Mesultory.

A HUMAN HAIR FAIR -Very few of our gentle readers, probably, ever heard of or imagined such a thing as a Human Hair Fair. As few, perhaps, ever thought of inquiring into the source of the girls of the neighborhood, famous for their fine and abundant heads of hair, were flocking to the market like sheep, to be shorn of their locks for the adornment of other and prouder heads. Even young husbands accompany their wives to insist upon their despoiling themselves, for a trifling consideration, of their beautiful heads of hair .-Twenty francs (four dollars) is the highest price which is given for the richest head of hair, and a majority of the damsels part with their locks for a

tenth part of that sum. This singular market is held in the open street, and attracts crowds of curious as well as interested FIRE & LIFE INSURANCE COMPANY. persons. Girls are seen to be sheared in public, while others are waiting their turn, with their capa in their hands, and their long hair combed out and Thomas Brocklebank, Esquire, Chairman; hanging down to their waists. The shearers are Joseph Christopher Ewart, Esq., M. P., and Francis Hay men as well as women. Some of our fair readers wood, Esq., Deputy Charmen. will conclude that this must be a degrading scene. winton Boult, Esq., Secretary. But how else could the stock of wigs and frizettes and band and top-pieces and curls which is needed to prop up the tottering beauty of the sex, be supplied? Tons of black silken hair, sheared in the manner above described from the heads of the peasant damsels of the south of France, are imported

into this country annually. There are fairs in other places in the south of France and in Brittany, where adventurous virtudamsels. At first blush, it would seem that fe- Policy includes the risk from lightning. male vanity would effectually prevent such a traffic as this. But cupidity and indolence are stronger loss. than vanity; and fashion even lends its aid to this singular custom of parting with the finest ornament to the person which nature affords.

In Brittany, particularly, where the finest and most silken black is procured, it is the universal fashion, from childhood upwards, to wear caps so responsible Company, with unlimited security. close as completely to conceal the hair. The peasant girls there have particulary fine hair, and in Please apply to the greatest abundance. It is so common as not to be a mark of beauty; and the people are morally incapable of appreciating it as intrinsically beautiful and attractive. It is a truth which ought not to be told, perhaps, in presence of all our ladies, that the charming frizettes and tresses which beautify the heads of our blooming belles, may possibly have been shorn from Breton damsels of very

filthy and loathsome habits. The Bretons are neither Normans nor French. but more Welch than anything else; and they are wild and savage, and as idle and dirty as human can well be and exist. The poorer women wear their dresses till they become dirty, patched, tattered and ragged, so that the material of which they are made can scarcely be traced. The houses of the peasant are generally built of mud, and without convenience. The chestnut which abounds in the country furnishes, to a considerable extent, the food of the poorer classes. Although inhabiting a fine country, capable of rendering them pros- Craft and their cargoes; and Farming Stock of all descripperous and wealthy, the Bretons grovel on in su- tions in Great Britain and Ireland and the Colonies, and pine idleness and dirt. No wonder the women sell also in foreign countries. their hair, which is abundant and marketable .-The people are accustomed to subsist upon the products of spontaneous crops. In the Pyrenees, the people are industrious and frugal, and the women are accustomed to regard a fine head of black or dark brown hair as only a luxuriant burden .-Boston Courier.

A FISH STORY. -Jim stated to his friend that they had only lost one man on the passage, the earpenter, who fell overboard and was drowned but as he was going over the ship's side caught hold of the grindstone and pulled it with him into the sea. After that the cabin boy was knocking rust off the chains, and let the hatchet fall into the water. A few days later they caught a shark, and on cutting open his belly, found the carpenter inside sharpening his hatchet on the grindstone!

Bachelors are not entirely lost to the refinement of sentiment, for the following toast was given by one of them at a celebration

" The Ladies-Sweet briers in the garden of life." Ominous .- At a wedding recently held in an adjoining town, the bride-who was a widow and about to espouse her third husband-requested the friends present to sing a hymn; and when asked what she would like to have sung, replied, as her first husband was, when alive, very fond of it, she should prefer the hymn which begins as follows: "Hark from the tombs." &c .- Northampton Cour.

