

SPECIAL NOTICE.

CLUBS!

To our Friends everywhere!

To any Lady or gentleman getting up a Club for the Sentinel, commencing 1st September next, we offer the following inducements:

CARLETON SENTINEL.

Woodstock, Saturday, Sept. 29, 1857.

SUPREME COURT, VICTORIA CO.

This Court was opened at Grand Falls on Wednesday last, Hon. Judge Wilmut presiding.

After opening pro forma, the Grand Jury having elected Mr. Wm. Hartt their foreman, His Honor delivered his charge in substance as follows:

His Honor said he should, in the remarks he had to make to them, endeavor to be as plain in the language used as possible; because he noticed that there were several Frenchmen among them, and if he succeeded in making himself understood by them, those who were English would certainly understand him.

He congratulated them on the fact that there were so many of them brought under their notice. The Judge, he said, was always pleased to find few criminal cases. It was a good sign when there were no criminals for the Jury to try and no punishment for the Judge to inflict; it proved that the people of the County were industrious, and living at home upon themselves.

There was but one case to be brought under their notice. It was a small case, one which should have been settled elsewhere, nor allowed to come before the Court, it was for stealing an axe.

The prizes will consist of six months numbers of either of the following: Harper, Godey, or Arthur's Magazines; Harper's Weekly, Olive Branch, Weekly Dispatch, or Saturday Post newspapers.

We trust our young friends will take hold of this matter with a will.

The St. Andrew's Standard has the following, which we are pleased to transfer to our columns, and we hope to participate in the good time expected at St. Andrew's on the 1st October:

NEW BRUNSWICK AND CANADA RAILWAY.—Opening of the Road.—We have this morning the sincere pleasure of announcing, that it has been determined to open the road for general traffic on the 1st of October, and that an excursion will be made on that day from the station at St. Andrew's to the temporary terminus at the Barabar Dam, and back without charge.

It is expected that the proprietors of the steamers in this vicinity, and St. John, will give excursions to St. Andrew's on the occasion, and afford visitors an opportunity of taking a title gratis on our railway. We learn from an advertisement in another column, that ample arrangements have been made by Mr. E. Phelan to provide breakfast and refreshment at the Barabar Dam for the low price of 2s. 6d. per ticket.

The Supreme Court meets on Tuesday next. From the Royal Gazette.

PROVINCIAL APPOINTMENTS.

His Excellency the Lieutenant Governor in Council has just been pleased to make the following appointments:—

John Honorable David Wark, and Henry Fisher, Esqrs., to be Commissioners to enquire into the management of the Provincial Penitentiary, Lunatic Asylum, Saint John Main Hospital, and the Light House, agreeably to Address of the House of Assembly.

Richard Sutton and Learned M'arren, Esqrs., to be Commissioners to enquire into the management of the Lazaretto at Tracadie, agreeably to an Address of the House of Assembly.

Thomas D. Wilson, Esquire, to be a Director in the New Brunswick and Canada Land and Railway Company, in the room of James Boyd, Esquire.

William Steadman, Esquire, to be Railway Station Master at Moncton.

Patrick Curran, Esquire, to be Seizing Officer of Timber and other Lumberillgally cut from Crown Lands on the River Saint Croix and its branches, in the room of John Campbell, Esq.

James M. Parker to be Warden of the Fisheries in the County of Charlotte, in the room of James Brown, Esquire.

Thomas C. Atherton and Jared Ingraham, to be Commissioners to improve the Troving Path from the Nackewick upwards towards Woodstock.

John Taylor to be Commissioner for the Parish of Manners-Sutton, except the Brookway Settlement, under the Crown Debt Commutation Act, Revised Statutes, Cap. 8.

By His Excellency's Command. S. I. TILLEY. Secretary's Office, 14th Sept. 1857.

COMMUNICATED.

Mr. Editor: In your paper of the 5th and 12th inst., I observed two communications signed "K," reflecting in the grossest language on my conduct, with regard to the "famous resolution," called "Mr. Hayward's." The public has no right to expect me to answer an anonymous scribbler who lacks the courage to avow his real name; but who, to vent his malice, has heaped upon me all the opprobrious epithets his filthy vocabulary contains.

Under the hypocritical pretence of refraining from attacking my private character, he throws out insinuations false and slanderous.

How cunning, abject sycophancy, and disgusting meanness, can entice your correspondent to respect and consideration, no doubt his communications have been damaging; otherwise his clumsy slang will revert to its fount source.

