A VISIT FROM SAINT NICHOLAS. BY CLEMENT C. MOORE.

'Twas the night before Christmas, when all through the Not a creature was stirring, not even a mouse; The stockings were hung by the chimney with care, In hopes that St. Nicholas soon would be there; The children were nestled all snug in their beds, While visions of sugar-plums danced in their heads: And Mamma in her 'kerchief, and I in my cap, Had just settled our brains for a long winter's nap; When out on the lawn there arose such a clatter, I sprang from the bed to see what was the matter. Away to the window I flew like a flash, Tore open the shutters and threw up the sash. The moon on the breast of the new fallen snow, Gave the lustre of mid-day to objects below, When, what to my wondering eyes should appear,

But a miniature sleigh, and eight tiny rein-deer, With a little old driver, so lively and quick, I knew in a moment it must be St. Nick. Moro rapid than eagles his coursers they came, And he whistled, and shouted, and called them by

"Now, Dasher! now, Dancer! now, Prancer! and

On, Comet! on Cupid! on, Donder and Blitzen! To the top of the porch! to the top of the wall! Now dash away ! dash away ! dash away all !" As dry leaves that before the wild hurricane fly, When they meet with an obstacle, mount to the sky; So up to the house top the coursers they flew, With the sleigh full of toys and St. Nicholas too .. And then, in a twinkling, I heard on the roof, The prancing and pawing of each little hoof-As I drew in my head, and was turning around,.. Down the chimney St. Yicholas came with a bound. He was dressed all in fur from his head to his foot, And his clothes was all tarnished with ashes and soot: A bundle of toys he had flung on his back, And he looked like a pedlar just opening his pack. His eyes-how they twinkled! his dimples how merry! His cheeks were like roses, his nose like a cherry! His droll little mouth was drawn up like a bow, And the beard of his chin was as white as the snow; The stump of a pipe he held tight in his teeth, And the smoke it encircled his head like a wreath; He had a broad face and a little round belly, That shook, when he laughed, like a bowlful of jelly. He was chubby and plump, a right jolly old elf, And I laughed when I saw him, in spite of myself; A wink of his eye and a twist of his head?. Soon gave me to know I had nothing to dread; He spoke not a word, but went straight to his work,

And filled all the stockings; then turued with a jerk,

he sprang to his sleigh, to his team gave a whistle,

And away they all flew like the down of a thistle.

"Happy Christmas to all, and to all a good-night !"

But I heard him exclaim, ere he drove out of sight,

And laying his finger aside of his nose,

And giving a nod, up the chimney he rose;

The resources of vegetable chemistry, as developed and applied by Thomas Holloway have proved equal to this mighty task. Under the influence of the Ointment, the skin, however disfigured by eruptions or excrecences, becomes a tubula rasa, pure, spotless, and transparent and this erasure of blemishes is not accompanied by driving back disease into the vital recesses of the system, but by neutralizing the morbid ma-

DEATH OF A GREAT MILLONAIRE. - The London Times of the 2nd inst. contains a long biographical notice of one of the "merchant princes" of the great metropolis, who has had most extensive relations with this country. Mr. James Morrison, the eminent millionaire in question, died at his seat, Basidon Park, on the 30th ult., aged 68, and worth \$20,000,000, a considerable portion of which it is stated by the Times, is invested in the United States, and so well invested, too, that it suffers no diminution by the present commercial difficulties. We believe that it was Mr. Morrison who had a suit with the Dry Dock Bank in New York some years since. He went to London a poor boy, and laid the foundation of his great fortune by engaging in the dry goods trade, in which he was the to receive permanent and transient BOARDERS. first to introduce the principle of selling at a small profit to increase the amount of his sales. He afterwards invested largely in lands, and owned large estates in several English counties, and also in Scotland. He was many years in Parliament, of public patronage. and was always a Liberal in politics; he was author of a work on the Defects of English System of perior Stable, in which can be accommodated 15 Herses .-Railway Legislation, and in 1848 a volume was A careful Hostler always in attendance. published by Loughmam, containing a selection from his Parliamentary speeches. He was a selfeducated man, but he possessed a refined taste in literature and art, and had collected a remarkably rich library, and a noble gallery of paintings. Over 500 Farms For Sale IN NEW JERSEY.

FARMS,

In a Mild Climate, And within an Mour's Ride of Philadelphia, Pa. FARMS FOR SALE in Camden, Burlington, and Atlantie Counties, 23 miles from Philadelphia, on the Camden and Atlantis Railroad, New Jersey. A large tract to be divided into small Farms to suit the actual settler, and all persons desiring a Farm. The soil is of the best quality and very productive. For farming purposes it is unexceptionable. It is being extensively improved by good turnpikes. It lies directly upon the Rail Road, and has the largest market for produce, and adjacent to the largest population in the Union. The farms are made payable in easy installment as followed. Certificates entitling to locate 20 acres, \$240, payable \$6 per month. Certificates for Truck Farms of 10 acres, \$120, payable \$5 per month. Large Farms, 50 or 100 acres or more, at the same mee. This is to be located under valuations placed upon sections at cerfain and stated times, to accommodate those who cannot locate of settle immediately. The terms are made casy, and payable in install. ments, to ensure its rapid improvement, and enhancement invalue.

