

With much pleasure we accede to the request of our friend at Richmond, and publish the article on Sabbath observance, from the Bath (Eng.) Chronicle, which he so kindly sent us.

We learn by late English papers that serious fears are entertained that there will not be raw cotton enough to supply the demand of consumers for the coming year.

BY TELEGRAPH. [Reported for the Sentinel.] ARRIVAL OF THE BALTIC.

NEW YORK, Nov. 10. The steamer Baltic, from Liverpool, Oct. 29th, arrived at New York to day.

The Paris Moniteur contains an official paragraph threatening a dissolution of the alliance, consequent upon the British press publishing calumnies against the French Government. The British Government will ask an explanation of the threat.

The French and probably the British Embassies left Naples on the 26th.

A German paper says the squadrons goes to Naples in three weeks if matters are not settled.

The entire Turkish Ministry has resigned. The Spanish army is to be increased.

MARKETS.—Cotton and Provisions unchanged.—Wheat advanced 1d on the best; other Breadstuffs dull.

Money unchanged. Consols 92½. New York, Nov. 13.

Europa, from Liverpool 1st, arrived New York to-day.

Neapolitan question in statu quo.

Rumored that Austrians give flat refusal to French request to evacuate Danubian principalities.

Cotton unchanged. Breadstuffs steady. Provisions quiet. Money market unchanged. Consols closed 92½ to 92¾.

THE RUSSIAN MANIFESTO.—The Manifesto referred to in a late issue which has created so deep an impression in Europe is addressed by Prince Gortschakoff to the diplomatic agents of Russia at foreign Courts, and professes to be an exposition of the principles and policy which animate the Court of Saint Petersburg in relation to the independence of governments. This document, which bears date Sept. 2, while laying down the general principle of non-intervention in the affairs of established and independent Kingdoms, is in itself a virtual, if not a direct intervention in the behalf of Greece and Naples against the Western Powers. The gist of this extraordinary State paper is as follows:—

Without entering into a detail of some secondary questions, we are compelled to state, with regret, there are two countries, forming part of the European family, where in one a regular state of things does not yet exist, and in the other it is threatened to be compromised. We allude to Greece and to the kingdom of Naples. The occupation of the Hellenic territory by a foreign force against the will of the sovereign and the feelings of the nation, is now without any just reason. Political motives might, to a certain point, explain the violence done to the sovereign of the country, and necessities of war might be alleged as a reason for such a course, but now, when neither of such causes any longer exist, it appears to us impossible to justify at the tribunal of equity the continued presence of a foreign force on the soil of Greece. Thus the first words pronounced by our august master, when the re-establishment of peace had enabled the Emperor to raise his voice, were clear and precise. We have never dissembled our opinion in the councils of the cabinets, and we shall continue the same. We consider it our duty, however, to add that, although the results have not fully answered our expectations, we retain a hope that we shall not remain isolated on a ground where right and justice are evidently in favor of the cause which we support.

As to the religion of Naples, if the question is not to find a remedy, it appears to us that it is time to seek a means of prevention. The King of Naples is the object of a pressure, not because His Majesty may have transgressed any one of the engagements imposed upon him by treaties with foreign Courts, but because, in the exercise of his incontestible rights of sovereignty, he governs his subjects as he thinks proper.

THE FISHERIES.—A Boston date of the 25th inst. reports thus unfavorably of the Fisheries:—Accounts from the Bay Chaleur are not very encouraging for the late fares. Two hundred vessels are absent from Gloucester, and one hundred are now due, having been absent nearly four months. The second trip of many vessels will be nearly a total failure according to the present appearance.

ARREST OF A WALL STREET BROKER ON A CHARGE OF FORGERY.—STARTLING DISCLOSURE.—Mr. C. B. Huntington, a broker doing business at No. 52 Wall Street, was arrested on Friday, on a charge of forgery, and brought before Justice Osborne, who held him to answer in the sum of \$20,000.

Mr. Huntington, when arrested, gave up to the officers two other forged notes, on the firm of Phelps & Dodge,—one for \$6,500, and the other for \$4,916.61. The notes, he (Mr. H) avers, were received by him from Mr. Fitch. It is asserted that there is a large amount of other spurious paper in circulation in Wall street, and that a further investigation will bring to light some astounding disclosures, and compromise many who have hitherto stood high in financial circles.

We are informed that last year, it is computed, over thirty thousand barrels of apples were exported to New Brunswick and the United States from Annapolis and Corwallis.—Halifax Sun.

We understand that His Excellency the Lieutenant Governor of this Province, and his son, accompanied by several gentlemen, passed through Newcastle yesterday, on a Goose shooting excursion, to the lower part of the County.—Gleaner.

PRESIDENTIAL ELECTION.—The New York Journal of Commerce, a paper in the Buchanan interest says:—The election of James Buchanan to the Presidency of the United States for the next four years from the 4th of March next, is now put beyond all doubt. He is elected by a large majority. Both Houses of Congress will be largely democratic.

The Journal thus proceeds to sum up the vote in the several States of the Union, and shows the following result. For Buchanan 174, Col. Fremont 114, majority for Buchanan, 66.