When Mr. Hayward laid the resolution in question before the Board, he said, "Here is a resolution that was handed in to me, and I shall put it before the Board." "Then it is not your child," from one of the Councilors. After this confession it is difficult to see why the resolution should be called "Mr. Hayward's." I had hoped, Mr. Editor, that one could be excused for not having shown any overweening partiality for such an ill-favored bastard; but it appears that I have been woefully mistaken; being entirely ignorant of, and deficient in, the true instincts of pure Smasherism.

Our friend the "Dominie" is out of town. He will be back again by-and-by, to answer "A Student." Meanwhile, we will say, for cool effrontery "A Student" is a very paragon; but to be misled by him. Ah! Friend "Student," falsehood implied is as bad as falsehood directly uttered. Go to!—join the school of Truth—learn that it is no disgrace to miscredit a quotation; but it is disgraceful, by brazen-faced effrontery, to endeavor to make a mistake appear correct. Go, court the nymph described by Campbell—"Truth, ever lovely!"

B. O'Brien, Esq., has sent us another No. of "Chamber's," a valuable journal of popular literature, science and art.

To Correspondents.—"R. M. P."—all right. "B." will appear next week.

Notice.—The Lord Bishop of Fredericton purposes visiting this portion of his diocese in the course of the ensuing week, and will administer the holy rite of confirmation at St. Luke's Church, on Sunday the 27th inst. Divine Service to commence at 10 o'clock, A. M. On Monday his Lordship will confirm at St. John's Church, Richmond, service to commence at 11 o'clock, A. M.

We repeat the statement published some weeks since, and trust general attention will be given to it.

We want to obtain information, and offer prizes to be bestowed upon the writers of the best essays, descriptive of the early settlement, history, and other interesting data of the different Parishes in this County.

The same person is not to write on two Parishes, but to confine himself entirely to one.

The essays must be sent in by Christmas; the name of the writer accompanying them in a sealed envelope; not to be opened till after decision by a suitable committee at New Year's, when the prizes will be awarded.

The writers, young men or ladies, must be subscribers, or children of subscribers to the Sentinel; this is the only condition.

The prizes will consist of six months numbers of either of the following: Harper, Godey, or Arthur's Magazines; Harper's Weekly, Olive Branch, Weekly Dispatch, or Saturday Post newspapers.

We trust our young friends will take hold of this matter with a will.

COMMUNICATED.

Mr. Editor: In your paper of the 5th and 12th inst., I observed two communications signed "K," reflecting in the grossest language on my conduct, with regard to the "famous resolution," called "Mr. Hayward's." The public has no right to expect me to answer an anonymous scribbler who lacks the courage to avow his real name; but who, to vent his malice, has heaped upon me all the opprobrious epithets his filthy vocabulary contains.

Under the hypocritical pretence of refraining from attacking my private character, he throws out insinuations false and slanderous.

How cunning, abject sycophancy, and disgusting meanness, can entice your correspondent to respect and consideration, no doubt his communications have been damaging; otherwise his clumsy slang will revert to its fount source.

When Mr. Hayward laid the resolution in question before the Board, he said, "Here is a resolution that was handed in to me, and I shall put it before the Board." "Then it is not your child," from one of the Councilors. After this confession it is difficult to see why the resolution should be called "Mr. Hayward's." I had hoped, Mr. Editor, that one could be excused for not having shown any overweening partiality for such an ill-favored bastard; but it appears that I have been woefully mistaken; being entirely ignorant of, and deficient in, the true instincts of pure Smasherism.

before the Board." "Then it is not your child," from one of the Councilors. After this confession it is difficult to see why the resolution should be called "Mr. Hayward's." I had hoped, Mr. Editor, that one could be excused for not having shown any overweening partiality for such an ill-favored bastard; but it appears that I have been woefully mistaken; being entirely ignorant of, and deficient in, the true instincts of pure Smasherism.

The resolution publicly declared that many of the officials in the Province took an active part in opposing the return of Liberal candidates to the House of Assembly. Why did it not point out the individuals? This duty, it would seem, is reserved for another tribunal, that of our two representatives. Now no doubt they were perfectly well acquainted with the "prevailing opinion of the country;" and then, what need of the action of the Municipal Council? Let the responsibility rest where it properly belongs, and let not the Municipal Council assume to itself functions it does not possess.

