture cannot be questioned. They possess the following advantages over the Daguerreotype:—They have not that disagreeable reflection peculiar to the Daguerreotype, but can be seen in any light or position. They may be put up natural or reversed, with or without color. You do not have to sit more than one fifth the time required to take a Daguerreotype, and can consequently get a much better expression. They are not liable to fade. They cost no more. Children's Pictures taken in two seconds in clear weather.

Having on hand a good assortment of Fancy and Common Cases, and some large size oval black Frames, he feels confident that he can satisfy all those who may favor him with a call.

Pictures taken at all times, without regard to weather.

The public are respectfully invited to call and examine specimens.

WOODSTOCK, Oct. 25.

WILLIAM LINDSAY,

IMPORTER OF

Hardware and Saddlery Goods.

WOULD respectfully inform the Public that he has received, direct from the Manufacturers of England and the United States, selected by himself in person, the largest assortment of HARDWARE and SADDLERY GOODS ever offered in this market, viz:—

By the John Duncan, and also by the Courier—
4 cases Harness Mounting;
1 do. Files;
1 do. Butt Hinges;
1 do. Barn and Stable Door do.;
1 do. Knives and Forks;
1000 gross Wood-Screws;
38 doz. Whiphongs;
11 doz. Augurs, assorted sizes.

Electro-Plated Table and Tea Spoons; Plated Forks; Chest, Trunk, Tilt, Cupboard, Door and Pad Locks; Horse Brushes; Curry and Mane Combs; Trace and Halter Chains; Girth Web; Shoe-Thread; Brick and Plaster Trowels; Planes and Plane-Irons; Chisels and Gouges; Bells; Nails of all descriptions,—together with every variety of Goods belonging to a Hardware establishment.

Persons engaged in Harness-Making are invited to call and examine this splendid assortment, as the subscriber flatters himself that, from his long experience in the business, he is fully capable of making a proper selection. His Mountings, he believes, cannot be equalled in the Province.

The whole is offered for sale either by

WHOLESALE OR RETAIL,

on as favorable terms as can be procured in the American or Provincial Markets.

* * * Saddle and Harness Making carried on as usual.

WILLIAM LINDSAY,

South end Maduaxkik Bridge.

Woodstock, Oct. 25, 1856. 34y