Ten thousand acres have been laid out, upon which parsons can locate at once, and receive a Deed for the Farms they huy. The soil is a fine rich LOAM with a CLAY BOTTOM, and retentive of manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops production of both records. ed both upon this land and the large area adjoining under cultivation it will be found not to be excelled anywhere in the production of Crops most adapted to its market, such as Cern, Potatoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for truck-ing, both on account of the nature of the soil, and its being directly In the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agricultural district which supplies the New York and Philadelphia markets, embracing a population of several millions, and witere, as may be ascertained from the census reports, farms are the most valuable of any in the Union. All in this neighborhood are axceedingly productive and profitable. Some of this land is now under cultivation Land can be procured already cleared, or party tim-bered; also under cultivation. Houses are already built and for This location is perfectly healthy; fever and ague is unknown.

The first division of 10,099 acres has been laid out, and immediately adjoins the town of Hammonton. Some is under cultivation-several thousand acres have been cleared for farms; it can atones b placed in a state of productiveness; it is coursed by fine streams of soft and pure water; it is being opened by a number of turngike roads leading into the town. The price of this is from twelve to twenty dollars per acre—payable within four years, by monthly inin proportion. Everything is on hand to supply settlers—steam and water power saw-mills are in operation. Lumber can be had at as sheap price. A good house can be built at from \$300 to \$500. A. brick yard is about being established, and a lateral Rail Road, three-feurths of a mile in length, is under contract, to supply Hammonton with stone from the adjacent quarries; stores, workshops, &c., are about being opened. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hundred to expend a delay more in improvements, such as buildings. dred thousand dollars more in improvements, such as buildings, turn pike roads, &c. The situation of the place is picturesque and beautiful. It is on. the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has been laid out in Town Lots, the cost of which is from \$25 to \$100. A Company has been organized to build houses and clear farms upon credit, as soon as the property is sold. This will enable many to improve who cannot personally attend to it. Arrangements can at once be made to have houses built and farms placed in order by persons at Hammonton. Owing to a great part being cleared, farms can be made immediately productive - when done, they will pay In settling here the emigrant has many advantages: He is within a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a. SETTLED country, where every improvement and comfort of civilization is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many thousands of the young and the hardy, in far off regions, away from

home and friends.

This presents a rare opportunity to the industrious—it enables all who wish to better their condition to become independent. It will seen be taken up, and, owing to its rapid imprevements, it will greatly enhance in valve. This would all have been settled before had it not been held by large proprietors, who could not until recently dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and family— in a manner which is safe and certain—against the contingencies ousiness and misfortunes of life. The terms are such as to enable any man, at a small saving, at less than the cost of ordinary trifles, to make a purchase. There is a principle in investing in Real Estate which controls our success in life. If we look around amongst our friends and acquaintances who have become wealthy, we find it to be by their investing in Real Estate. The commencement may have been small, but it wa-kens the feeling of acquisition, and opens the field to future effort. It is the solid stepping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish. It is to be preferred to anything else, because it is always certain, and likely to rise in value.

LIQUID CATHARTIC. the taste, and one which purges without violence, is a desideratum in medicine; this fact will be admitted by all. Such a discovery has been often attempted, but without success, until the introduction of the above-named remedy. No patent medicine ever mot with such ready approval by physicians as this. Many regular practitioners are asing it daily, all of whom have spoken of it in the highest terms of praise. Persons, for the want of a better, have been obliged to resort to the use of those drastic, nauseous, and oftentimes injurious purgatives, such as castor oil, salts, senna, rhubarb, jallop, aloes, gamboge, &c., all of which cause more or less debility, and fail to accomplish the object for which they are taken; on the contrary, they often increase the difficulty, and render the patient less curable. None of these enter into the composition of this invaluable remedy. It is composed of barks, roots and seeds, the medical properties of which are exactly adapted to the cure of those complaints for which it is recommended. By a combination of those properties, One Bottle will convince the most sceptical of its | the public were put in possession of the most valuable preparation ever produced. This medicine is not intended simply as a cathartic; its value as such is insignificant when compared with its power of purifying the blood from all humors, regulating the action of the bowels, curing Dyspepsia, restoring the appetite, producing a healthy action of the Liver, freeing the stomach from bile, and invigorating and strengthening the whole system. It is a certain cure for the Piles, and those suffering from that complaint should give it a trial. It is also warranted to cure canker in its worst forms. For all diseases of the Bowels it cannot be recommended too highly. In Summer Complaints, such as Dysentery, Diarrhœa, Cholera Morbus, &c., it will be found invaluable.

Reader, as sure as the sun rises in the east, just so sure you will be benefitted by the use of this medicine for any The above medicines require no puffing to effect suffering from Rheumatism, Neuralgia, Tic Doloureux, Gout, Headache, and Pain in the Side and Stomach, caused by Flatulency.