George Hoyt, Esq., chief operator, under date of Nov. 3d, communicates to the Merchant's Rooms that the line of Telegraph between Halifax and Port au Basques, N. F., and intermediate offices, is now in full operation. The line between that place and St. John's is down, but expects to be in working order early on Tuesday (3rd inst.)—Halifax paper.

MEETING HIS MATCH.—Huntington the great forger, now in the Tombs in New York, was placed with another prisoner a day or two since. The chap succeeded in robbing him of \$200, and was detected in the act of enclosing it in a letter.—When discovered, he threw the letter and money into the Croton water pipe in the cell, from which it was recovered. The thief was locked up in another cell, and will be tried for this larceny.

STRONG RESOLUTION.—A Convention of the Temperance men of New Brunswick, embracing it is said Delegates from all parts of the Province, recently met in this City and among other business the following Resolutions were passed:

"That we regard the means by which the Legislature was dissolved, as an unjustifiable exercise of the Queen's prerogative by her present Representative in this Province: as a direct invasion of the Constitutional rights and liberties of British subjects."

"That we do not regard the late election as a fair test of public opinion of Prohibition, inasmuch as that question was only considered in a subordinate capacity. Questions of constitutional rights and local party interests being the most prominent in the contest."

"That a Committee be appointed to prepare a statement of the circumstance under which the Legislature was dissolved, and the Prohibitory Law repealed, to be embodied in an address to the Earl of Harrington, and that that Nobleman be also furnished with a copy of the proceedings of this Convention."—News.

SACKVILLE, Nov. 6.—The British Government having ordered a survey of the several Ports in those Provinces, the Governor of Nova Scotia has appointed Mr. Ince (a gentleman formerly attached to the Ordnance Department in Halifax) to proceed to Fort Cumberland, in this County, for the purpose of making a survey of that Fort. He is now engaged in that duty. Various rumours are in circulation as to what the intention of the home government is in causing this to be done, some think it is preparatory to placing these Ports in a state of defence ere detachments are sent to garrison them.—Borderer.

A prospectus has been issued of the Australian Land and Emigration Company, with a capital of £100,000, its object being to facilitate emigration to the Australian colonies, to buy fertile tracts of land, and to let the same to emigrants who shall be selected as in every respect qualified for the purpose of colonising and improving the land.

New Brunswick, Carleton, ss.

[L.S.] To the Sheriff of the County of Carleton, or any Constable within the said County, greeting.

WHEREAS John Caldwell, Administrator, and Mary Kennedy, Administratrix, upon the Estate of MICHAEL KENNEDY, late of Brighton, farmer, deceased, have prayed that licence may be granted to them to sell so much of the Real Estate of the said deceased as may be found necessary to pay off and discharge the debts due by the said Estate, the personal Assets being insufficient for the same. You are therefore required to cite the Creditors, Heirs, next of kin, and all other persons interested in the said Estate, to appear before me at a Court of Probate to be held at my Office within and for the said County, on Wednesday the tenth day of December next, at three o'clock in the afternoon, to show cause, if any they have, why licence should not be granted to the said Administrator and Administratrix, to sell the said Real Estate, or so much thereof as may be found necessary for the purpose aforesaid, as prayed for by them.

Given under my hand and the Seal of the said Court, this ninth day of November, 1856.

(Signed) LEWIS P. FISHER, A. K. SNEDES WETMORE, Surrogate Co. Carleton. Reg'r of Probates for said County.

FOR BUT ONE WEEK LONGER!

THE subscriber would respectfully announce to the citizens of this place and vicinity, that he has fitted up rooms in the COMMERCIAL HOTEL, and is prepared to take that new and beautiful style of Pictures known as

AMBROTYPES,

in as good shape as they can be obtained in this or any other country.

The superiority of the Ambrotype over any other kind of picture cannot be questioned. They possess the following advantages over the Daguerreotype:—They have not that disagreeable reflection peculiar to the Daguerreotype, but can be seen in any light or position. They may be put up natural or reversed, with or without color. You do not have to sit more than one fifth the time required to take a Daguerreotype, and can consequently get a much better expression. They are not liable to fade. They cost no more. Children's Pictures taken in two seconds in clear weather.

Having on hand a good assortment of Fancy and Common Cases, and some large size oval black Frames, he feels confident that he can satisfy all those who may favor him with a call.

Pictures taken at all times, without regard to weather. The public are respectfully invited to call and examine specimens. GEORGE STACY.

Remember, but one week longer! Woodstock, Nov. 15.

AMBROTYPES

OR DAGUERREOTYPES.

THE undersigned would respectfully inform the citizens of Woodstock and surrounding vicinity, that he has re-opened his Saloon in Woodstock, opposite the Post Office, where he will be prepared to furnish his patrons with first-rate Likenesses, either Ambrotype or Daguerreotype, as they may think proper to choose.

Those who are under the impression that the Ambrotype is superior to the Daguerreotype can have the reasons explained; yet the Daguerreotype has perfections which an Ambrotypist, as yet, has been able to excel,—though either make excellent Likenesses when taken by good Operators.

All kinds of nice Shell Cases furnished as cheap as can be afforded in any country.

* * * A liberal, steady patronage is solicited, as his stay must be a short one.
