The Pioneer mentions approvingly that, at the to dress, &c.

We have the important fact to announce that the St. John Freeman has really been amused --probably his features relaxed into a smile; and we have been the happy instruments. We stated some facts about the Government, and, as he could not serew his courage up to deny them, much less attempt to disprove them, why, he made up his miad to "grin and bear it," -and he has recorded the grin on paper ; -he was vastly amused !

The Journal thinks that the Government acted wrong toward the Central Bank, because they used the money of the Province to pay the Provincial debts. Very well; let him think so;who else does? The Journal intimates that we are the slave of a party: we might retort, and say that people call him the slave of a very small part of the Central Bank.

The Journal takes ready hold of our statement that a satisfactory exposition could not now be given of the how and when all the exigencies of the Province had been provided for, &c., but is very careful not to give any credit for those that are

The Journal enquires how the Board of Works that the conclusion was arrived at from estimates made by Mr. Smith. However, whether our con-Falls, in order to satisfy the editor of the Journal p. m .- Comm. -(he is the only person who has openly found fault with them).

Alas! the Journal preaches loudly against onesided views; but he is one-sided as a slab .- Expressive, though not elegant!

Wistar's Balsam these fragments lying on the ground-fragments of of Wild Cherry is the remedy in such cases. Hindoos and fragments of Mussulmans, all mixed together, were all that remained of these ten mutineers. Three times more was this scene repeated, but so great is the disgust we all feel for the atrocities committed by the rebels, that we had no room in our hearts for any feeling of pity; perfect callousness was depicted on every European's face; a look of grim satisfaction could even be seen in

But far different was the effect on the native por-

tion of the spectators; their black faces grew

You must know that this is nearly the only form in which death has any terrors for a native. If Wednesday next is appointed by His Excellency he is hung, or shot by musketry, he knows that burned with all due ceremonies; and if a Mussulman, that his remains will be decently interred, as directed in the Koran. But if sentericed to death in this form, he knows that his body will be blown into a thousand pieces, and that it will be altogether impossible for his relatives, however devoted to him, to be sure of picking up all the fragments of his own particular body, and the thought that perhaps a limb of some one of a different religion to himself might possibly he burned or burned with the remainder of his own body is agony to him. But notwithstanding this, it was impossible for the mutineers' direct hater not b feel some decree of admiration for the way in which they met their deaths. Nothing in their lives became them as likely to render such a step unnecessary. Funds like the leaving of them. If the whole forty, only two showed any signs of fear, and they were bitterly reproached by the others for so disgracing their race. They certainly died like men. After the first ten had been disposed of, the next batch. who had been looking on all the time, walked allowed themselves to be blindfolded and tied up cial. without moving a muscle, or showing the slightest men this strength? Their religion, bad as it may be and is, in all other points, at least befriends

them well at the hour of death; it teaches them well that great and useful lesson, how to die .-Letter from Peshawur.

DR. MORSE'S INDIAN ROOT PILLS.

The Atlantic Telegraph Company have decided to is small; but for those who are suffering under pulmonary Pills, has spent the greater part of his life in travelatively their cable in the latter part of next June. coming, having visited Europe, Asia and Africa, as well as North America - has spent three years among the Indians of our Western country-it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from impurity of the blood-that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not

act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health wo are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant. that opens and unclogs the passage to the lung, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors frem the lungs by copious spitting. The third is a Diuretic, which gives ease and strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out beautifully by the urinary ed in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up. and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united and the life of the body, which is the blood, becomes perfeetly healthy; consequently all sickness and pain is driv-"HE THAT HATH AN EAR, LET HIM en from the system, for they cannot remain when the body

why so many die, is because they do not get a medicine The instrument has been successfully used by Lord Chief which will pass to the afflicted parts, and which will open a large quantity of food and other matter is ledged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning element of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify that disease-the deadly ene-THE ALMOST FABULOUS CURES my-will take its flight, and the flush of youth and beau-
