IN NEW JERSEY. Over 500 Farms For Sale FARMS, STEED FARMS,

In a Mild Climate, And within an Hoar's Ride of Philadelphia, Pa. FARMS FOR SALE in Camden, Burlington, and Atlantic Counties, 23 miles from Philadelphia, on the Camden and Atlantic Railroad, New Jersey. A large tract to be divided into small Farms to suit the actual settler, and all persons desiring a Farm. The soil is of the best quality and very productive. For farming purposes it is unexceptionable. It is being extensively improved by good turnpikes. It lies directly upon the Rail Road, and has the largest market for produce, and adjacent to the largest population in the Union. The farms are made payable in easy instalments as follows: Certificates entitling to locate 20 neres, \$ 240, payable \$6 per month. Certificates for Truck Farms of i0 neres, \$1.10, payable \$5 per month. Large Farme, 50 or 100 acres or more, at the same rate, This is to be located under valuations placed upon sections at certain and stated times, to accommodate those who cannot locate or settle immediately. The ferms are made easy, and payable in instal-

reents, to ensure its rapid improvement, and enhancement in value.

Ten thousand acres have been laid out, upon which persons can locate at once, and receive a Deed for the Farms they buy.

The soil is a fine rich LOAM with a CLAY BOTTOM, and retentive of manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled any where in the production of Crops most adapted to its market such as Corn. Potatoes. Oats, and Crops most adapted to its market, such as Corn, Potstoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for trucking, both on account of the nature of the soil, and its being directly the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agri-cultural district which supplies the New York and Philadelphia markets, embracing a population of several millions, and where, as may be ascertained from the census reports, farms are the most valuable of any in the Union. All in this neighborhood are exceedingly productive and profitable. Some of this land is now under cultivation Land can be procured already cleared, or partly timbered; also under cultivation. Houses are already built and for sale, which will answer the temporary wants of the settler.

This location is perfectly healthy; fever and ague is unknown.

The first division of 10,000 acres has been laid out, and immediately adjoins the town of Hammonton. Some is under cultivation several thousand acres have been cleared for farms; it can at once be placed in a state of productiveness; it is coursed by fine streams of soft and pure water; it is being opened by a number of turnpike roads leading into the town. The piece of this is from twelve to twenty dollars per acre—payable within four years, by monthly instalments of from five to ten dollars for twenty acres; larger Farms in proportion. in proportion. Everything is on hand to sup: ly settlers-steam and water power saw-mills are in operation. Lumber can be had at a cheap price. A good house can be built at from \$200 to \$500. A brick yard is about being established, and a lateral Rail Road, threefourths of a mile in length, is under contract, to supply Hammonton with stone from the adjacent quarries; stores, workshops, &c., are about being opened. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hundred thousand dollars more in improvements, such as buildings, turnpike roads. &c.

The situation of the place is picturesque and beautiful. It is on the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has been laid out in Town Lots, the cost of which is from \$25 to \$100.

A Company has been organized to build houses and clear farms upon credit, as soon as the property is sold. This will enable many to improve who cannot personally attended it. Arrangements can

to improve who cannot personally attended it. Arrangements can at once be made to have houses built and farms placed in order by persons at Hummonton. Owing to a great part being cleared, farms can be made immediately productive - when done, they will pay can be made immediately productive—when done, they will pay four-fold the cost.

In settling here the emigrant has many advantages: He is within a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a SETTLED country, where every improvement and comfort of civilization is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many thousands of the young and the hardy, in far off regions, away from thousands of the young and the hardy, in far off regions, away from This presents a rare opportunity to the industrious-it enables all who wish to better their condition to become independent. It will soon be taken up, and, owing to its rapid improvements, it will greatly enhance in valve. This would all have been settled before and it not been held by large proprietors, who could not until recently dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and family—in a manner which is safe and certain—against the contingencies The terms are such as to enable any man, at a small saving, at less than the cost of ordinary trifles, to make a purchase. There is a principle in investing in Real Estate which controls our success in life. If we look around amongst our friends and acquaintances who have become wealthy, we find it to be by their investing in Real Estate. The commencement may have been small, but it wakens the feeling of acquisition, and opens the field to future effort. It is the solid stepping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish It is to be preferred to anything else, because it is always pertain, and likely to rise in value.

ROUTE: - The milroud Trains go and return from Philadelphia twice a day. Leave Vine street wharf at 7% o'clock, A. M., for Hammonton, and return in the afternoon, (when there, enquire for Judge WALKER, the Agent,) or leave at same place at 34, o'clock, P. M., and return next morning.

There are many already locating, and persons should be prompt, in order to obtain locations to suit them. Committees can go down, examine the land for their fliends, and make reports or selections. A large number of Farmers from New England, Pennsylvania, New Jersey, and Delaware are about going there, to improvements.

Warraptee Deeds will be given to each purchaser. Title is good and INDISPUTABLE. The first instalment upon a purchase is five dollars; which can be sent by letter, and purchase secured.

For full, descriptive Pamphlets, or for Lots or Farms, address
JOHN STILES, Agent, 31 Exchange Street, Boston, where Plans
can be seen, and general information obtained. Descriptive PAMPHLETS, PLANS &c., of these LANDS

nay be seen at the Business Office of this Paper. NEW STORE
