The late outbreak, however, would be the death-blow to the system.

The pitch to which the spirit of gambling will sometimes reach, is strikingly illustrated in an anecdote told by Walpole in one of his letters, of an incident at White's Chocolate House, a famous gambling establishment in London. A man droprel down dead at the door, and was carried in; the club immediately made bets whether he was dead or not, and, when they were going to bleed him, the wagerers for his death interposed, saying loss, it would affect the fairness of the bet!

PREPARATIONS FOR THE ROYAL WEDDING .- For several weeks past the greatest activity and anxiety has been displayed at St. James's Palace and the Chapel Royal, to complete the preparations for the forthcoming marriage of his Royal Highness Prince Frederick William, of Prussia, with her Royal Highness the Princess Royal of England. On Thursday morning, shortly after ten o'clock, her Majesty and his Royal Highness the Prince Consort, accompanied by her Royal Highness the Princess Royal, Prince Frederick William, of Prussia, and the Princes Alice, with the lords in waiting, inspected the Chapel Royal and rooms of St. James' Palace. Her Majesty evinced the deepest interest in the progress the workmen have made. The decorations are of the most gorgeous description.

Over 500 Farms For Sale IN NEW JERSEY.

MICA TO ALL WANTING In a Mild Climate, And within an Hour's Ride of Philadelphia, Pa. FARMS FOR SALE in Camden, Burlington, and Atlantic Counties, 23 miles from Philadelphia, on the Camden and Atlantic Railroad, New Jersey. A large tract to be divided into small Farms Railroad, New Jersey. A large tract to be divided into small Farms to suit the actual settler, and all persons desiring a Farm. The soil is of the best quality and very productive. For farming purposes it is unexceptionable. It is being extensively improved by good turnpikes. It lies directly upon the Rail Road, and has the largest market for produce, and adjacent to the largest population in the Union. The farms are made payable in easy instalments as follower. Certificates entitling to locate 20 acres, \$240, payable \$6 per months Certificates for Truck Farms of 10 acres, \$120, payable \$5 per month. Large Farms, 50 or 100 acres or more, at the same rate. This is to be located under valuations placed upon sections at certain and stated times, to accommodate those who cannot locate or settle immediately. The terms are made easy, and payable in instalments, to ensure its rapid improvement, and enhancement in value. Ten thousand neres have been laid out, upon which persons can locate at once, and receive a Deed for the Farms they bu The soil is a fine rich LOAM with a CLAY BOTTOM, and retentive of manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of Crops most adapted to its market, such as Corn, Potatoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for trucking, both on account of the nature of the soil, and its being directly in the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agri-cultural district which supplies the New York and Philadelphia markets, embracing a population of several millions, and where, as may be ascertained from the census reports, farms are the most valuable of any in the Union. All in this neighborhood are exceedingly productive and profitable. Some of this land is now under cultivation Land can be procured already cleared, or partly tin bered; also under cultivation. Houses are already built and for ale, which will answer the temporary wants of the settler. his location is perfecty healthy; fever and ague is unknown. The first division of 10,000 acres has been laid out, and immediately adjoins the town of Hammonton. Some is under cultivation—several thousand acres have been cleared for farms; it can at once be

