

22nd, at Liverpool from Quebec. Fulton, also Canadian and Quebec steamers, carried a brief manifesto that when Congress broke up, the great powers saw elements fraught with danger to peace in Belgium, Greece and Naples; that of those states Naples alone refused to accept friendly advices, and that in consequence the Western Powers will cease diplomatic intercourse.

NAPLES.—The British fleet is somewhere in the Mediterranean. French ships continue at Toulon, ready for sea. One statement asserts that Baron Brenier, the French envoy, announced to Neapolitan government that if he did not receive satisfactory communications within two hours he would press his last instructions, said instructions being doubtless to demand passports. The Cologne Gazette, and the Independent Belge, two generally reliable journals, express themselves very positively on the subject. The advice of the Emperor of France it seems was that King Ferdinand should change some of his ministry and place Prince Sabina at its head; while warning him against the ill will of England, the Emperor is further represented as having recommended to King to trust to the moderation of Emperor of the French, and accept him as a mediator.

The hopes of a speedy reassembling of the Paris conference begins to be shaken, the resistance is said to come from the English government, whose views seem to prevail.

BRITAIN.—Parliament is further prorogued till December 16th. The citizens of Dublin gave a banquet on Wednesday 22nd to near 4000 troops who served in the Crimea; the Mayor of Dublin presided, supported by Lord Lieutenant Carlisle, Lords Gough, and many other gentlemen. Banquet was superior in quality and arrangement to London dinner to guards. Edinburgh will give similar banquet on the 31st.

French correspondence gives prominence to accounts of the Imperial gaities at Compiegne where the Emperor is enjoying hunting by day and fancy balls in the style and costume of Louis fourteenth by night. Numerous arrests have recently taken place in the department of the Deux Seines, where a secret society of a dangerous description has been discovered. The society was organized by tens and hundreds, all trained to obey orders for the destruction of the rich. Sixty persons were arrested but the peasants armed with pitch forks attacked the escort and rescued the prisoners. New arrests have also been made in the Faubourg St. Antoine, within a few days. Report of the Bank of France is rather more favourable, although the bank has adopted yet more stringent measures and will not make any advance at present on railway shares or rents.

SPAIN.—Accounts from Madrid speak of a new ministerial crisis, the object being to throw Murray overboard and restore absolutism. The Marquis of Veluma, head of absolutism party, is spoken of as the coming man; but he in the mean time declines the responsibility. It is said that O'Donnell is put in command of the household guard as a check upon Narvaez. Benckendorff the Russian envoy has had a cordial reception from the Queen. A daughter has been born to the Duchess of Montpensier.

ITALY.—The Grand Duke of Tuscany, taking alarm at the demonstration against Naples, appears disposed to grant some concessions to his people, by reorganizing with some modifications of the Constitution of 1848.

The Paris Constitutional asserts, as if from sure source, that in consequence of the negotiations between Austria and Rome, the Austrians are about to withdraw and will retain only two points, Ancona and Bologna. A treaty has been concluded between Russia and Naples, placing the ships in Russian ports on the footing of the most highly favoured nations.

SWITZERLAND.—The Neuchâtel prisoners have been dismissed. The federal government is making efforts to be represented in the congress of Paris.

The Sultan has sent orders to Redchid Pacha to form a new Ministry. Redchid declined on the plea that the question under deliberation just now would undergo a sudden change; the real cause was difference of opinion with the French minister respecting the union of the Principalities. An attempt had been made to induce Mustapha to take office but he refused.

A treaty has been concluded between France and Belgium providing that no regicide shall be sheltered in Belgium as a political offender.

Despatches from Constantinople, no date, say that General Guion has died of the cholera.

The Morning News says:—"We understand that 30 miles of the St. Andrews Railway will be put under contract immediately."

FISH SHOW.—The annual show of fish, held under the auspices of Campo Bello Fishery Society, took place on that island on the 16th ult. After the exhibition was over the guests sat down to a sumptuous dinner, at the mansion of Capt. Robinson, R. N., President of the Society. The St. Stephen Brass Band was present. The proceedings terminated with a ball.

RETURN OF PRINCE NAPOLEON.—The Imperial yacht, the Rein Hortense, arrived at Havre on the 6th, with Prince Napoleon on board, having effected the passage from Hamburg in fifty-two hours. Immediately on the arrival of the vessel his Imperial Highness was waited on by the Commissary-General of Marine and the Colonel of the 29th Regiment of the line, whilst a considerable crowd of spectators assembled on the quay. The Prince seemed in excellent health, as did all the persons who accompanied him. The yacht, after a cruise of 13,000 miles, would it was thought, remain some days in the Vieux Bassin to effect some slight repairs. His Imperial Highness left Havre on Monday night by the express train, and arrived at the Palais Royal on Tuesday morning about one o'clock.