THE SEPOY AND THE HIGHLANDERS -A young, intelligent corporal of the 78th Highlanders, writing from Cawnpore (late in Sept.) to his friends in Glasgow, says that while on the march they met the Sepoys and had an engagement with them near comfortable, splendidly situated and commanding the Ganges. While the engagement was going on one of the best views in the city, and in close proxiit fell to be his duty, in company with another mity to the new Steamboat Landing. The furniture soldier, to carry a Highland piper who had been has been purchased expressly for this House, and is wounded in the leg to the rear. They hoisted him tasty and well adapted to the uses required. shoulder high, and were proceeding on their way, The undersigned, by giving his undivided personal when to their utter astonishment, they saw a Se- attention to the business, by keeping his Table conpoy on horseback coming in their direction with stantly supplied with the best the country attords, his sword drawn. The piper, after going through and by employing none but attentive and obliging the ordinary manceavres of loading a gun, lifted servants, hopes to merit a fair share of public patronthe longest shank of his pipes to his shoulder and age. pointed it to the Sepoy's head. No sooner had he done this than the Sepoy turned tail and ran, helter, skelter, in as quick a pace as Tam o' Shanter ower the Brig o'Doon.

Charleston Courier says: "A large spot has every requisite for comfort which can be desired. The recently made its appearance on the surface of house is entirely new, and the rooms are large and well the sun. It is 40,000 miles in diameter, of rather ventilated. No exertion will be spared to secure the comtriangular figure, along the borders of this penum-bre, within which are four or five large puell, and bra, within which are four or five large nucli, and bra, within which are four or five large nucli, and several smaller ones in the form of dots and lines. The Table will be furnished with the best the market The diameter of the spot being five times that of affords. Charges moderate the earth, its surface must be more than six times ** GOOD STABLING is attached to the House, and a the whole surface of the earth, or fifteen times careful Hostler always in attendance. greater than the habitable portion of the globe."

Woman's Temper. - Above all things let woman Horses can be procured at a moment's notice. cultivate a sweet and amiable temper. It is this Nov. 8. 11 [Morn. Cour. 3m.] that makes home happy. Sweet temper of the wife makes the flowers that gem man's pathway. Man, perplexed and annoyed with the cares and toils of a busy day, goes home and is soothed to rest by the inusic of kindly coined words. It is like sunshine lighting the dark and stony places of the heart. Let St. John Hotel, and having thoroughly remodelit be cultivated; for husband and children are a led the same, by enlarging the Dining-Room, putting in thousand fold the happier for it. Woman should new Water-Close's, and making very many modern imstrive to possess a calm, sweet temper; and if it provements, will be prepared, on MONDAY the 9th inst., should happen that any man's eyes fall upon this, we would say that he should pray with all fervency for the very liberal support bestowed upon him while in for a better temper than he has. How some women connection with the firm of Messrs. W. & J. Scammell, as can live with cross, crabbed, ugly men all their proprietors of the old St. John Hotel for sixteen years, lives, and still be so much like angels, is to us one and trusts, by strict attention to business, to merit a share of " the hidden mysteries." -- Spirit of the Age.

Noble Sentiments .- Condemn no man for not thinking as you think. Let every one enjoy the full and free liberty of thinking for himself. Let every man use his own judgment, since every man must give an account of himself to God. Abhor every approach in any kind of degree, to the spirit of persecution. If you cannot reason or persuade of persecution. If you cannot reason of persecution. If you cannot reason of persecution. If you cannot reason of persecution into the attempt to force him into it.—If a man into the attempt to force him into it.—If THE Proprietor of this Establishment, thankful love will not compel him to come, leave him to God, for favors received during the period he occupied the New Brunswick Hotel, and convinced of the publication for the publication for the publication for the publication.