placed in a state of productiveness; it is coursed by fine streams of soft and pure water; it is being opened by a number of turnpike roads leading into the town. The price of this is from twelve to twenty dollars per scre-payable within four years, by monthly in-staiments of from five to ten dollars for twenty acres; larger Farms in proportion. Everything is on hand to supply settlers - steam and water power saw-inils are in operation. Lumber can be had at a cheap price. A good house can be built at from \$300 to \$500. A brick yard is about being established, and a Isteral Rail Road, threefourths of a mile in length, is under contract, to supply Hammonton with stone from the adjacent quarries; stores, workshops, &c., are about being opened. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hundred thousand dollars more in improvements, such as buildings, The situation of the place is picturesque and beautiful. It is on the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has in Town Lots, the cost of which is from \$25 to \$100. A Company has been organized to build houses and clear farms upon credit, as soon as the property is sold. This will enable many to improve who cannot personally attend to it. Arrangements can at once be made to have houses built and farms placed in order by persons at Hammonton. Owing to a great part being cleared, farms be made immediately productive - when done, they will pay four-fold the cost. In settling here the emigrant has many advantages: He is within a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a SETTLED country, where every improvement and comfort of civilization is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many housands of the young and the hardy, in far off regions, away from This presents a rure opportunity to the industrious-it enables all who wish to better their condition to become independent. It will soon be taken up, and, owing to its rapid improvements, it will greatly enhance in valve. This would all have been settled before than the cost of ordinary trifles, to make a ourchase. There is a principle in investing in Real Estate which controls our success in life. If we look around amongst our friends and acquaintances who have become wealthy, we find it to be by their investing in Real Estate. The commencement may have been small, but it wa-

had it not been held by large proprietors, who could not until re-cently dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and familyin a manner which is safe and certain -against the contingencies of business and misfortunes of life. The terms are such as to enable any man, at a small saving, at less kens the feeling of acquisition, and opens the field to future effort. It is the solid stepping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish It is to be preferred to anything else, because it is always ROUTE: — The railroad Trains go and return from Philadelphia twice a day. Leave Vine street wharf at 7% o'clock, A. M., for Hammonton, and return in the afternoon, (when there, enquire for Judge WALKER, the Agent,) or leave at same place at 3½, o'clock, P. M., and return next morning. There are many already locating, and persons should be prompt, in order to obtain locations to suit them. Committees can go down, examine the land for their friends, and make reports or selections. A large number of Farmers from New England, Pennsylvania, New Jersey, and Delaware are about going there, to commence improvements.
Warrantee Deeds will be given to each purchaser. Title is good and INDISPUTABLE. The first justalment upon a purchase is five dollars: which can be sent by letter, and purchase secured.

LIQUID CATHARTIC. THE public do not require to be told that a mild, safe and reliable cathartic, in a liquid form, agreeable to the taste, and one which purges without violence, is a desideratum in medicine; this fact will be admitted by all. Such a discovery has been often attempted, but without success, until the introduction of the above-named remedy. No patent medicine ever met with such ready approval by physicians as this. Many regular practitioners are asing it daily, all of whom have spoken of it in the highest terms of praise. Persons, for the want of a better, have been obliged to resort to the use of those drastic, nauseous, and oftentimes injurious purgatives, such as castor oil, salts, senna, rhubarb, jallop, alocs, gamboge, &c., all of which cause more or less debility, and fail to accomplish the object for which they are taken; on the contrary, they often increase the difficulty, and render the patient less curable. None of these enter into the composition of this invaluable remedy. It is composed of barks, roots and seeds, the medical properties of which are exactly adapted to the cure of those complaints for which it is recommended. By a combination of those properties, the public were put in possession of the most valuable preparation ever produced. This medicine is not intended simply as a cathartic; its value as such is insignificant when compared with its power of purifying the blood from all humors, regulating the action of the bowels, curing Dyspepsia, restoring the appetite, producing a healthy action of the Liver, freeing the stomach from bile, and invigorating and strengthening the whole system. It is a certain cure for the Piles, and those suffering from that A Sure Cure for HORSE AIL, and other Diseases complaint should give it a trial. It is also warranted to cure canker in its worst forms. For all diseases of the Bowels it cannot be recommended too highly. In Summer Complaints, such as Dysentery, Diarrhoa, Cholera Morbus, &c., it will be found invaluable.

Reader, as sure as the sun rises in the east, just so sure you will be benefitted by the use of this medicine for any of the above complaints; and as surely will it relieve those The above medicines require no puffing to effect suffering from Rheumatism, Neuralgia, Tie Doloureux, Debility, &c., is often produced by wind in the Stomach which this remedy will expel at once. It is also an excellent remedy for Sca-Sickness. Those having occasion to travel by water will find it invaluable.
