LIFE'S SHADOW'S. BY FINLEY JOHNSON.

Dark shadows always follow light, And mountains frown o'er vales; And oft the sweetest, lightest airs, Precede the heaviest gales; The burning sun of summer time Provokes the earliest dew;

And ships full rigg'd feel most the blasts, That in their wake pursue,

Thus all our fondest hopes, when grown, Lose their ideal grace; They turn to ashes when we seek To clasp them to embrace; They fade away as fades the dew From off the morning flowers; And as long years roll swiftly on,

Their shadows are but ours. As polished steel receives a stain From drops at random flung, So does the child-when words prefane Drop from the parent tongue.

The rust eats in, and oft we find That nought which we can do, To cleanse the metal or the mind, That Brightness will renew,

Over 500 Farms For Sale IN NEW JERSEY.

Crops most adapted to its market, such as Corn, Potatoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for trucking, both on account of the nature of the soil, and its being directly in the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agricultural district which supplies the New York and Philadelphia markets, embracing a population of several millions, and where, as may be ascertained from the census reports, farms are the most valuable of any in the Union. All in this neighborhood are exceedingly productive and profitable. Some of this land is now under cultivation Land can be procured already cleared, or partly timbered; also under cultivation. Houses are already built and for sale, which will answer the temporary wants of the settler.

This location is perfectly healthy; fever and ague is unknown. This location is perfectly healthy; fever and ague is unknown.

The first division of 10,000 acres has been laid out, and immediately adjoins the town of Hammonton. Some is under cultivationseveral thousand acres have been cleared for farms; it can at once be placed in a state of productiveness; it is coursed by fine streams of soft and pure water; it is being opened by a number of turnpike roads leading into the town. The price of this is from twelve to twenty dollars per acre—payable within four years, by monthly instalments of from five to ten dollars for twenty acres; larger Farms in proportion. Everything is on hard to supply settlers—steam and water power saw-mills are in operation. Lumber can be had at a cheap price. A good house can be built at from \$300 to \$500. A brick yard is about being established, and a lateral Rail Road, three-fourths of a mile in length, is under contract, to supply Hammonton with stone from the adjacent quarries; stores, workshops, &c.,

are about being opened. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hundred thousand dollars more in improvements, such as buildings, The situation of the place is picturesque and beautiful. It is on the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has been laid out in Town Lots, the cost of which is from \$25 to \$100. A Company has been organized to build houses and clear farms upon credit, as soon as the property is sold. This will enable many to improve who cannot personally attend to it. Arrangements can at once be made to have houses built and farms placed in order by persons at Hammonton. Owing to a great part being cleared, farms can be made immediately productive - when done, they will pay In settling here the emigrant has many advantages: He is within In settling here the emigrant has many advantages: He is within a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a SETTLED country, where every improvement and comfort of civilization is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many thousands of the young and the hardy, in far off regions, away from home and friends. This presents a rare opportunity to the industrious—it enables all who wish to better their condition to become independent. It will soon be taken up, and, owing to its rapid improvements, it will greatly enhance in valve. This would all have been settled before had it not been held by large proprietors, who could not until recently dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and family in a manner which is safe and certain -- against the contingencies of business and misfortunes of life.

The terms are such as to enable any man, at a small saving, at less than the cost of ordinary trifles, to make a purchase. There is a principle in investing in Keal Estate which controls our success in life. If we look around amongst our friends and acquaintances who have become wealthy, we find it to be by their investing in Real Estate. The commencement may have been small, but it wakens the feeling of acquisition, and opens the field to future effort. It is the solid stepping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish. It is to be preferred to anything else, because it is always

THE GREAT FAMILY REMEDY!

G. W. STONE'S

VEGETABLE LIQUID CATHARTIC. THE public do not require to be told that a mild, safe and reliable cathartic, in a liquid form, agreeable to the taste, and one which purges without violence, is a desideratum in medicine; this fact will be admitted by all. Such a discovery has been often attempted, but without success, until the introduction of the above-named remedy. No patent medicine ever met with such ready approval by physicians as this. Many regular practitioners are asing it daily, all of whom have spoken of it in the highest terms of praise. Persons, for the want of a better, have been obliged to resort to the use of those drastic, nauseous, and oftentimes injurious purgatives, such as castor oil, salts, senna, rhubarb, jallop, aloes, gamboge, &c., all of which cause more or less debility, and fail to accomplish the object for which they are taken; on the contrary, they often increase the difficulty, and render the patient less curable. None of these enter into the composition of this invaluable remedy. It is composed of barks, roots and seeds, the medical properties of which are exactly adapted to the cure of those complaints for which it is recommended. By a combination of those properties, One Bottle will convince the most sceptical of its the public were put in possession of the most valuable preparation ever produced. This medicine is not intended simply as a cathartic; its value as such is insignificant when compared with its power of purifying the blood from all humors, regulating the action of the bowels, curing Dyspepsia, restoring the appetite, producing a healthy action of the Liver, freeing the stomach from bile, and invigorating and strengthening the whole system. It is a certain cure for the Piles, and those suffering from that complaint should give it a trial. It is also warranted to

cure canker in its worst forms. For all diseases of the Bowels it cannot be recommended too highly. In Summer Complaints, such as Dysentery, Diarrhæa, Cholera Morbus, &c., it will be found invaluable. Reader, as sure as the sun rises in the east, just so sure you will be benefitted by the use of this medicine for any of the above complaints; and as surely will it relieve those suffering from Rheumatism, Neuralgia, Tic Doloureux Gout, Headache, and Pain in the Side and Stomach, caused by Flatulency. Loss of Appetite, Indigestion, general Debility, &c., is often produced by wind in the Stomach, which this remedy will expel at once. It is also an exceltravel by water will find it invaluable.