Washington county, N. Y., it takes about eighteen street, capable of accommodating from seventy to eighty acres to keep five cows. The Land is worth \$60 Boarders. This house is well ventilated; the sleeping ares to keep five cows. The Land is worth \$00 an acre, and the cows \$50 each.—The interest on land and cows will amount to \$93; and it is worth \$25 to make the butter. The quantity sold, 600 lbs., at 20 cents, amounts to \$120-\$2 over the house always open and ready to receive them; while the cost of production, provided the butter used the conveniences and moderate charges will render it cmin the family and buttermilk will pay for other phatically the home of the stranger. The tables of this expenses of keeping cows. I think it is a mistaken idea among people that buy their butter, that it can be afforded for less than twenty cents a pound.

Let them go to farming and make butter, and they will find it is the hardest branch of farming busic. will find it is the hardest branch of farming busi- Good Hostlers always in attendance. ness .- Exchange Paper .

Over 500 Farms For Sale IN NEW JERSEY.

FARMS, III a Mild Climate, And within an Hour's Ride of Philadelphia, Pa.

FARMS FOR SALE in Camden, Burlington, and Atlantic Counties, 23 miles from Philadelphia, on the Camden and Atlantic Railroad, New Jersey. A large tract to be divided into small Farms to suit the actual settler, and all persons desiring a Farm. The soil is of the best quality and very productive. For farming purposes it is unexceptionable. It is being extensively improved by good turnpikes. It lies directly upon the Rail Road, and has the largest market for produce, and adjacent to the largest population in the market for produce, and adjacent to the largest population in the Union. The farms are made payable in easy instalments as follows: Certificates entitling to locate 20 acres, \$240, payable \$6 per month. Certificates for Truck Farms of 10 acres, \$120, payable \$5 per month. Large Farms, 50 or 100 acres or more, at the same rate. Large Farms, 50 or 100 acres or more, at the same rate.

This is to be located under valuations placed upon sections at certain and stated times, to accommodate those who cannot locate or settle immediately. The terms are made easy, and payable in instalments, to ensure its rapid improvement, and enhancement in value. Ten thousand acres have been laid out, upon which persons can locate at once, and receive a Deed for the Farms they buy.

The soil is a fine rich LOAM with a CLAY BOTTOM, and retentive of manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of it will be found not to be excelled anywhere in the production of Crops most adapted to its market, such as Corn, Potatoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for trucking, both on account of the nature of the soil, and its being directly in the Philadelphia market. in the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agri-cultural district which supplies the New York and Philadelphia markets, embracing a population of several millions, and where, as may be ascertained from the census reports, farms are the most valuable of any in the Union. All in this neighborhood are exceedingly productive and profitable. Some of this land is now under cultivation Land can be procured already cleared, or partly tim-bered; also under cultivation. Houses are already built and for sale, which will answer the temporary wants of the settler. This location is perfectly healthy; fever and ague is unknown.
The first division of 10,000 acres has been laid out, and immediately adjoins the town of Hammonton. Some is under cultivation— several thousand acres have been cleared for farms; it can at once be placed in a state of productiveness; it is coursed by fine streams of soft and pure water; it is being opened by a number of turnpike roads leading into the town. The price of this is from twelve to twenty dollars per acre—payable within four years, by monthly instalments of from five to ten dollars for twenty acres; larger Farms

in proportion. Everything is on hand to supply settlers-steam and water power saw-mills are in operation. Lumber can be had at a cheap price. A good house can be built at from \$300 to \$500. A brick yard is about being established, and a lateral Rail Road, threefourths of a mile in length, is under contract, to supply Hammonton with stone from the adjacent quarries; stores, workshops, &c., are about being opened. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hundred to expend a h dred thousand dollars more in improvements, such as buildings, The situation of the place is picturesque and beautiful. It is on the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is ingroves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has been laid out in Town Lots, the cost of which is from \$25 to \$100.