I have never heard any argument to show that the public interests would be better subserved by a change of officials with every change of administration. That some of the supporters of that resolution did so on principle, may be true; and if so, they are undoubtedly entitled to respect, for honestly avowing and maintaining their principles; but it is absurd to say that the people wish to see offices requiring honesty and experience for their efficient discharge made the reward of political hucksters and electioneering rowdies.

Because I would not lend my voice to persecute and proscrib all who did not support the two successful candidates for this County, I have been stigmatized and vilified as a mere culprit. This of course was to be expected, since political scavengers are compelled to do any amount of dirty work set before them by their insipid masters.

To my constituents, and to them alone, I hold myself responsible, knowing that they would not condemn any man without having first given him a fair trial and found him guilty; and as for the "K," he shall have at my hands the treatment he deserves—contemptuous silence.

Yours, &c.,

IVORY KILBURN.

To the Editor of the Carleton Sentinel: Sir: I see in this day's Journal that a person, styling himself "A Townsman," has been making an attempt to vindicate the conduct of some of the Councilors who opposed Mr. Hayward's Resolution. I say some of the Councilors, for although he mentions the name of Mr. Craig, he does not say anything in his defence.

It is in my opinion, that the government is in a state of confusion, and that the public interest is being sacrificed to the interests of a few individuals. It is stated that the government has actually offered terms to which the directors assented, subject to the confirmation of a special meeting of the proprietors.

The Great Eastern will be launched in the first spring tides of next month (October). The day is not as absolutely fixed, but this important event will probably take place on Monday, the fifth of the month. The tides will be highest on that day.

LUIS KOSOVICH.—This illustrious exile and distinguished patriot, passed through Glasgow yesterday on his way to Anzeola hotel, accompanied by his wife and daughter, where he is sojourning for three weeks. He is in much better health than when last in Scotland.—North British Daily Mail.

INDIA.—The Daily News suggests that arrangements should be made on a large scale for bringing up the wives and children of officers and soldiers in India.

Amongst the passengers by the Ripon, which arrived on the 4th, is Miss Stallard, who narrowly escaped being slain at Meerut; she was afterwards in a carriage with five others, three of whom were murdered. Mr. Hay, a Missionary, with his wife and children, and passengers, they escaped with only a few shillings. To Calcutta passengers seem to think the mutineers at Delhi could not hold out much longer. Although the ordinary telegraphic advices from India are not expected before the 10th or 12th, it is not impossible that news of the Calcutta passengers by the Ripon believe that when Delhi had fallen the mutiny will spread till further extending to various parts of India.

THE GREAT EASTERN STEAMSHIP.—We have received a letter from a gentleman intimately connected with the administration of the Great Eastern Steam Navigation Company, dated London the 1st inst., stating that the Directors has just then decided that the wonderful ship is to be launched at Millwall, on the banks of the Thames, near London, during the early spring tides of next month, which is thought probable, the present cable will be about 15,000 to 15,000, and the Engineers stand about the same as last year, giving the slave democracy one fifth or the House, and possibly a Senator or two.—State of Maine.

GENERAL INTELLIGENCE.

NEWS BY THE "PERSIA."

The steamship Persia brings us three days later news than that by the Baltic. From our files we have selected such items as have not previously appeared.

GREAT BRITAIN.—Rumors of ministerial changes continued to be propagated. The London Star says: "Sir Charles Wood, it is believed, will leave the Admiralty and take the Board of Control, while Sir James Graham will become first Lord of the Admiralty. Lord Palmerston is reported as anxious to resign, to be succeeded by Mr. Cardwell or Mr. Herbert. Admiral Berkeley, the senior Naval Lord of the Admiralty, will retire, having lost his seat in Parliament, and we hear will be succeeded by Admiral Pechell, M.P. for Brighton."

An important meeting in favor of the scheme for the improvement of the navigation of the rivers of India, with a view of increasing the supply of cotton from India, had been held at Manchester. The Warwick cup race is thus described: Fisherman went with the Locomotive lying off on the 20th inst. The only change in the positions took place at about a mile from home, when Locomotive went up Oakball's quarters, but soon afterwards dropping back again. Fisherman was never caught, and won in a canter by a length. Locomotive was beaten by upwards of twenty lengths.

A return from the Board of Trade of the exports for the first half of 1857, shows that thirty per cent. of the aggregate shipments go to British possessions, and nineteen per cent. to the United States.

The Morning Advertiser says: "We are informed by a correspondent that the government is in a state of confusion, and that the public interest is being sacrificed to the interests of a few individuals. It is stated that the government has actually offered terms to which the directors assented, subject to the confirmation of a special meeting of the proprietors."
