## MANNY'S CELEBRATED MOWER,

## MOWER AND REAPER.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West. Its success is beyond that of any Mower or Reaper ever constructed. Over 150 First Premiums have been awarded it, including the Grand 1st Class Silver Medal at World's Fair, Paris, 1855, and Gold Medal, as Best Mower, Paris, 1856.

With the two past years' experience, we have been enabled to make a number of very important improvements. We find New England Farmers require a different Machine from other sections; the fields generally being small. It must be light, at the same time possess great strength; portable with facilities to raise the cutters to pass obstructions, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to be able to start in the grass without backing, easily adjusted to cut high or low, and have a Reel to cut with or against the wind, and to be worked with ease with a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built of the best materials and in the most thorough manner.

With this knowledge of the farmer's requirements, and with the determination to build a better Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of the New England farmers.

The Machine can be seen by calling on D. V. B. ORMSBY, in Fredericton.