A Company has been organized to build houses and clear farms upon credit, as soon as the property is sold. This will enable many to improve who cannot personally attend to it. Arrangements can at once be made to have houses built and farms placed in order by persons at Hammonton. Owing to a great part being cleared, farms can be made immediately productive — when done, they will pay four-fold the cost. In settling here the emigrant has many advantages: He is within a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a SETTLED country, where every improvement and comfort of civil zation is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many thousands of the young and the hardy, in far off regions, away from This presents a rare opportunity to the industrious-it enables all who wish to better their condition to become independent. It will soon be taken up, and, owing to its rapid improvements, it will

greatly enhance in valve. This would all have been settled before had it not been held by large proprietors, who could not until recently dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and familyin a manner which is safe and certain -- against the contingencies of business and misfortunes of life.

The terms are such as to enable any man, at a small saving, at less than the cost of ordinary trifles, to make a purchase. There is a principle in investing in Real Estate which controls our success in life. If we look around amongst our friends and acquaintances who have become wealthy, we find it to be by their investing in Real Estate. The commencement may have been small, but it wa-kens the feeling of acquisition, and opens the field to future effort. It is the solid stepping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish. It is to be preferred to anything else, because it is always certain, and likely to rise in value.

ROUTE:—The railroad Trains go and return from Philadelphia twice a day. Leave Vine street wharf at 7% o'clock, A. M., for Hammonton, and return in the afternoon, (when there, enquire for Judge WALKER, the Agent,) or leave at same place at 32, o'clock, P. M., and return next morning.

There are many already locating, and persons should be prompt, in order to obtain locations to suit them. Committees can go down, examine the land for their friends, and make reports or selections.

A large number of Farmers from New England, Pennsylvania, ew Jersey, and Delaware are about going there, to commence improvements.

Warrantee Deeds will be given to each purchaser. Title is good and INDISPUTABLE. The first instalment upon a purchase is five dollars; which can be sent by letter, and purchase secured.

For full, descriptive Pamphlets, or for Lots or Farms, address JOHN-STILES, Agent, 31 Exchange Street, Boston, where Plans can be seen, and general information obtained. Descriptive PAMPHLETS, PLANS &c., of these LANDS may be seen at the Business Office of this Paper.

LIQUID CATHARTIC. THE public do not require to be told that a mild, safe and reliable cathartic, in a liquid form, agreeable to the taste, and one which purges without violence, is a desideratum in medicine; this fact will be admitted by all. Such & discovery has been often attempted, but without success, until the introduction of the above-named remedy. No patent medicine ever met with such ready approval by physicians as this. Many regular practitioners are using it daily, all of whom have spoken of it in the highest terms of praise. Persons, for the want of a better, have been obliged to resort to the use of those drastic, nauseous, and oftentimes injurious purgatives, such as castor oil, salts, senna, rhubarb, jallop, aloes, gamboge, &c., all of which cause more or less debility, and fail to accomplish the object for which they are taken; on the contrary, they often increase the difficulty, and render the patient less curable. None of these enter into the composition of this invaluable remedy. It is composed of barks, roots and seeds, the medical properties of which are exactly adapted to the cure of those complaints for which it is recommended. By a combination of those properties, the public were put in possession of the most valuable preparation ever produced. This medicine is not intended simply as a cathartic; its value as such is insignificant when compared with its power of purifying the blood from all humors, regulating the action of the bowels, curing Dyspepsia, restoring the appetite, producing a healthy action of the Liver, freeing the stomach from bile, and invigorating and strengthening the whole system. It is a eertain cure for the Piles, and those suffering from that complaint should give it a trial. It is also warranted to cure canker in its worst forms. For all diseases of the Bowels it cannot be recommended too highly. In Summer

Complaints, such as Dysentery, Diarrhœa, Cholera Morbus, &c., it will be found invaluable. Reader, as sure as the sun rises in the east, just so sure you will be benefitted by the use of this medicine for any of the above complaints; and as surely will it relieve those The above medicines require no puffing to effect suffering from Rheumatism, Neuralgia, Tie Doloureux, travel by water will find it invaluable.