A POLITICAL SOIREE.—On Tuesday evening, 7th instant, a somewhat novel experiment was made by Mr. Ernest Jones, the chartist. By invitation and advertisement, the public were summoned to St. Martin's hall, London, to assist at what was termed a "political soiree," and the cards of admission concluded with the words, "Music at 8 o'clock." At that hour about 300 persons, or perhaps more, assembled, but the area of the hall appeared somewhat empty. Mr. Ernest Jones shortly afterwards appeared on the platform, accompanied by seven or eight ladies and gentlemen, who turned out to be singers and musicians. Mr. Jones then stated that he was about, for the first time, to attempt to blend dry political discussion with a musical entertainment, hoping that by these means he should attract many persons on whose minds he was desirous of engraving essential political knowledge. Mr. Jones's lecture consisted of a defence of chartism, and of an exposition of his well-known views upon capital and labour.

A REMARKABLE WOMAN.—There is said to be living upon Bate's Island in Casco Bay, off the coast of Maine, a woman of the most wonderful powers of hardihood. The Island contains about five acres, the largest portion of which she has put under cultivation, raising a handsome crop of potatoes and other vegetables yearly. The land never was plowed but has been thoroughly hoed over by her. The remaining portion she devotes to raising hay of a superior quality, every crop of which she has mowed and cured with her own hand. The early part of the day she devotes to fishing, going through the breakers in a fragile skiff, rowing single handed where many a strong man would quail and hesitate. The results of her day's fishing she exchanges for money and groceries, with dealers who visit the Island from Portland.

GREAT BOAT RACE.—On Monday last the great trial race came off in St. John Harbour between the Neptune, Union Club, (Sand Cove) and the Xyphias, Indian town Club. Some years ago the Indian town men carried everything before them, in this very Xyphias, beating what was then called the Sand Cove Club, (now the Union Club), among the rest. But the latter have been in constant practice ever since, and have gallantly accepted challenges from both Halifax and the United States, where they have reaped laurels. The Indian town men, meanwhile, were not in practice. Still, such was the prestige of the Indian town men and boat, and such the superior weight of the men, that many supposed they would win. The result, however, has proved the fallacy of their expectations. The Neptune won with ease, beating the Xyphias by nearly two minutes. The crews bet £200 a side, and the excitement outside was tremendous. The Indian town men ascribe their defeat to their boat, which is said to be weak from age.—Head Quarters.

On monetary affairs in England the London Daily News has the following remarks in its edition of Tuesday evening the 14th ult:—

"The Funds showed considerable steadiness at the opening of business this morning. It transpired soon afterwards, however, that the Directors of the Bank of England have curtailed their advances upon Government Stock to seven days to the ordinary period of fourteen. This circumstance being related as anticipatory of a decided strain upon the Bank's resources at once caused a fall, and the market closed with a flat appearance at a reduction of three-eighths per cent. from the final quotations of yesterday. It is also confirmed that the Bank, with a view to withdraw notes from circulation, and to strengthen its position, has itself been borrowing money upon stock in the market. Under these circumstances, much uncertainty is felt as regards the renewal of loans. The more prudent speculators are evidently acting upon a belief that it is dangerous at present to hold stock by means of borrowed money. In the Stock Exchange to day, money did not command more than five per cent. upon Government securities, but this merely represents the rate currents for loans from day to day. In the Discount market, full rates continue to be exacted. Owing to the magnitude of the advances recently obtained from the Bank by the public, of which a large amount quickly falls repayable, it is apprehended that the relief afforded by the dividend payments will be merely temporary.

FIRE AT ST. JOHN'S, N.F.—A telegraphic despatch from Newfoundland states that a fire occurred at St. John's on the 22nd Oct., which destroyed over one hundred tenements. The loss is estimated at \$50,000.

FIRST SNOW OF THE SEASON.—A gentleman who has just returned from a tour in the Eastern portion of the Province, informs us that there was a fall of snow in Albert County on Friday the 24th inst. The weather was cold, and in many parts the snow which covered the ground was upwards of one inch in thickness. This is probably the first snow storm of the season that has occurred in this Province.—News.

NICARAGUA.—The latest arrivals from Nicaragua report that the long expected battle between General Walker and the opponents of his rule has been fought at Granada. On the 12th inst., General Walker, at the head of one thousand men, attacked the allies, four thousand strong, near Masaya, repulsed them, drove them into the town where the battle raged till midnight. Meantime, a large body of Guatemalians besieged Granada. Receiving intelligence of the attack, Walker immediately marched to the relief of the capital. He reached the heights, surrounded the city, at ten o'clock in the forenoon, charged upon the enemy, drove them from their posts, capturing their commanders and their cannon, and routing them completely.

The telegraphic despatch states that the enemy lost eleven hundred men, but this is undoubtedly an error. Walker's loss is said to have been only sixteen killed and thirty wounded. If this victory is as decided as it is represented to be, Walker's government may be considered as firmly established.
